Waking a Beach.

Weymouth owes the beginning of its popularity as a health and pleasure resort to an accident. In 1763 a west of England doctor whose name is now forgotten advised one of his patients—Ralph Allen, a prominent philanthropist of Bath—to "bathe his body in the open sea." By mere chance Allen selected Weymouth, and the first wooden bathing machine was built. Then crowds gathered to watch the "madman" enter the water. But the patient got better, told the Duke of Gloucester all about it, and—Weymouth was made.—London Tatler.

Repentance.

If our past actions reproach us they cannot be atoned for by our own severe reflections so effectively as by a contrary behavior.—Steele.

Literary Note.

Some men never think of reading a book till they run across it under a lot of rubbish when the wife is packing up to move.—Quails Bee.
