HE WANTS BRIDGE AT THORN HOLLOW

Harry Sayer was in town Tuesday and raised his voice in protest against the proposition that has come up to turn down the construction of a bridge at Thorn Hollow crossing in favor of one at Mission. He says a petition bearing the names of many taxpayers was presented the county court, praying for a bridge at Thorn Hollow, that a bridge there is badly needed by land owners on both sides of the river, and he fails to see where a bridge at Mission can be of much benefit to the traveling public. There are river roads on both sides from Mission to Pendleton, a distance of five miles to the bridge crossing the river at Pendleton; that only territory 3 1/2 miles in breadth lies between the Mission river roads and the Wild Horse meadow road, and the road on the south side of the river is a good one without need of a crossing in traveling to Pendleton. Mr. Sayer believes that the proposed Mission bridge has been originated for the purpose of smothering the Thorn Hollow bridge.
