JOHNS

For
REPUBLICAN
Governor

Give this Job to a man who will reduce Taxes and cut down expenses

If you had an interest in a private business you would want it conducted on business principles. You have an interest in the affairs of this State. The State of Oregon is a business institution run for the benefit of the people in it, in a certain sense, are stockholders in its business interests.

TAXES MUST BE REDUCED!

In the coming primary election, Charles A. Johns, of Portland, will ask the vote of every person who believes the State of Oregon needs to have taxes reduced and expenses cut down. The only way to reduce taxes and cut down expenses is to apply the same principles in running the State that you would apply in running your own business. How many institutions would run along with an increase of operating expenses from year to year? Not many. Well, let's reduce our taxes and cut down our expenses. Charles A. Johns, of Portland, is running on that platform and stands on his platform. Get him on the job! Start thinking about this today!

Will you elect a man who will cut down expenses and reduce taxes, or a politician, as our next Governor? The issue is clear. One will cut down taxes—the other will give jobs to his political friends. Which do you want? Paid Advertisement.
