WESTON WON IN THE NINTH
Sensational Fielding of Blomgren
Cuts Off Run.
League Standing:
Played Won Lost PC
Milton-Freewater 8 6 2 750
Weston 8 4 4 500
Athena 8 3 5 375
Helix 8 3 5 375
Sunday's games: Weston 4, Athena
2, Milton 13, Helix 10.
Next Sunday's games: Athena at
Helix; Weston at Milton.
Colonel Wood, Weston base ball
manager, introduced a Scandinavian
score in the person of left fielder
Blomgren on the home grounds Sunday
and as a result, waddled back over the
hill with the game safely tucked
away in Sid Barnes' score book.
Score 4 to 2.
The game was a humdinger and any-
body's property until the sixth, when
a rally on Weston's part netted three
runs. Four singles, a passed ball and
a wild heave to second, turned the
trick.
Weston's other run was landed on
the platter in the fifth when Wheeler
made the circuit on a short hit bank
of first base, the ball hiding itself in
the crotch of the pitcher's leg.
Athena forged ahead in her half of
the sixth when V. Williams singled,
was sacrificed to second by NorDean
and scored on Franz's double. De-
Fent scored Franz with a single. In
the ninth Athena's chance was good
for a hatting rally, but the climb
Blomgren cut off a home run swat
which Brooks sent into deep left, by
making one of the most spectacular
catches ever seen on the Athena
grounds. It was, in the language of
Danny Shea, simply "phenomenal."
Previous to this, Blomgren had re-
fired four tatters, two of them being
long, running catches. V. Williams
flew out to Barnes in center. Stone
found O'Harra for a double and the
crowd went wild when E. Williams
was hit by O'Harra. NorDean came
to bat and the crowd was frantic for
a hit, but O'Harra settled down and
fanned the big batsman.

**FREE ROCK FOR BUILDING
OF CONCRETE SIDEWALKS**
The mayor and city council have
decided to extend a generous pro-
position to all property owners who
desire to construct concrete sidewalks
within a reasonable period.
As an incentive to permanent im-
provement, property owners will be
given crushed rock, free of charge to
use as the foundation for their walks.
With this gift, according to A. M.
Johnson of the Tum-a-lum Lumber
company, the cost of putting in con-
crete walks will be cut down about
one-third in price. It is believed
that the offer which the mayor and
council extends will be readily accept-
ed, and that a large number of new
walks will be built at once.
The mayor seems to have a pen-
chant for street and walk improvement,
and the city's generous offer should
aid materially in boosting the good
work along.

The war god appears to have every thing coming his own way. In event the Oregonian falls in its mission of "copperheading" Wilson and his country into a war with Germany, the Pendleton Tribune has a job of carriage awaiting him down in Mexico. The "Trib." does not hide its sentiments under a bushel basket, neither does it mince words. It says: "We need Mexico and the Mexican people need us and our civilization. Mexico, under the American flag, would become one of the most densely populated sections of the American continent. Not only this, but it would soon become one of the richest of Uncle Sam's possessions. A brush with Mexico would stimulate our patriotism and destroy our copperhead tendencies and give us an opportunity to build up an army and navy that would be the envy of the tottering principalities of Europe."

May President Wilson continue to keep the ship of state safely within the harbor of peace. Regardless of whether the death of American citizens in the Lusitania disaster was due to England's carrying them on the same merchant ship with munitions and other contraband of war, or to Germany's harsh measures and startling methods of naval warfare, this country needs to remain at peace with the world for humanity's sake. There must be an accounting for the death of neutrals but not necessarily through the taking or giving of more lives.

The Portland Oregonian sees fit to dub every one who disagrees with its war policy, a copperhead. Well, the trail of the "copperhead" is pretty broad up this way, extending even to many republican readers of the great only, some as long ago as back in the sixties—and longer. The policy of abuse which that paper pursues is by no means making its friends it has simply thrown neutrality to the winds and is degenerating into a ranting pro-British sheet.

Gilbert Minthorn is sure some sick Indian. He is confined in the Multnomah county jail, convicted of tiganmy, and writes his attorney here to secure his liberation through pardon not later than July 4. No doubt Gilbert would prefer celebrating astride his pinto onyx in swash regalia, to originating curlies in cigarette smoke within the confines of his Multnomah county cell.

S. Norton Hon and his West End adherents are clamoring for the recall of County Commissioner Waterman. Waterman is a West Ender and the fight against him, so far as we are able to ascertain, is localized to that locality. This being the case, it would seem that the proper thing to do would be to let the family settle a family quarrel.

In the crisis of the Lusitania disaster Ex-President Taft refused to comment upon or embarrass the administration in any way by expression of opinion. How different Ex-President Roosevelt's procedure. He threw neutrality to the winds and strongly censured one of the nations involved.

After investigating the existence of rabies among coyotes in Eastern Oregon, the United States Department of Agriculture has decided to organize forces for systematically destroying the coyote pest, and men trained in the work will be employed by the Government.

This seems to be a year of picnics. Even little old Ukiah is piast-riing the four corners of the county with 3-color announcements of a Fourth of July celebration.

The pioneers have held reunions at Weston for twenty-three successive years and interest in their gatherings never diminishes.

Maybe the West End's determination to bond itself for its own road building is not such a bad proposition after all.

Pueh, don't stove—and the fellow in front of you will get along better.

GRANT'S VERY LATEST,
The Palace Restaurant is cutting prices. We sell a meal now for two bits, that we have heretofore charged 25 cents for—the same kind of a meal—not the same meal, understand, but one just like it.
We have fine chicken back and breast, will give you the wings and charge a dollar for the rest.
We don't handle whiskey nor we don't peddle beer, but if you want a good lunch, just come up here.
There is one thing we do surely dread: They talk of putting California raisins in Pendleton Bread;
So if they do, we are surely through; our customers say it will not do.
For every one has not got a good eye; they might eat a raisin, and think it was a fly.
So we'll hang right on to the same old stuff; it is light and flaky, and is good enough.
There is one thing you cannot beat: We have got the best Restaurant on this street. We sell everything in the market, so you can't growl; from a bacon sandwich to billed owl.
Our Java, now, is all the talk; we make it so strong, it can almost walk. A cup in the morning a cup at night—how you can sleep is a holy fright.
Gears, steered and engineered by Ours. Grant, Only.

WHY NOT MAKE YOUR OLD HOUSE LOOK NEW?
Just a few suggestions to show how easily and economically it may be remodeled and modernized.
A NEW FRONT PORCH, built along modern lines, costs not a great deal, adds immeasurably to the appearance of the house, besides adding greatly to its livable and likeable qualities.
ONE OF THOSE MODERN FRONT DOORS, really one of the most attractive features of recently built houses. You could have one put in at small cost and with very little trouble. No one thing would make more noticeable improvement.
WHY NOT HAVE MORE LIGHT? Larger openings from the hall to the adjoining room or between two adjoining rooms, would produce that effect, with much additional comfort. Additional light could be secured by putting in a new single or mullion (double) windows. The cost of these changes is slight. The introduction of a window seat, especially in a bay window, gives added coziness at a very slight additional cost.
THOSE NEW HEADED CEILING—You have admired them in other houses. Did you ever stop to think that the higher ceilings of your older house would permit of the introduction of one of them, most effectively at a small outlay? It would make a very fine setting for those new electric fixtures you would like so much.
HARDWOOD FLOORS—those vertical grain hardwood floors appeal to the housewife. You would be surprised to know how easily we could put one in for you—right over the old one, without tearing up the room, and all at a most moderate cost.
MAKE THE STAIRWAY COUNT.—It should not be a convenience only, but play its part in the interior decorative scheme as well. Just a few alterations—new balusters and rail or newel, or new treads and risers will help much.
THOSE BUILT-IN FEATURES—they may all be so easily introduced into the old house. Sideboards, china closets, kitchen cupboards, when built in save space and harmonize with the rest of the woodwork. New trim would likewise add a striking effect as compared with the old.
WITH VERY LITTLE MUSS—a great many improvements can be made without partition work, so that there is none of the "muss" that accompanies new plastering work. Some of these improvements, which can be made at a slight cost, will not only increase the comfort of your house but add to its selling value as well.
Our WALLBOARD can be easily used—simply call this to your old walls and paint over same. You will get a lot of suggestions for using wallboard from our books on the same. Very pretty designs for the home can be easily worked out. OUR FREE PLAN BOOKS GIVE MANY SUGGESTIONS FOR THIS WORK. Why not let us explain to you in detail—soon—at what reasonable prices and with how little trouble you can make these improvements.
