VILLA DECLARES WAR ON MEXICO

Sonora and Chihuahua States Again in Revolt.

First Chief Orders Railway Closed as Precautionary Measure—Rebels Get Munitions.

El Paso, Texas—General Francisco Villa, dominant leader in Northern Mexico, has denounced the central government headed by Venustiano Carranza and announced his independence in a statement sent to the Associated Press.

This placed the state of Chihuahua in open revolt against the party in power at Mexico City as well as Sonora, the next border state to the west, where Governor Maytorena previously has proclaimed his independence of the constitutionalist party as represented by Carranza.

Villa agents sent several carloads of munitions as well as troops to assist Governor Maytorena, of Sonora, who is in open revolt against Carranza. This was followed later, according to reports received here, by the sending of 500,000 pesos in Villa paper currency to Maytorena officials.

This money, it was said, was being placed in circulation in that part of Sonora dominated by the Maytorena forces to absorb the constitutionalist or Carranza issue.

General Obregon, one of the Carranza adherents, who heads the Northwestern military zone of which Sonora is a part, remained at Chihuahua City, said persons arriving from the South. He was reported last week to have been arrested by Villa.

Telegrams received here several days ago signed with Obregon's name said that he was returning at once to the national capital. It was declared officially that Obregon was held a prisoner at Villa's house in Chihuahua.

All available troops under Villa's command were rushed to meet what was reported as a strong force of Carranza troops moving north from Zacatecas. Even the two brigades which were sent on an overland march into Sonora to assist the Maytorena revolt were recalled hurriedly. They passed through Juarez on their way back to Chihuahua City, Villa's capital.

WORLD-WIDE MISERY IS CAUSED BY EUROPEAN WAR

New York—Commerce in every spot in the world has been seriously affected by the European war, say belated reports from missions established throughout the world by the Presbyterian church.

West Africa is facing a critical situation; Syria is in utter hopelessness; Persia is chaotic, especially in financial circles; missionaries in India are unable to receive outside financial aid; Chilean industry is prostrated and the country is in a pitiable plight; the poor in Guatemala have been driven by hunger to confiscate the food stores of the wealthy. Such are the sombre pictures of some of the mission fields revealed by Dr. A. W. Halsey, secretary of the Presbyterian board of foreign missions.

Epidemic of Cholera Discovered Among Austrians

Venice—Nine cases of Asiatic cholera have been discovered among the wounded soldiers in Hungary, according to an official announcement by the Hungarian minister of the interior. The announcement has excited great apprehension throughout the dual monarchy.

It is learned here that the first suspected case of cholera in Hungary was that of a wounded soldier, who was brought, on September 15, to Bekescsaba from the Gallian battlefield. The bacteriological examination clearly showed Asiatic cholera.

The patient was immediately isolated. Since then eight other cases have been discovered, also among the wounded who returned from Galicia. One case was found at Munkacs, another at Tokad (Tokay) and six at Dumasardahely, in Pressburg, immediately on the Austrian border, within an hour's ride of Vienna.

Vienna is awaiting with keen anxiety, news of the progress of the fighting against the Russians and Serbians.

Venezuelans in Revolt.

Port of Spain, Trinidad—It is reported here that Venezuelan revolutionists under Horatio du Charme surprised the Venezuelan government forces at Cano, Colorado, a port of entry in the former state of Bermuda, inflicting a defeat, after which they captured Guanoco. Du Charme later repulsed the government troops sent against him. The rising against the government, according to advices received here, appears to be well supported in the region where the hostilities have occurred.

Kaiser Loses 104,589 Men.

Berlin—The total German casualties in dead, wounded and missing, as officially reported to date, are 104,589. The casualty list announced Monday adds a total of 10,227 casualties to those previously announced. The total casualty list is as follows: Dead, 15,674; wounded, 85,908; missing, 23,907. According to a letter from an officer of the German auxiliary cruiser Kaiser Wilhelm der Grosse, this vessel was not sunk by the British cruiser High Flyer, as was asserted, but was blown up when her ammunition was gone.

Loyal Troops Mobilizing.

Brownsville, Tex.—General mobilization of troops in Northern Mexico loyal to General Carranza is under way at Monterrey, according to reports current in Matamoros, opposite Brownsville. The Matamoros garrison departed suddenly for Monterrey with the explanation from officers that all troops were being returned to their native states and that state troops would replace them.

Hoarding Cash by Banks Is Denounced by McAdoo

Washington, D. C.—Secretary McAdoo has adopted stringent measures to urge National banks to extend legitimate credit and charge normal interest rates on loans. He telegraphed to ten National banks in the four reserve cities in the South that their requests for additional crop-moving funds from the Federal government would not be granted at this time, and made it clear that his action was taken in connection with reports of excessive interest rates and restriction of credits.

In a statement made public with the telegram Mr. McAdoo declared that there was an extraordinary hoarding of money by banks throughout the country and piling up of reserves without occasion. He said reports to the controller of the currency showed that money-hoarding had been carried on by banks to an extreme degree, and announced that he expected to focus attention on the guilty banks by issuing a daily list of those with excessive reserves.

Although the Federal government has no power over state banks or trust companies, the secretary explained that state superintendents would be asked to furnish available information on money-hoarding in such institutions. He characterized money-hoarding by banks as the agency most likely to impair confidence and injure business.

London Watches Sky for Attacks by Air Craft

London—England is becoming more and more apprehensive about German aeroplanes and Zeppelins. Preparations have been made in the English capital against such an attack.

It is generally conceded that Zeppelins could hardly make a trip over sea as well defended a country as London in the daytime because of the guns on high buildings. At night the flight of a Zeppelin over London would be comparatively safe.

For weeks lights about Buckingham Palace have not been lighted and within the last few days only about one-third of the London street lights have been turned on. Stores, theaters, hotels and other public places have been asked through the newspapers to reduce their lights to the minimum that London may not offer a bright glow for the guidance of aerial navigators.

Masonic Sign Said to Have Saved 50 From Execution

Ostend—The power of Freemasonry is illustrated by a story told here by a citizen of Louvain, who, with the Masonic sign, says he saved 50 of his fellow citizens from being shot to death by German troops.

This group of citizens, according to the recital of the Belgian Mason, had been lined up for execution. The German firing party had aimed their rifles when the narrator gave a Masonic sign. The German officer commanding the firing squad happened to belong to the craft. He recognized a brother Mason and ordered the Louvain Freemason to leave the ranks. This meant sparing his life.

The Louvain citizen, however, refused, saying: "My fellow citizens are no more guilty than I am. If you are going to kill them, I shall be killed with them."

Red Cross Society Said to Be Scampered by Wounded

New York—The number of those wounded in battle in Europe is already in the hundreds of thousands. The hospitals and churches of Paris and Berlin and cottages on the battlefield are filled, and many other wounded lie exposed in trenches, according to Ernest P. Bicknell, national director of the American Red Cross, who arrived here on the steamship Olympic, from Liverpool. Mr. Bicknell, who left New York on the battleship Tennessee, the American vessel which carried gold to Americans in need in Europe, spent several weeks observing conditions in the countries at war.

"The truth is," Mr. Bicknell said, "that over the thousands of square miles already battle-swept there have been left almost countless thousands of men helpless from ghastly wounds. Some have been gathered into trains by the Red Cross surgeons and nurses and taken to hospitals in the larger cities.

"Let no man imagine the American Red Cross can do too much or enough. Nurses and surgeons are needed more and more, and also medical and hospital supplies."

India Loyal to Britain.

London—Germany made a mistake about India, as it did about Ireland. And anybody who counts on India to be false to England will come a cropper. In these words his highness Aga Khan, recognized temporal leader of 60,000,000 Indian Mohammedans, summed up the Indian empire's status in the world war. Aga Khan has directed the Khoja Moslems, who number millions, and over whom he is spiritual and temporal head, to place their personal services and resources at the disposal of the government.

Russians Run to Shelter.

Berlin (via wireless to Sayville, L. I.)—Special dispatches from the Eastern fighting zone report that General von Hindenberg pursued the Russians until they reached the guns of a fortress. The Kovno roads are reported to be quagmires. Correspondents assert they personally saw at Wirballen a Russian train of 40 or 50 cars bearing a Red Cross insignia loaded with rifles and artillery ammunition. It is officially said the Russians lost in the battles near Tannenberg 92,000 men captured and 150,000 killed.

Cathedral Ordered Spared.

New York—Count von Bernstorff, the German ambassador to the United States, received the following wireless dispatch from the German office at Berlin: "The German government states officially, in contradiction of the Havas Agency report that the German artillery purposely destroyed important buildings in Rheims, that orders were given to spare the cathedral by all means."

NORTHWEST MARKET REPORTS.

Portland—Oregon hops sold this week at the highest price of the season. McNeff Bros. bought 133 bales of fuggles at 18 1/2 to 19 1/2 cents. One hundred bales of this quality were obtained from a local dealer and the remainder was the Cooper lot at Independence.

Several dealers were in the market, but found growers very firm. A bid of 17 cents on 250 bales of West Side hops was turned down by the owner. It is said a number of purchases of inferior grades and of small lots over contracts have been bought at 14 and 15 cents, but holders of good hops are not disposed to sell them under 18 cents.

Apples are moving better. The market is in good shape for fancy stock, and as prices are reasonable the demand is growing. Fancy apples are quoted at \$1.25 to \$1.50 and choice at 75 cents to \$1. The season for Gravensteins is drawing to a close and Kings, Jonathans, Twenty Ounce, Snows and that class are coming to the front. The trade looks for a heavy local consumption of apples as soon as summer fruits are off the market.

The Canadian apple crop is not going to be the menace to Northwestern apples on Eastern markets that was predicted a few weeks ago, according to Walter M. Dickerson, who has just returned from Canada. Several weeks ago the opinion was freely expressed by authorities that because of the big apple crop generally, including Canada, and the curtailment of Canadian apple exports by the European war, Canadian apples would seek an outlet in the United States in competition with apples grown here.

Seattle—Yakima potatoes are so scarce on the street that the trade was supplied wholly from White Rivers, which jumped to the unusual level of \$30.

There was not a sack of Eastern Washington spuds on the entire avenue. Growers were paid \$22 in less than carload lots for White Rivers. It is thought that the scarcity of Yakima is due to the recent rains, which have prevented digging. It is a consoling idea for the street to hug to its bosom, but there is no escape from the knowledge that growers are speculating and in furthering this plan are withholding shipments from the market with the evident determination to cause a rise.

The apple trade is very brisk, with the choice of buyers running strongly to cooking stock. Frequent sales in lots of twenty-five boxes were made. There is little call as yet for eating stock. Jonathans are in demand and Winter Bananas enjoy a liberal movement. The life of the apple trade is due to the disappearance of peaches and pears. Only a few Elbertas are available and these sell up to 65c. Bartlett pears have gone for the season. Idahos and Fall Butters are arriving in good commercial lots.

Eggs—Select ranch, 35@36c dozen. Poultry—Live hens, 10@15c per pound; old roosters, 10c; 1914 broilers, 13@14c; ducklings, 10@12c; geese, 10c; guinea fowl, \$9 per dozen.

An Appeal to the Farmers.

Recognizing that America must supply an extra large part of the world's foodstuffs next year, the International Harvester company has begun a campaign to arouse farmers to their opportunity and duty. It urges every farmer to utilize every available acre and to increase the average yield of each acre. That is extremely good advice on two counts.

The first is the natural desire of all producers to have available a large supply of merchandise when there is an unusual demand. With Europe in chaos, no question exists about the demand and about the desirability of being able to fill it with profit. The second is the more humanitarian and altruistic consideration of ability to relieve, out of the overflowing storehouse of American farms, the suffering which Europe's shortage of grains and stock will inevitably produce.

This has been a year of bounteous crops here. If careful planning and skillful working can do it, next year's crops should be even bigger, for there will be need for all that the best farming and the most propitious weather conditions can produce.—New York Tribune.
