### TESTSTERS IN CONTRACTOR

Famine.

Famine.

I am the skeleton in every nation's closet. I hide myself in the dark recesses behind the silent uniforms swaying in the dark. While the guests make merry and the householders ply them with viands at the friendly board I bide my time.

But when the alarms sound and the guests go out to kill, then I start forth in the gray shadows of early morning. With my thin wand I touch the cornfleids and watch them wither.

And as the sun shines on battlefields my day of triumph comes. No longer afraid to show my hollow face, I stalk through village and city, laying my rattling hands on mother and wife and babe.

### Idle Period Not Feared.

London-David Lloyd George chancellor of the exchequer, in a speech to a deputation of the workers' national ittee, said it was not at all cer tain that they were not a little premature in looking forward to any considerable amount of unemployment as the war progressed. The demands on industry in this country, the chancellor said, would be enormous, but in the cotton trade the distress undoubtedly would be severe. That was the only trade, he added, which had completely broken down so far.

## NORTHWEST MARKET

Washington, D. C.—One million dollars of the \$20,000,000 appropriated by congress to continue river and harbor improvements was allotted by the secretary of war for work on the Columbia river, this amount being deemed sufficient to keep construction under way until another river and harbor bill can be passed.

The total allotment made to projects in Oregon and Washington was \$2, 1032,500, as compared with \$2,710,975 at the time it encountered opposition in the senate. Oregon and Washington combined received more than one-tenth of the full amount appropriated.

Other amounts allotted to Northwestern projects are: Celilo canal, \$525, 100; Lower Willamette and Columbia below Portland, \$200,000; Willamette in bulk that it can be shipped profitable.

The new method it is believed makes possible the concentrating of cider in such a way that it will keep better than raw cider and also be so reduced in bulk that it can be shipped profitable. Snake, \$20,000; Willamette and Yamhill, above Portland, \$25,000; Columbia, Celilo to the mouth of the Snake, \$20,000; Columbia, Bridgeport to Kettle Falls, \$35,000; Snake river, \$5000; Coos Bay, \$70,000; Coquille river, \$28,000; Sluslaw, \$5000; entrance Grays Harbor, \$110,000; inner Grays Harbor and Chehalis river, \$15.

The new method it is believed makes possible the concentrating of cider in such a way that it will keep better than raw cider and also be so reduced in bulk that it can be shipped profitable long distances from the applegrowing regions. The old attempts to concentrate cider by boiling have been at lures because heat destroys the delicate flavor of cider. Under the new method nothing is taken from the cider but the water, and the resultant product is a thick liquid which contains all the apple juice products and which can be restored to excellent sweet cider by the simple addition of four parts of water. The shippers and consumers, therefore, avoid paying freight on the work in progress there. It is noted that the allotment for Coos Bay is \$20,000 greater than provided in the river and harbor bill, and the allotment for the Columbia river from Rridgeport to Kettle Falls is \$10,000 Wheat—Bid: Bluestem, \$1.02 per
