Mayor Watts has set out to make a record for street improvement during his official tenure which for permanent benefit to the city he hopes to exceed any heretofore attempted. He intends to bring in the Watts farm teams and with some assistance from property owners, will grade the north ends of Third and Fourth streets and the entire length of Fifth street. The county grader and scrapers will be used for the work.

The May meeting of the local auxiliary, C. W. B. No. 1 will be held next Wednesday afternoon at the country home of Mrs. Henry Koska, southeast of town. Conveyances will be assembled at the Christian parsonage for all who wish to attend, and the request is made that all who desire to go be in readiness shortly before 3 o'clock p. m. The meeting will be led by Mrs. J. T. King's division, and an unusually interesting session is anticipated.

Yesterday a heavy rain storm was followed by snow to the depth of a couple of inches. The flakes were large and heavy and stuck to the foliage of trees and bushes, and in some instances limbs broke under the weight of the white blanket. The tops of Earl Urquhart's big paragon tent were unequal to the strain imposed on them, gave way and the top fell with a crash to the floor, the side canvas remaining in place. The top will be in place ready for the dance tomorrow night.

Mayor Watts interviewed the business men Wednesday in regard to subscribing funds for holding a picnic in Athena next month, with the result that he received sufficient encouragement to make the announcement that the event will take place. Now that the funds are assured, the different committees appointed at a recent meeting by Chairman M. L. Watts will get to work on the assignment allotted them, and as soon as this is done, a basis will be given for advertising matter which will be distributed throughout the county.

Mr. and Mrs. Fred Collins left Athena Monday afternoon for their home in Beliz, and when near the Scott place, the car for some unknown reason, lurching to one side of the road on a curve and turned turtle. Mrs. Collins suffered serious injury, one of her legs being broken and sustaining bruises. Mr. Collins was also pinned under the car, but managed to extricate himself and release his wife and the two little children. The children escaped injury, but Mr. Collins received a broken hand. Mr. and Mrs. Frank Tharp, parents of Mrs. Collins were summoned from this city.

The Gorgons.

The Gorgons were creatures of Greek mythology, mentioned by Homer and Euripides as being of peculiarly abhorrent aspect. Their hair was composed of serpents; their bodies covered with scales and griddled with reptiles with heads erect, vibrating their tongues threateningly, while the hands of the Gorgons, adorned with sharp talons, were of brass. The gaze of the monsters was deadly, all upon whom they fixed their eyes being turned to stone. One of the three terrible sisters was conquered and beheaded by Perseus, and as he took flight in the air en route for Ethiopia, holding the severed head in his hands, the drops of blood which fell from it became serpents, which ever after infested the sands of Libya.

"Not Like Us."

Mrs. Anderson's husband is Scotch. Mrs. Anderson is an American woman, and she has in her employ as black cook as ever descended from Ham. One day the cook said to her mistress: "Yo' husband be ain't no 'Merican, is he?"

"Oh, no, Phoebe, he is a Scotchman," replied Mrs. Anderson.

"Well," said the cook, "I could see he wasn't like us, missus."—New York Post.

Doubt.

At a luncheon at the Philadelphia Country club a notoriously poor golfer said to a noted woman champion: "I am improving. I did the difficult fourth hole yesterday in three."

The champion smiled.

"Three what—hours?" she said.

Not in His Line.

"They tell me," said the new reporter, who was doing an interview, "that you have succeeded in forging your way to the front."

"Sir," said the self-made man coldly, "you have been misinformed. I'm no forger."

Accident All Right.

Officer—Did you get those bruises in an accident? Sad Guy—Yes; I didn't think the other fellow would fight—New York Globe.

Why Should Glasses Be Changed?

The eye is practically developed at seven years. Under-development in length means far sight, over-development means near sight; one diameter of the cornea longer than another means astigmatism.

The attempt to overcome these errors by the accommodation or focusing power, is eye strain; this power changes with age, the errors are always the same and must be corrected with glasses.

Therefore, the only reason why glasses should be changed is a commercial one. Opticians by giving away a smattering of medical knowledge as a blind are enabled to sell glasses at an enormous profit.

BREAD**

**Get It Here
Freshly BAKED Today**

We are baking a bread after a famous prize recipe which calls for California raisins—a raisin bread that you'll want to serve on your table as soon as you taste a bite.

Fresh loaves are being baked today. Come buy one and try it. Bread was never baked better. And raisin bread is one of the most healthful foods that any family can eat. The raisins are sun-cured in California. The sunshine al-

one brings out the delicious pure grape sugar.

And one pound of these raisins is equal in food value to one and a third pounds of the finest beef; four pounds of milk; two pounds of eggs; four and 3-quarters pounds of fish; four and one-half pounds of potatoes.

California raisins are the "gems of food." Let your folks—especially your children—enjoy them in this delicious bread.

—drives with two
fingers on the wheel

**LIGHT SIX
\$1385**

Ever drive a car that made you WORK to drive it?—you know, a car that kept wandering from the road and kept you busy with the wheel ALL the time—twisting and turning to keep it running straight?

Well, with that recollection in your mind, we'd like to take you for a ride in this Studebaker Light SIX and show you how EASY to drive a car can be when it's built and balanced and aligned like a Studebaker always is.

You know, it's a pleasure to drive this SIX—it drives so EASILY. Just the light touch of two fingers on the wheel keeps it in the road. But come in—get your own hands on the wheel—PEEL the way it drives. That's the way to tell.

And, anyhow, you'll want to see this SIX—for it's not only one of the handiest cars you ever laid eyes on—but the LIGHTEST of all Light Sixes as well—a car that costs less to run—and a car that we'll back to the limit

—because it's a
Studebaker
