The Portland Journal says: When No. 18 pulled out of the Union depot this morning it carried one of the happiest fathers in this part of the country. J. C. Martin of Athena was the father in question, and he was happy because following an all day conference with a number of Portland specialists yesterday it was decided it would not be necessary to amputate the leg of his eight-year-old daughter, crushed a year ago in an accident.

"We were pretty blue when we came down here from Athena," said Mr. Martin, "but we are going back very happy. The little girl was run over by a wagon while playing last year, and we have been uncertain ever since whether she was to lose her limb or not."

It is reported that an Athena lady who took an extraordinarily fine cake for Sunday dinner, was surprised to find in its place one of someone else's baking. A suitable reward may eventually solve the mystery.

Even Hawks, Wyoming hill climber and prospective Alaskan perambulator took a second squint at the Italian pedestrian.

Next Tuesday evening an exhibition in the form of a folk festival will be given in the Pendleton High school building, demonstrating the work to the school patrons.

It is reported that an Athena lady who took an extraordinarily fine cake for Sunday dinner, was surprised to find in its place one of someone else's baking. The substitution was cleverly done, the responsibility of which has been simmered down to rest between a couple of boys in the family and two outsiders, but the question yet remains, as to who got the cake? A suitable reward may eventually solve the mystery.

Saturday last, Wilbur, the young son of Mr. and Mrs. Will Harden was seriously injured by falling from a disc. The disc, which was driven by Bern Banister, passed entirely over the boy, inflicting a deep gash in the calf of the leg and on one hand. Dr. Plamondon, in dressing the wounds, took eleven stitches in the cut on the leg. It is considered very fortunate the boy was hurt no worse as the result of the accident.

The class cup for the Athena High school has arrived and has been in the hands of L. E. Vincent this week for engraving. The cup is of silver, beautiful in design and will no doubt be greatly appreciated by the class that won it. The cup was presented by the patrons of the school, and its pur-

pose is to promote competition between the four classes of the High school along the lines of scholarship, attendance, debating, oratory and athletics.

Bob Tharp had a rather unpleasant experience in the country north of town, the fore part of the week. Ditto Officers Taylor and Ramsey, who were passengers in the auto. The machine struck a sandpit, ran upon the bank along the roadside and careened over. Taylor gyrated through the atmosphere squirrel fashion, totting over Ramsey in safety. The three men righted the machine and proceeded on their way rejoicing at the in-consequence of the mishap.

Marcus Barone of Rome, Italy, was in the city for a short while Sunday, accompanied by his dog, "Brownie." As a hiker, Mr. Barone can hand cards and epodes to John Dobson, Tom Gilkey or other of Athena's noted walkers. He is merely on a little jaunt around the world, and when here, he had reeled off the small matter of 14,802 miles of the distance. Even Hawks, Wyoming hill climber and prospective Alaskan perambulator took a second squint at the Italian pedestrian.

After having the matter of paroling Milton Anderson under advisement for several weeks, Judge Phelps concluded that the young man's offense of attempted highway robbery was of too serious a nature to regard lightly, and sentenced him to serve a term in the penitentiary. Anderson resided at Helix, and with Jim Navin for a pal, attempted to hold up and
