### **VOTE ON A \$50,000** SCHOOL BUILDING

SENTIMENT EXPRESSED MON-DAY IN SCHOOL MEETING.

School Board Realizing Conditions, Favor \$50,000 For a Building and Equipment.

The annual school meeting was held at the school bonse Monday afternoon. with a small number present, but ative citizenship of Athena. About as many women as men were present. The time prior to calling the meeting to order was taken in a general survey of the condition of the school build ing, and subsequent developments proved what was the opinion of the majority.

The meeting was called to order by Chairman M. L. Watts, and the annual report read by Clerk Betts. M. L. Watts was re-elected to me

bership on the board and Charles Betts was re-elected clerk of the board. The report showed the dis-trict to be out of debt, with a surplus of \$1500 on hand.

After his re-election on the board, Mr. Watts broached the subject of the necessity for the erection of a new school building, and expressed himself as heartily in favor of bonding the district for the improvement. Mr. Watts stated that although formerly opposed to the proposition, he had be-come thoroughly converted, after having considered the antiquated and delapidated condition of the school building, and the cost of temporary repairs to make it habitable for anther session of school.

Calling for an expression of south ment concerning the matter, he was encouraged by warm approval in speeches made ty Henry Knepke, Jackson Nelson, B. N. Hawks, Mrs. H. H. Hill, Mrs. W. O. Read, Mrs. Chas. Betts and others. Not a dissenting voice was heard.

Mr. Watts promised that notices for a special election for bonding the district would soon be posted, and pros-pects now look bright for Athena's modern new school building. True to promise, the school board met yes-terday afternoon, and after canvassing the situation from every standpoint came to the conclusion that the dis trict was sadly in need of a suitable school building and decided to post notices calling for a special election to vote on bonding the district for \$50,-000 for new school building and equip

Since the meeting the matter of bending the district for a new school tuiding and modern equipment, has been generally discussed and it is found there is but little, if any opposition against the proposed new building. All one has to do to beconvinced that a new building is absolutely necessary for the safety of the school children and advancement of education in Athena, is to go through the old building and make inspection of its condition.

#### FRANKING MAIL MATTER.

At One Time Soldiers In This Country

Enjoyed the Privilege.
The postoffice was first established for the principal and in spone countries for the exclusive purpose of carrying official correspondence by mail. Later in France, Grent Britain and the United States because of the great expansion and commercialization of the postal system the free carriage of mail matter came to be regarded as a privilege and this privilege was cinimed by persons in official position.

In England the house of commons claimed the privilege as early as 1600. It was abolished in Great Britain, however, by the passage of Rowland's chenp postage measure in 1833. In the United States the first appearance of the franking privilege is traceable to the action of the Continental congress assuming control of the postoffice in January, 1776. It is interesting to learn that it was then granted to all private soldiers actually in service for letters they might write or that

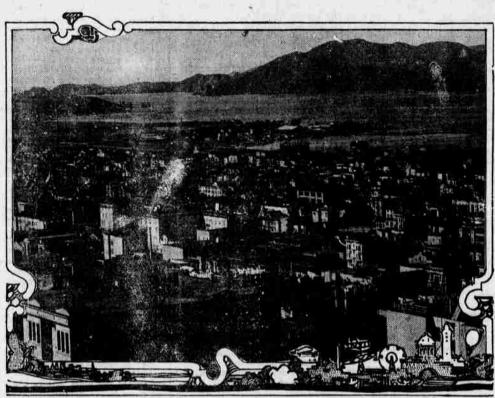

might be written to them. In the early years of the United States government the privilege was granted widely, but it soon became necessary to restrict it. An act of all postmasters. Other offices were directed to keep quarterly accounts of

### Stage Paint.

Painting the face on the stage is a parbarous custom come down to us from the age of oil lamps and candles. With gas and electric light and opera glasses for the remote seats in the house it is not needed.-London Dramatic Journal.

Mackenzie Meldrum and Wife Are Honered By Church and Friends.

The reception held in the Christian church Monday evening in honor of the departing pastor, A. Mackenzie Meldrum and wife was, although it held an element of regret for the loss of this excellent family, an occasion of unusual entertainment. A splendid program of music and readings was given in the auditorium and appreciated by the large audience.

Vocal soles were given by Joseph N Scott, Misses Zelma and Merna De-Peatt, Mrs. D. T. Stone and Jeannette Miller, an instrumental solo by Miss Zola Keen, a recitation by Savanuah Smith, and last but not least, an or iginal poem by Mrs. Lizzie Mansfield. Miss Belle McIntyre and Mrs. Stone were accompanists. Ice cream and cake were served in

the basement dining room and it was here that several speeches were made in appreciation of Mr. and Mrs. Meidrum, showing the deep love and respect in which they are held in this ommunity. Mr. Meldrum responded in a feeling manner, and promised that he will occasionally visit Atbena in his field labors for Spokane Univer-

#### FLOUR AND FEED WAREHOUSE

Alterations To Be Made To Receive Montana Wheat In Bulk.

A Northern Pacific crew is engaged in moving the track in the railroad yards west of the Preston-Shaffer milling plant in this city, to make room on the west side of the building for a new flour and feed warehouse, dimensious of which will be 30x210 feet.

The new addition to the big plant will be used exclusively for storage

room for flour and feed. A new departure which the mill has under contemplation, is certain alterations which will permit of handling Montana hard wheat in bulk shipments. The growing of Bluestem in Eastern Washington, from which the Athena mill has drawn its supply in the east, is on the wane, hybrid varieties having taken its place to a great extent.

The Northern Pscific crew also has the grading completed and ready for the ties and rails on the new spur at the site of the new Standard Oil company's warehouse and oil tanks. The Portland contractor has a force of eight men employed on the construction work on this new property. Concrete is being used principally and the work on one of the cuildings is now well under way.

#### Mt. Lassen Eruption Fire. smoke, steam, volcanie ashes,

rocks and deadly gases beinhed Sunday not only from the crater which opened up near the summit of Mount Lassen May 30, but also from two new craters March 3, 1845, limited the privilege to the president, the vice president, mem. bers and delegates in congress, the third assistant postmaster general and is one dead, one injured and two demented. The outbreak of Mount Lassen is extremely volcanic in nature and the peak becomes the newest active voltage in the world. Lance Graham was killed by falling rocks. His head was battered and his body found balf covered by ashes and cinders. He was married and leaves his widow and two children who live at Manton, 18 miles from Lassen. ham was a stockman. Rocks burtled from the spouting volcano trake the arm and gashed the face of George Tipple, a lumberjack.

### **GOVERMENT REPORT** HOODOOS MARKET

#### **DEADLOCK IN NORTHWESTERN** WHEAT QUOTATIONS.

Foreign Buyers Intimidated and the Effect of Attitude Is Materially Felt.

Portland advices tell of a deadlock in the Northwestern market, so far as new wheat business is concerned. The Government's huge crop estimate and the weakness it caused in the Eastern markets have intimidated forsign buyers and the effect of this is being felt. Most of the Portland buyers have pulled out of the market temporarily and others have put out lower prices, some of them offsting 79 cents for club. This does not appeal to tarmers who refuse to sell, waiting for a reaction which they think will

Several cargoes were offered abroad this week ty exporters, but they met with no response. The trade is in a waiting attitude and the undercurrent of feeling is weak.

Taking a broad view of the situa-

tion of supply and demand Broomhall believes the possibilities strongly favor a coming season of large supplies. says:

"This is emphasized by the fact that it is expected that the United States will have a surplus of 240,000, 000 and some 128,000,000 from Can ada and therefore scarcity will be next to impossible, no matter what the consumption may be and notwith-standing the shortage in Argentina and India.
"The demand promises to be very

large, because no European crop premise indicates an abundant yield. Germany is no larger than last year and possibly is consideratly less. France will probably to an importer on a liberal scale, Italy requires some 16,-000,000 bushels more than Inst year, Spain and Portugal perhaps \$,000,000 osbels less than last year, while Anstria-Hungary promises to import on a large scale; therefore every indication points to the assured fact that Enropan importation for the coming seas will be on a larger scale than ever be

fore experienced.
"The European constantion last month was large and I expect that this consumption will continue large. The Continental demand is fuirly and Russia is offering up little, owing o small barley stocks. offering freely and taking care of the immediate demand to a large extent, and it is forecasted that Danubian offers will continue liberal, and these

The coast market for snot wheat is quiet. Californians are buying only small lots, waiting for the new croy here and expecting to get early wheat of their own. Club is worth 85 to 86 and bluestem 88 cents.

No business is under way in the barley market. The only trade passing is in California, where export barley is selling at \$1 a cental. ern market will hold the trade for the time being, as Oregon and Washington es being paid there.
