"Moss" (Floyd) Payne, known in athletic circles as the Athena jackrabbit, smashed the two-mile record on U. of O. field, Friday when the University defeated Multnomah Athletic Club 93 to 33 points in their annual field meet. Payne and four others of Bill Hayward's string left Eugene Tuesday for San Francisco, where they will participate in the events at the Exposition. Payne's time at Eugene was 9:40 4/5. The Oregonian says Multnomah failed to place an entry on the marks of the two-mile classic, so Payne started with McClure and Huggins in the mile. As the two former finished their distance the Athena "jackrabbit" was but 50 yards in the rear and running fresh. As he circled the quarter mile track in the longer race he thought that he would never finish with the pace that he had set. The final stretch saw him sprint home, snap the string and walk easily away with a new Northwest mark to his credit.

Can't Catarrh Be Cured?
If Not, a Vicious Sequence.

The mother neglects to teach the child to blow his nose; some time behind the nose enlarges and the child has to breathe through his mouth—Adenoids—the roof of the mouth goes up, the partition between the nostrils atrophies, becomes or bends and he will have nasal catarrh until the interior of the nose is made like it was before this happened. The catarrh extends to the ears, he may escape ear disease but later on he will have diminished hearing. If you wait until you are HALLOED at you never again will hear like you did a few years ago.
