Ben is the personification of reticence, but we finally wiggled through his armor and placed on the colonel, which we have carefully pickled down for future mint-ages.  
 "Doc" Osborn's peach tree has for the last time bloomed on Main street, for the concrete sidewalk is being put in, and the tree had to make way for it. The Press proposed that it be carefully taken up and transplanted in the City Park where it might continue to put forth its bloom and produce its fruit of nondescript variety. But Hank Caplinger beat us to it, and removed the old land mark to his orchard above town, where it will receive a good home in fertile soil.  
 Wm. McBride was in town Friday, for the first time since he was afflicted with smallpox, several weeks ago.  A splendid specimen of the Great Peacock Moth is being proudly displayed by Martha Hut, a pupil of the 6th grade in the Athena school. The cocoon, with others was secured in the early spring, attached to a willow bough and was carefully watched during incubation, with the result that a great golden brown velvet creature with the real peacock spots, such as would delight the heart of the author of "The Girl of the Limerlost," has miraculously burst from the colorless little shell. This was the only specimen secured and will be carefully preserved.
