Since the new road on the south side of the river has been put to use, travel from Bingham Springs to Pendleton has been diverted over it. It is thought by some that the building of this road will work to some extent against the construction of a bridge at Thore Hollow crossing. However, should the bridge be constructed, Pendleton people would no doubt use it in preference to coming up on the south side anyway; moreover, the bridge would be of greater convenience to the larger number of people in this part of the county.

That the concert was appreciated was evidenced by the vigorous applause given by the audience, which filled the large auditorium of the church to overflowing. The opera numbers were magnificent, and to prove the cultured ear of an Athena audience, were better received than even the splendid plantation melodies. The Hudson Six-40 Wins a Point.

The Farmers' Anti-Automobile Society has adopted the following rules, to apply to all autos except the Hudson Six-40. That car is so quiet, handsome and perfectly controlled that it was deemed unnecessary to apply the regulations as herein laid down:

1. Upon discovering an approaching team, the automobilist must stop offside and cover his machine with a blanket painted to correspond with the scenery.

2. "The speed limit on country roads this year will be a secret, and the penalty for violation will be \$10.00 for every mile an offender is caught going in excess of it.

3. In case an automobile makes a team run away, the penalty will be \$50.00 for the first mile, \$100.00 for the second, and \$200.00 for the third, etc., that the team runs, in addition to the usual damages.

4. On approaching a corner where he cannot command a view of the road ahead, the automobilist must stop not less than 100 yards from the turn, toot his horn, ring a bell, fire a revolver, halloo and send up three bombs at intervals of five minutes.

5. Automobiles must be seasonably painted—that is, so they will merge with the pastoral ensemble and not be startling. They must be green in Spring, golden in Summer, red in Autumn and white in Winter.

6. Automobiles running on country roads at night must send up a red rocket each mile, and wait ten minutes for the road to clear. They must then proceed carefully, blowing their horns and shooting Roman candles.

7. All members of the society will give up Sunday to chasing automobiles, shooting and shooting at them and making arrests and otherwise discharging country touring on that day.

8. In case a horse will not pass an automobile the automobilist will take the machine apart as rapidly as possible and conceal the parts in the grass. Watts & Stagg, Weston, Ore.

Not a Robber or Cheat.

We know that the average consumer does not feel that his local merchant is a robber or a cheat; but, like all humankind, the catalogues and prices of mail order houses appeal to him, and he forwards his order and cash without considering the injustice he is doing himself, his merchant and his home town.

The catalogues of the mail order house are illumined with pictures to catch the eye of the unwary. They range in complexion from a brunette banana to a blond canary bird. They offer to sell you anything from a philosopher's stone to a cypress shingle sawed out of a sunbeam.

A New England physician says that if every family would keep a box of mustard in the house one-half of the doctors would starve to death. A mean man suggests that everybody should keep two boxes—New Orleans Picune.
