5 Women Croid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

- HODGSON, ME.**—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—Mrs. HAYWARD SWANSON, Hodgson, Me.
- CHARLOTTE, N. C.**—"I was in bad health for two years, with pains in both sides and was very nervous. I had a growth which the doctor said was a tumor, and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health."—Mrs. ROSA SIMS, 10 Wilona St., Charlotte, N. C.
- HANOVER, PA.**—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new woman and can do a hard day's work and not mind it."—Mrs. ANA WELT, 100 Stock St., Hanover, Pa.
- DECATUR, ILL.**—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—Mrs. LAVRA A. GAINSWORTH, 2900 Blk. East William Street, Decatur, Ill.
- CLEVELAND, OHIO.**—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. E. GRUBBIE, 7305 Madison Ave., Cleveland, O.

TAKES OFF DANDRUFF, HAIR STOPS FALLING
 Save your Hair! Get a 25-cent bottle of Danderrine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderrine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderrine. Save your hair! Try it!

Only a Lease.
 "George Cohen, just the day before his automobile accident, was talking to me about a beautiful chorus girl who had married a millionaire of 78 years," said a Philadelphia impresario. "I was shocked. I was indignant, for the girl is one of the loveliest creatures I've ever seen."
 "To think of her!" I growled. "To think that that beautiful chorus girl should sell herself to such an old rascal!"
 "Cohen smiled his queer little twisted smile."
 "My dear boy," he said, "this isn't a sale—it's a lease."—Washington Herald.

DESSERT NEEDS STUDY
IMPORTANT AT EITHER FORMAL OR FAMILY DINNER.

Must of Necessity Be Attractive in Appearance to Be Thoroughly Enjoyed, and Its Food Value is Also to Be Considered.

It is considered bad taste when dining to show the least concern in regard to the courses following the one being served, yet a few people show courage enough sometimes to ask what the dessert may be. One college girl used to ask the maid to tell her whenever mince pie was to be served.

This girl understood the food value of that piece of mince pie and she knew if she wished to partake of it she must curtail the courses preceding. An ordinary piece of mince pie is equal in food value to a piece of roast beef, a medium-sized potato and a slice of bread, with a liberal amount of butter.

There are two extremes: Desserts far too heavy unless their real food value is known and the rest of the meal is planned accordingly, and desserts too light to satisfy the hunger unless a sufficient supply of other things be eaten. What place, then, have desserts in the diet? Do they serve a purpose or are they simply waste efforts?

Perhaps there is no portion of the meal which requires more time, more thought in planning and more care in preparation than the dessert. An ideal dessert must be well flavored and attractive in appearance if it is to be above criticism. The appetite is to some extent appeased and hence appearance and flavor are means of "tickling the palate." A piece of meat may be practically ruined in cooking and yet be eaten with disappointment, perhaps; but a poorly prepared dessert will be left untouched. A dessert falling in its essential quality, its appeal to the appetite, can be considered a waste of effort.

The one essential which makes a dessert a product well worth the time, care, thought and actual cost, or makes it simply a waste effort from every standpoint, is the knowledge of its true food value, then making it serve its purpose in that respect.

A housekeeper should have a little table of desserts carefully classified for constant reference or written out in tabular form, arranging her stock of successful desserts into three classes, perhaps, as heavy, medium and light. Then she should consider whether the dinner she is planning is high in food value or low and supply the kind of dessert that will make a well-balanced meal. The following table will illustrate such a classification:

- Heavy Desserts—Pies, cakes and cookies, suet puddings, rich short cakes, rich ice cream preserves.
- Medium Desserts—Custards and souffles, rice, cornstarch, sago, tapioca puddings.
- Light Desserts—Speedy and stewed fruits, plain gelatine jelly, jankets.

Japanese Napery.
 Have you ever tried the experiment of using Japanese napery, Mrs. Young Housekeeper? Of course, you've often seen the ten-yard bolts of 12-inch wide coarse white cotton printed with a bird, flower or butterfly design in Canton blue. But do you know that one of these bolts may be cut into two sets of yard-and-a-half strips, and that these placed—one lengthwise and two crosswise on your diningroom table do quite as well as the conventional cloth and are only half the trouble to handle and to launder? For breakfast and luncheon napkins may be made from squares cut from the bolt, and while these will not do for dinner white serviettes go nicely with the Japanese scarfing.

Different housekeepers have different ways of finishing the raw ends of the scarfs. They may be hemmed like the ordinary napkin, hemstitched or trimmed with a short white cotton fringe. After many launderings the blue of the printing may fade a trifle, but it will never become shabby looking.

Jellied Salmon Salad.
 Take a pint of canned salmon, drain and remove the skin and bones. Mince fine, add a tablespoon of lemon juice, a dash of red pepper, a teaspoon of minced parsley and salt to taste. Mix together and bind with your favorite salad dressing and a tablespoon of powdered gelatine dissolved in a quarter of a cupful of water. Fill small molds and set them on ice to chill quickly. Turn out on crisp lettuce leaves. Garnish with olives and serve with mayonnaise or cucumber sauce.

Soap Shredder.
 An ordinary wire soap cage or holder makes an excellent soap shredder, says the Christian Science Monitor. Remove the cake of soap from within the holder, close it and simply rub the soap across the outside, and soon one has a holder full of shredded soap which may be emptied out into the boiler; or the holder and its contents may be immersed in the water.

Tomato Catsup.
 One tablespoon cloves, allspice, cinnamon, nutmeg, one teaspoon black pepper, one teaspoon cayenne pepper, one and one-half pints vinegar, one tablespoon salt; add a little sugar. Stew and strain one peck tomatoes, then add ingredients, boil two hours, then bottle.—A. T. S.

Labor Saver.
 Spread a couple of thicknesses of newspapers on your sink board. Set your skillets, saucepans or other dirty dishes on the paper instead of on the board. This saves the board from many a stain and much scouring.

To Remove Mud Stains From Silk.
 Mud stains on silk can generally be removed by rubbing with a piece of rough cloth or flannel. If a stain is left where the mud has been, rub it with a bit of clean linen dipped in benzine or alcohol.

DOCKED LAMBS ARE FAVORED
 Hot Pinchers Recommended If Animals Are Six Weeks to Two Months Old—Two Men Required.

With the increasing number of lambs marketed, the competition among sellers increases, and since docked lambs are preferred and find a more ready sale than undocked ones, the advisability of docking is evident from the market standpoint. From the breeder's point of view, docking decreases the trouble with maggots, which cause trouble if the lambs have had scours, and greatly increases the general appearance and uniformity of the flock.

In the last few years a method of docking has come into practice which has given excellent satisfaction. It is

Peculiar After Effects of Grip This Year
 Leaves Kidneys in Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run-down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and being an herbal compound has no irritating or heating effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents, in every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50c. and \$1.00. For sale at all druggists. Be sure to mention this paper.

Farewell Forever.
 A Frenchman staying at a London hotel, when presented with his bill, paid it without formal protest, but was indignant at its amount. "I wish to see your proprietor," he said to the clerk. In a minute the proprietor appeared. The Frenchman was all smiles. "Ah," he exclaimed, "I must embrace you." "But why should you embrace me?" asked the astonished hotel keeper. "I do not understand." "Look at zee bill!" "Yes, your receipted bill. What of it?" "What of eet? Simply zees, saire? It means zat I shall neverle, no, ne more, see you again."—Houston Chronicle.

TO INCREASE ALFALFA YIELD
 Best Way of Inoculating is to Spread Soil Taken From an Old and Well-Established Field.

There are two general ways of inoculating the soil for alfalfa. The best is by spreading soil from an old, well-established and vigorous alfalfa field or from a sweet clover patch. If a few hundred pounds of this soil is scattered on land which has been properly prepared and manured, and if the soil has not been exposed to the sun or allowed to dry out, good results will usually follow. The other method is by the use of culture. It comes in bottles and is used on the seed. The ordinary cost of a sufficient amount to treat the seed for one acre is about \$2. The United States government also furnishes the culture in limited quantities.

Facts in Nature
 FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., used the powdered extract as well as the liquid extracts of native medicinal plants, such as Bloodroot and Quercus root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S Golden Medical Discovery
 and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form from your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alterative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 400 pages, clothbound. ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

The Only Way.

Gets Right Twist On Rheumatism
Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.
 Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S., and been handed something claimed to be "just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the arteries directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every osseous structure becomes an effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflaming atom of poison; it discloses by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders

them neutral and scatters those peculiar formations; and the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the doctor that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 294 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED
 Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.
