In Barrett Building, Athena, Or.

So many of our friends have asked us: "What is the meaning of
"TUM-A-LUM"
that we are going to explain the origin of the word. Like a good many words in English, "TUM-A-LUM" is derived from a great many languages. Originally, from the CHINOOK INDIAN meaning "SCATTERED WATERS" "TUM-A-LUM" has come to mean:
IN FRENCH, "TO EXCEL."
IN DUTCH, "HANDLING THE BEST OF GRADES."
IN GERMAN, "SERVICE."
IN IRISH, "QUALITY."
IN SPANISH, "THE BEST FOR THE MONEY."
Put all of the above meanings together and you have the meaning of TUM-A-LUM in ENGLISH. But in the language of Athena, TUM-A-LUM stands for THE UP-TO-DATE LUMBER YARD.
A fine lot of Screen Doors on hand.
The Tum-a-Lum Lumber Company
"See A. M. JOHNSON about it."

BODY OF DUDLEY IS GIVEN UP BY RIVER

WEIGHTED WITH ROCKS IT WAS FOUND AT OREGON CITY.

Portland Friends Believe He Suicided After Worrying Over Mexican Mines.

The mystery surrounding the disappearance of Marshall S. Dudley, brother of E. A. Dudley of this city, who suddenly dropped out of sight at Portland, February 2, was cleared up Tuesday morning at Oregon City, where his badly decomposed body was found in the Willamette river and identified by a picture of a little girl in his watch case.

The picture was that of Hazel Miller, aged 15 years, and had been placed in the watch since years ago. The girl, whose family were old friends of Mr. Dudley, saw in the newspapers the account of finding a body in the river and when the picture was mentioned, it was she who made positive identification possible.

The body was dressed in a black serge suit and a gray overcoat, white shirt and collar, and on it was the watch and a pair of gold-rimmed spectacles. No money or valuables other than the watch were found. Three snags of rocks were tied about the waist and the overcoat pockets were full of rocks.

The body was found floating in about 25 feet of water. An inquest was held and the coroner's jury returned a verdict of death from drowning with suicidal intent. The body was immediately buried, as it was in the last stages of decay. No marks of violence or injury were disclosed on the body.

Portland friends of Mr. Dudley believe that if the case is one of suicide, death was chosen by him through despondency over the fact that the Mexican war kept him from developing a mine in Mexico, in which he and a group of Portland men were interested. Mr. Dudley was a mining engineer, and for many years was Senator Bourne's mining expert and confidential advisor in the management of mining properties.

Last summer he visited at the home of his brother here, and was very optimistic over the eventual results he expected from his Mexican mining property. The mine is the fabulously described Mina-La-Paloma, in Sonora, 100 miles across the line. It has been called the Mine of the Million Shafes, and has a wonderfully romantic history back of it.

The last name comes from the fact that the property is spots is honey-combed with openings or burrows, just large enough to admit the body of a man to crawl in. Legend has it that this is the long lost mine from which the Aztec Indians obtained the nuggets of gold, in the time of the Spanish occupation.

It was five years ago that Mr. Dudley made a find of gold nuggets on the bedrock of this mine, and interested Portland friends in the proposition. One of his possessions of recent years was a bottle full of little pieces of gold from this mine.

Portland men interested in the company, say he constantly brooded over the Mexican trouble. To one short time before he disappeared, he spoke of a new development in the Mexican war situation as "prolonging his agony."

It is admitted that indications point to suicide but the theory of murder also exists. Miss Ida Arneson, who has charge of Senator Bourne's office in Portland, scouted the idea of suicide. She informs a Portland newspaper that just before Mr. Dudley's disappearance, he bought some new clothes and had a considerable amount of money on his person. She firmly believes he was robbed and then murdered.

Statement of Joseph N. Scott.
To my Democratic Friends:
I wish to state that I am an active candidate for the Democratic nomination for State Senator for the Nineteenth District including Morrow, Umatilla and Union Counties, and that I will deeply appreciate any support that I may receive in the primary election. If elected, my policy in brief will be: Honesty in public life; economy in state and county administration; governor's veto to apply to separate items in appropriation bills; more power for the governor for enforcing the laws. I am against log-rolling methods of legislation. I am a native of Umatilla County, thirty-seven years of age, am engaged in wheat raising; have been a close student of political questions since boyhood and I promise my best efforts toward the betterment of our State and local government.
JOSEPH N. SCOTT,
Athena, Oregon, May 6, 1914.

Walla Walla Valley Dramatic Co.
The Walla Walla Valley Club will present the drama, "Merely a Maid," in the Athena Opera House tomorrow evening, May 9. The play, which is a modern English drama, is strong, sympathetic and of varied interest, and has been successful in making a strong appeal to the public.

Dr. Anna Howard Shaw, 67, Says All Will Vote by Time She Is 70

Photo copyright by American Press Association.

PERHAPS if the Rev. Dr. Anna Howard Shaw had not been brought from England by her parents when she was four years old she might have lived to be one of England's shining militants. As it is, she is America's most shining suffragist, and a little bit militant at that. Dr. Shaw was born at Newnham-on-Tyne, England, Feb. 14, 1847, so that she is now just sixty-seven years old. After a brief but stormy pupil career—stormy because of her sex—she began active suffrage work in 1885 and has been president of the National American Woman Suffrage association since 1904. Since the death of Susan B. Anthony she has been regarded as the "grand old woman of woman suffrage." She thinks all women in the United States will have the vote within three years.

LAYING NINETY POUND RAILS

Heavier Engines Will Be Put On the Washington Division.

Ninety pound steel rails are being laid on the roadbed of the Washington division of the O. W. R. & N. The work is nearly completed, and when finished, larger engines will be used to pull trains over the road. Austrian construction crews have been engaged in laying the steel for several months. The steel rails are not new material having been formerly in use on the main line but they are in good condition and will handle the traffic on this division for many years to come.

The big rails are handled by gangs of eight men to the rail. Two men work together on opposite sides of the rail, which they grapple with a huge pair of tongs, which have handles about three feet in length. There is considerable system about the work with the result that the heavy steel is easily handled by the eight men. The work on this division is being done exclusively by Austrians, and Wednesday being a holiday in honor of some saint or other it was observed and as the result of said holiday and the consumption of several kegs of beer, war broke out in the evening in Athena's little Austria, down among the bunk cars.

From the evidence given in court yesterday morning by three belligerents and an interpreter, the fight was started by two brothers against a third division of the Austrian army consisting of one individual, who proved to be versed in the knife-welding game, as was attested by the cuts he carved on his two adversaries. Judge Richards fined the bunch of three \$10 a head.

TIME TO CURTAIL STUDY.

Check Brain Work When the Child is Growing Rapidly.

As soon as a child begins to grow rapidly all intellectual exertion should be checked. Such is the theory which Dr. C. Mercier, the famous English authority on children, expresses in an article in the London Lancet. Especially when there is any family tendency to nervous or mental disorder, rapidly growing children should be withdrawn from school altogether until the period of rapid growth is over. Mercier does not think that intellectual work at high pressure is harmful to either boys or girls as long as food, sleep and bodily exercise are sufficient, but he is sure that pressure of intellectual work in those who are growing rapidly should never be permitted, and if growth be proceeding very rapidly all intellectual work should be put aside.

Dr. Mercier insists that it is scarcely possible to give growing children too much to eat, and it should always be borne in mind that the carbohydrates—starch, sugar and fat—are mainly fuel that is burned up in producing muscular movement and that the proteins are the main elements in the formation of tissue. Consequently it is a mistake to restrict the meat ration of children.

MAY USE OIL ON ATHENA STREETS

INVESTIGATING INTO COST OF OIL AND SPRINKLER.

City Treasurer Issues Call to Redeem All Outstanding City Warrants to Date.

At the meeting of the city council, Monday evening, the matter of sprinkling the streets with oil, instead of water, was discussed, and as a result of the discussion, the recorder was instructed to correspond with the Standard Oil company, relative to the price on oil and the cost of an oil street sprinkler.

The proposal of oiling the streets has its primary inception in the fact that the cost of sprinkling with water costs the city about \$350 per year with the result that only Main street receives any sprinkling. The other streets of the city are left without any sprinkling whatever, the property owners thereon receiving no benefit whatever, though being taxed for street sprinkling, yearly.

In event the cost of oil is found within reasonable price limits, it is possible that all main traveled streets of Athena will be coated with oil this season.

The water committee reported that an agent will arrive shortly to confer with the members on the proper installation of a pumping plant at the new well at the head of the gravity water system, for use in dry seasons and emergencies that may arise. A resolution was passed which prohibits waste water from being turned into Main street gutters. The council accepted the drainage pipe line on the drainage system, put in by Contractor Betzel, and the marshal was instructed to see that the drained basements on Main street were cleaned and fumigated.

The city treasurer was authorized to issue a call for all outstanding warrants against the City of Athena. The call is published in another column of today's Press, and the city's financial state is a clean one, for the first time in many years. The following bills were allowed and ordered paid: Mill Co. lights, \$ 65.00; Marshal Gholson, salary, 75.00; Deputy Hummel, salary, 65.00; Recorder Richards, salary, 27.00; J. F. Wright livery hire, 8.00; Recorder Richards, court fees, 10.00; Athena Truck Co. cartage, 22.25.

Charles Carpenter a Suicide.
Charles Carpenter, who has been conducting a drug store at Helix, was found dying Tuesday evening, as the result of morphine taken by him with suicidal intent. Dr. Griswold did all he could to save the man's life but his endeavors were unavailing, and Carpenter died from the effects of the poisonous drug. Some years ago Carpenter was married to a widow named Lavadore, and was engaged in farming near Adams, until his wife's death, when he went to Helix. He has a father in the east, but no relatives in this state, so far as known. He had a considerable sum of money when he went to Helix, so friends say. The body was interred in the cemetery at Athena, yesterday afternoon.

ANNUAL ADDRESS BY HON. R. A. BOOTH

EUGENE SENATORIAL CANDIDATE PRINCIPAL PICNIC SPEAKER.

Jock Coleman, Oregon's Harry Lauder, Has Returned to the Fold This Year.

As the dates for holding the Fourteenth Annual Caledonian Picnic, draw near, greater effort for the success of the big event is being made by all having to do with arrangements for grounds, speakers, program, etc.

Splendidly printed colored posters have been distributed throughout the county during the past week. The grounds at the City Park are in the best of condition for receiving and accommodating the crowds which will be in attendance during the two days of the picnic.

Friday, May 22, will be Picnic Day, and a large number of people will be here on that day from the county seat. The occasion will afford them an excellent opportunity for an automobile ride with the added pleasure of a basket dinner in the shady City Park, at noonday. Friday evening, the annual Caledonian concert will be held in the Opera house, and on Saturday night the picnic will be closed with a reel, rollicking, biliously joyous Mardi Gras in approved fantastic, rollicking form. This event will take place on Main street in the glare of hundreds of electric incandescent lights. Each afternoon and evening will be devoted to sports.

The annual address will be delivered by Hon. R. A. Booth, of Eugene, republican candidate for United States Senator.

The Sooty Dances and songs will be rendered by Miss Tootsie Williamson, Miss Winnie Watson, Mr. J. McCormick, and Mr. Frank D'Arroy, of Portland; Miss Lizzie Hoben, accompanist; and Miss Elsie Hoben, Elucidator. Mrs. Halilo Parrish-Hinges who delighted all who heard her last year, is again on the program for vocal selections, and the irrepressible and only Jock Coleman, the "Oregon Harry Lauder," after an absence of several years, again returns for a happy and pleasing engagement, and last but not least, Major McDonald, has consented to drop over from Walla Walla, and bring with him the best bag pipes to be found anywhere out of Scotland.

A Beautiful Ladies' Car.
The Hudson Six (cylinder) 40. Just so. She operates so easily, a lady sitting at the wheel one day this week and for the first time remarked: "Why, I don't feel afraid of this car." It has a feeling of security in the perfect control.
Nearly one-third of that car load of choice vehicles is sold and gone. Come and see. A choice of bicycles and one going at 50c less every week day.
Watts & Rogers,
Weston, Oregon.

Primaries Friday Next.
Everything is set for the primary election, which will be held Friday next, May 15. The registration books closed on the last day of April, since which time the different candidates of the two parties have made themselves conspicuously plentiful in their last rounding up of the voters.

Compare Your Bills

Then Consider quality of goods

Here are a few items for Comparison:

5 lb Paik Lard	65c
10 lb " "	\$1.25
16 lbs Cane Sugar	1.00

IT is a matter of grave consideration these days--the grocery bills--and you owe it to yourself to watch the details and figure the cost as you go and compare the cost of groceries at other stores with ours.
