Cheap Witticisms.
It were well if the so-called "clever
story writer," who, too often, is the
chief nuisance of the manuscript editor
of all magazines, could be brought
to a realization that mere exaggeration
and disgusting incidents are not
"fun." It would save postage and lessen
the certainty of rejection.—National
Magazine.

Remembered That.
Jack Robinson, having been making
merry with some boon companions,
finally took his leave and got aboard
a street car. Soon he was fast asleep,
but was finally aroused by the conductor
calling "Robinson street!"
Sleepy and befuddled, Jack made an-
swer, "It's no. I treated last time."

Politeness III Rewarded.
"A man kin be too polite an' oblige-
in," said Uncle Eben. "I know a man
dat stood wifd kicken 'n' while his wifd
dressed him up in a fancy lounge'
coat an' a gorgeous necktie an' a smok-
in' cap. Den she inspected him an'
decided dat she couldn't live wif such
a lookin' man, nohow."

He's Got Three Cents More.
Once a tightwad went to the store
to get a piece of rope. The store-
keeper sold his rope at eight cents per
pound. Mr. Tightwad said as he only
wanted to tie up a calf he would take
five cents worth. He got the rope.
That evening his folks found him hang-
ing in the barn den.

Compilment for Grandpa.

Quick Relief When Utterly Worn Out

Getting the Blood in Order is Required By Most People.

250,000 Irish at Front.
Manchester, England—John E. Red-
mond, leader of the Irish Nationalist
party, in a speech to 6000 persons
here, pointed out that he had often ad-
dressed meetings of Irishmen in Man-
chester, but never before an assembly
of Irishmen and Englishmen
"firmly united in a common purpose."
Figures to February 15, he said, show
that 99,700 Irishmen from Ireland have
joined the colors, 115,000 from other
parts of the United Kingdom and
enough more from the dominions to
bring the total up to 250,000.

Battle Won Underground.
Paris—A subterranean struggle has
been in progress for several months
near the Alger farm, east of Rheims,
says an official notice which describes
the mining and countermine.
In one instance the French and Ger-
man sappers raced for an advan-
taged position, hearing the blows
of each others' picks. The French
arrived where they wanted to be
and exploded 1400 pounds of lyddite,
wrecking the enemy's gallery and
asphyxiating the Germans working
in it.

General Pau Praises Foe.
Berlin—The following was given out
by the Overseas News agency:
"At a reception in Bucharest to Gen-
eral Pau, the French commander, dur-
ing his recent visit to Roumania, the
general said: 'He who has not seen a
German army cannot imagine it. It
is a host of heroes, unique in his-
tory.'"

PHYSICAL WRECK RESTORED TO HEALTH BY GREAT KIDNEY REMEDY.

I feel it my duty to furnish you with my testimonial as to what your remedy Swamp-Root did for me when I was a physical wreck from kidney and bladder trouble.

Some years ago I was not able to do any work and could only just creep around and am satisfied that had it not been for Dr. Kilmer's Swamp-Root I would not have lived. After using the preparation for one month I was able to work some and when I had used \$3.00 worth of Swamp-Root I could do a good day's work. I used about \$10.00 worth altogether and would not take \$10.00 for the good that it did me. I consider it a God-send to suffering humanity for the diseases for which you recommend it and have recommended it to many sufferers.

EXPECT KAISER TO REPUDIATE ACT

Immediate Settlement for Sinking Frye Looked For.

National Views in Accord as U. S. and Berlin Agree on Question of Food Shipments.

Washington, D. C.—Germany probably will repudiate the action of the captain of the Prinz Eitel Friedrich in sinking the American ship, William P. Frye, and make reparation for the loss of the vessel and cargo, in the opinion of German officials here.

Inasmuch as the United States and Germany are in accordance on a question of shipping foodstuffs from a neutral country to civilians in belligerent territory, no issue is expected to be raised by Germany over the right of the cargo to be sent to its destination without interruption.

Count von Bernstorff, the German ambassador, after a visit to the State department, indicated that he believed the case would be settled without much difficulty. He told Counsellor Lansing what the captain of the Prinz Eitel had told Captain Boy-Ed, the naval attaché of the German embassy, as to the sinking of the American ship, but the ambassador reserved his opinion on the action of the commander, saying he had no instructions from his government.

Captain Thierichens, of the Prinz Eitel, informed Captain Boy-Ed that his only guide while at sea and for months out of communication with his government was the declaration of London. This would permit the destruction of a neutral prize if carrying a cargo more than half of which could be proved to be contraband, provided it was impossible to take the vessel to a home port without endangering the captor warship.

Aviator Lincoln Beachey Plunges to Death in Bay

San Francisco—The spectacular career of Lincoln Beachey, one of the most daring of American aviators, was ended Sunday when he fell to his death at the Panama-Pacific exposition in plain sight of thousands of spectators.

Beachey, was attempting his second flight of the day at 3:45 p. m. when the fatal accident occurred. Having previously electrified the crowd with a series of aerial somersaults, the intrepid aviator sought to add an additional thrill by making one of the sensational perpendicular drops which featured his flights. The accident was attributed to the fact that Beachey entrusted his life for the first time to a new monoplane and an exceptionally heavy crew was attracted to see whether he would attempt the same breath-taking stunts in the new machine that had made him and his trim little biplane famous.

On the first flight of the day everything worked properly and all the familiar evolutions were indulged in with the exception of the perpendicular drop. This Beachey had saved for the final climax and this, too, proved too much for the fabric of the monoplane.

The machine was at an altitude of about 3000 feet when Beachey shut off his power. For several hundred feet the machine dropped head on for the earth and then the aviator grasped his control levers to adjust the planes for the graceful descent which characterized his previous flights.

At this instant the wings crumpled like a collapsed umbrella and the aeroplane, turning over and over in its fall, plunged into San Francisco bay, narrowly missing a vessel lying at the government transport docks.

Relief Sent to Palestine.

Philadelphia—Loaded with food and clothing contributed toward the relief of the needy of the Holy Land and supplies for the United States battleships North Carolina and Tennessee, now in the Mediterranean, the United States collier Vulcan sailed from this port Monday for Jaffa, Palestine. The relief cargo represents an expenditure of \$150,000 by the American Jewish relief committee and its principal constituent is flour. L. H. Levin, of Baltimore, and E. W. L. Epstein, of New York, sailed on the vessel and will direct the distribution of the food at Jaffa.

Various Companionships.
If one's intimate in love or friendship cannot, or does not, share all one's intellectual tastes or pursuits, that is a small matter. Intellectual companions can be found easily in men and books. After all, if we think of it, most of the world's loves and friendships have been between people that could not read nor spell.

Some Results of Fatigue.
It is known that fatigue shows itself by certain chemical changes in the body, all of the sustaining elements being consumed rapidly, and a kind of intoxication of the cells taking place, because they cannot carry off the waste products rapidly enough. The battery has become clogged and does not reverse properly.

Sound Advice.

Ancient Writing Implements.
When writing, Contucius used a small brush, like a camel's-hair brush, for a pen, and so did his ancestors for centuries before his time. The reed came into use for writing in the marshy countries of the Orient. It was hollow and cut in short lengths.

Alpaca.
In spite of attempts to introduce the alpaca into countries away from its native habitat, failure has attended them. It is rarely found below an altitude of 5,000 feet. Its wool is of an exceedingly fine luster and quality, and occasionally attains a length of six inches.

Our Work.
It is as simple as the rule of three. If we make light of our work by using it for our own ends, our work will make light of us, and as we are the weaker, we shall suffer.—Kipling.

Suspicious.
When a man starts off by announcing that he views something more in sorrow than in anger we always suspect that he is really pretty mad about it.

How to Drive a Nail.
Drive a nail home and clinch it so faithfully that you can wake up at night and think of your work with satisfaction.—Thoreau.

Giant Leaves.
The leaf of the coccoloba tree is nearly thirty feet long; while a single leaf of the parsona magnolia of Ceylon will shelter fifteen to twenty persons.

NORTHWEST MARKET REPORTS.

Portland—The local wheat market, for the first time in several weeks, is entirely independent of Chicago. Prices here were firm and higher, whereas in the Eastern market the close found May wheat 1/2c lower. The Chicago decline followed a renewal of peace talk and consequent fears of a cessation of export demand, but in the Portland market local conditions altogether governed prices.

There was buying for European account here, as well as inquiry from Japan, and also evidence of support from millers. Wheat in the Northwest is believed to be now generally in strong hands.

Considerable stress is laid by the wool trade upon the possibility that the exportation of wool from Australia to this country is about to be facilitated. The fact that purchases have been made in the commonwealth this season by Boston houses at figures which make the secured cost laid down here ridiculously low, compared with quotations in the American market, is considered important. It is believed that the ability to get the wools coming here would have considerable bearing on the primary domestic markets, in view of the fact that the Australian wools have been secured so cheaply.

Some defective wools have been bought at figures which mean less than half a dollar laid down in Boston, the secured pound. Such wools are very cheap, even should they have to be carbonized.

On this basis, therefore, it is not strange that developments in Melbourne, Sydney and London have been watched carefully by wool men, with an eye towards ascertaining the possibilities in regard to shipments of merinos. The latest reports, in connection with the arrangement involving the Textile Alliance, is that "the British board of trade, insofar as the requirements of Great Britain and allied countries will allow, will grant licenses to export merino wool, tops, noils and black face wool to the United States, if consignment is made in accordance with an agreement entered into with the alliance.

Mystery About Precious Stones.
That the diamond and other precious stones were made in the unthought and fiery caves of earth and brought to the surface by volcanic or other upheaval, is well established, especially in regard to those of the South African fields; but more mysterious than this is that they have been found in the paths of the ancient glacial drifts of North America. They are held to be very vaguely related to all crystalline forms which are others of the mysteries.

Unpopular Listeners.
"I really dislike to talk to her; she has such a habit of finishing one's sentences for one. You know the kind?" "Yes; they listen faster than you can talk to them."

Cause for Complaint.

A quiet little Chicago lad serves as altar boy at the family church on certain days of the week. He has been attending rather often than usual of late, and his mother recently inquired the reason, adding that he seemed to her to be doing the work of himself and his comrade. "So I am," grumbled the boy sharply, "but I can't help it. That darned kid always ditches his dates!"

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules. Easy to take as candy.

Useful Cement.
To make cement for stopping leaks and holes in iron pipe, etc., secure about two pounds of iron shavings or borings from a foundry; add one ounce of powdered sal ammoniac and one ounce of sulphur. Mix with water to a paste and use at once, as it hardens very fast. This will resist heat and water and will be found useful for many purposes. Steel wool or shavings may be secured from any paint or drug store.

SKIN DISEASES QUICKLY YIELD TO THIS TREATMENT

If you have eczema, ringworm or other itching, burning, unsightly skin eruption, try resinol ointment and resinol soap and see how quickly the itching stops and the trouble disappears, even in a severe, stubborn case. Resinol ointment is also an excellent household remedy for pimples, dandruff, sores, burns, wounds, chafings, and for a score of other uses where a soothing, healing application is needed. Every druggist sells resinol ointment and resinol soap.

Old Valencian Industry.
The making of glazed tiles or "azuulejos" is the only ancient Valencian industry which has retained its importance through the centuries up to the present day. These wall and floor tiles enter into the construction of nearly every modern building throughout the region, and the local consumption alone is sufficient to keep the factories running.

To Remove Mildew Stains.
Mix a small quantity of soft soap with the same proportion of powdered starch and salt and the juice of a lemon. Apply this mixture to both sides of the stain with a small brush, and, if possible, let the article lie on the grass all day and night until the stains have quite disappeared. Then wash in the usual way.

Attacked in Front and Rear.
A youngster of our acquaintance who has a faculty for getting into scrapes recently expressed the wish that he was a postage stamp. When asked why, he answered: "Because a postage stamp can only be licked once." Whereupon he pointed out that the stamp received, besides the licking, a severe punch in the face.

The Word "British."
"The United Kingdom of Great Britain and Ireland" has, since January 1, 1801, been the official title of the political unity composed of England, Scotland and Ireland. In this sense the word "British" applies to Ireland, but in no other. Politically the "British Isles" include England, Scotland and Ireland.

Wives! Mothers! Daughters! Just a Word With You!

A woman's organism is a very delicate thing—it very easily gets out of order—just like a delicate piece of machinery, it requires more than ordinary care and attention.

There are many signs which point to disorder, such as headaches, unaccountable pains in various parts of the body, listlessness, nervousness, irritability, dizziness, faintness, backache, loss of appetite, depression, and many others.

Dr. Pierce's Favorite Prescription has been the means of restoring thousands of suffering women to natural health and strength. For more than forty years it has been successfully carrying on this great work. Today it is known throughout the length and breadth of every land. Women everywhere look upon it as a helpful friend. Let it aid you.

Came Together.
George and Robert are twins. One day when they were about eight a little playmate neighbor boy of about the same age came running up to where they were playing in the yard with this startling exclamation: "Oh, say, I got a little brother at my house; he came last night." "Huh, that's nothing," said George, "I brought my brother with me when I came."

Rheumatism
Just put a few drops of Sloan's on the painful spot and the pain stops. It is really wonderful how quickly Sloan's acts. No need to rub it in—laid on lightly it penetrates to the bone and brings relief at once. Kills rheumatic pain instantly.

Mr. James E. Alexander, of North Haven, Me., writes: "Many strains in my back and hips brought on rheumatism in the sciatic nerve. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your Liniment to the affected part and in less than ten minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."
