Winnipeg and Columbia River Trading Co., Portland.

BLACK LOSSES SURELY PREVENTED BY THE USE OF THE CUTLER LEG. Write for booklet and testimonials. The Cutler Leg, 425 E. 1st St., Seattle, Wash. The Cutler Leg is the only leg that can be worn in any position. It is made of the finest material and is guaranteed to last for years.

JACKS, JENNETTS & HORSES FOR SALE. Sixty head of the finest Mare and Colts, including 1 to 2 year old Geldings, bred for Saddle and Racing. Will consider trade in sheep, lambs. Forty head of extra large Jennetts with an elegant Jack for herd leader. A Bargain for a Short Time. Cause for selling is the herd law in Morrow county, and the transforming of my 200 acre stock farm into a wheat field. I must close out this stock. Will consider trade. What have you got? B. F. SWAGGART, Prop. Lexington, Oregon.

FACE COVERED WITH PIMPLES ALL HER LIFE. Nov. 23, 1914.—"All my life my face was covered completely with a mass of pimples, blackheads and blotches. I spent a lot of money on numerous remedies and treatments without success and no relief at all. I tried so many things that I was afraid my case could not be cured. Resinol ointment and Resinol soap seemed to do me good right from the first. I used two jars of Resinol ointment and some Resinol soap, the total cost being only \$3.00, and this completely cured my case. My skin is without a blemish, and I am the possessor of a beautiful complexion." (Signed) Mabel Ayres, Stone Mountain, Va. Every drugist sells Resinol soap and Resinol ointment.—Adv.

Vegetable Leather. The Japanese grow a plant which furnishes a sort of vegetable leather. It is a pretty shrub called the "miltsumia," and its inner bark, after going through certain processes, is converted into a substance as tough as French kid, so translucent that one can almost see through it, and as pliable and soft as calfskin.

Very Handy Remedy. Always keep alum in the house. It checks bleeding wounds, and for bleeding of the mouth or tongue a wash of cold water in which alum has been dissolved is very effective.

Useless Hope. "Well, did you get quantum sufficient at the Smiths' luncheon?" "Certainly not. This town is local option."

More Joshua Business. Master (retiring)—"Wake me up at daylight, Tompkins—but see that the blessed sun doesn't rise too early."

HOW WOMEN AVOID OPERATIONS. By Taking Lydia E. Pinkham's Vegetable Compound. Cleveland, Ohio—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pains. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. GRIFFITH, 1668 Constant St., Cleveland, Ohio.

Hanover, Pa.—"I suffered from female troubles and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."—Mrs. ADA WILT, 303 Walnut St., Hanover, Pa.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PRODDING NOTE TO ALLIES IS EXPECTED

Official Washington Thinks War With Teutons Remote.

AVENUES FOR SETTLEMENT LEFT OPEN

Way Plainly Prepared for Germany to Acquiesce Without Loss of Dignity—Peace in Sight.

Washington, D. C. — Optimism more pronounced than it has been since the diplomatic correspondence with Germany over the sea zones of war began—was manifest Saturday in official quarters here over the prospects for a peaceful outcome of the pending controversy between Germany and the United States.

The American note presented to the Berlin foreign office by Ambassador Gerard was interpreted on all sides as decidedly friendly and leaving the way open to a satisfactory solution with honor to both sides. Officials made it clear that the note purposely had been phrased so as to reiterate the earnestness of the United States with respect to the principles of humanity and international law and at the same time to afford Germany an opportunity with dignity to make her practice square with the principles expressed.

It was said officially that a note would soon be sent to Great Britain and her allies intimating a change in the operation of the blockade conducted by them so as to conform with the principles of international law forbidding interference with trade in non-contraband articles passing to and from a belligerent country through a contiguous neutral country. This, it was generally believed, would be an important factor in convincing the German government that the United States would maintain the same vigorous position on the fundamentals of international law with respect to the allies as has been the case in the American correspondence with Germany.

Close reading in diplomatic quarters of the American note to Germany presented by Ambassador Gerard, the second since the Lusitania was sunk, brought out a variety of predictions and views as to the manner in which Germany would reply.

Wilson's Stand in German Trouble

Approved by Ex-President Roosevelt

New Orleans—Applauding President Wilson for his stand in the disagreement with Secretary Bryan over the issue between the United States and Germany, Colonel Theodore Roosevelt, in a signed statement received here from Breton Island, La., pledged his support to the President.

"According to Mr. Bryan's statement," Colonel Roosevelt says, "he has left the cabinet because President Wilson, as regards the matters at issue with Germany, refuses to follow the precedent set in the 30 all-inclusive arbitration commission treaties recently negotiated, and declines to suspend action for a year while a neutral commission investigates the admitted murder of American men, women and children on the high seas, and further declines to forbid Americans to travel on neutral ships, in accordance with the conditions granted to us by Germany herself by solemn treaty."

"Of course I heartily applaud the decision of the President, and in common with all other Americans who are loyal to the traditions handed down by the men who served under Washington and by the others who followed Grant and Lee in the days of Lincoln, I pledge him my heartiest support in all the steps he takes to uphold the honor and the interests of this great republic, which are bound up with the maintenance of democratic liberty and of a wise spirit of humanity among all nations of mankind."

Russians Bombard Port. Petrograd—Russian torpedo boats on the night of June 10 destroyed buildings of the Turkish seaport of Samsun, on the Black sea, according to an official statement given out in Petrograd under date of June 12. Many Turkish boats, the announcement says, were sunk. The text of the statement reads: "On the night of June 10 our torpedo boats had an engagement with the ex-German cruiser Braulau and caused her some damage. At Samsun our torpedo boats destroyed buildings and sank many of the enemy's boats."

Big Destroyer Launched. Philadelphia — The destroyer Wainwright, built for the government by the New York Shipbuilding company at Camden, N. J., was launched Monday. Ten-year-old Evelyn Wainwright Turpin, of Jamestown, R. I., was sponsor for the vessel.

Loss of Warship Denied. Rome—An official statement issued here says: "The report contained in the Austrian official statement that a British warship of the Liverpool type had been sunk off San Giovanni di Medua is untrue. The British ship participated with our flotillas in successful operations against the coast of the Gulf of Drina on the 9th and returned with them to one of the naval bases at a speed of 17 knots."

GENERAL VILLA ASKS OPPONENT FOR PEACE AS WILSON DESIRES

Washington, D. C. — The United States was formally notified Tuesday by General Villa, on behalf of the Mexican convention forces, that he had telegraphed General Carranza urging a conference for the restoration of peace and constitutional government in Mexico.

This step is the first tangible development resulting from President Wilson's recent warning to all Mexican factions, that unless they came to an agreement among themselves soon, some other means would be employed by the United States to relieve the suffering population from further devastation of the military element. On General Carranza's reply depends the next move in the situation.

The announcement that General Villa had initiated a movement for peace was received with satisfaction in official quarters. Enrique C. Llorente, Washington representative of the Villa-Zapata coalition, called on Secretary Lansing with a copy of the Villa telegram to Carranza and a long note from General Villa replying to President Wilson's recent pronouncement of policy.

The note referred appreciatively to the President's efforts and outlined the purposes of the Villa-Zapata leaders to bring about a reconciliation with the Carranzistas.

In the message to Carranza dated June 11 and sent direct from the camp of the northern general at Aguas Calientes to the First Chief at Vera Cruz, stress is laid on President Wilson's warning that the United States would be obliged to "decide on other measures should a coalition of the factions prove futile." General Villa says: "In our opinion this declaration involves two principles, which may frustrate the ends of the revolution and impair our sovereignty. First, the Cientificos, with any other group, might again enthrone themselves with American assistance. Second, should the people not submit to this, the American government might have recourse to armed intervention. In the face of these two imminent dangers, and without recognizing the right of the American government to intervene in our affairs, we think that we should seek means that would permit the reunion and reorganization of the Constitutionalist party, even though it is indispensable to make sacrifices of self-esteem."

We believe also that this is what patriotism and the future welfare of our country requires of us. "In such sense, we propose to you that we take under consideration President Wilson's note and that, if you are so disposed, as we ourselves are, that you advise us that we may discuss and agree at once on the form and terms of procedure in the reorganization of the national constitutional government. We have already placed ourselves in touch with the chief of the convention government, as well as the commanding general of the army of the south."

Noted Men From Many States Plead for Adequate Defense

New York — Better military and naval preparedness on the part of the United States was urged here by speakers of National prominence at a mass meeting at Carnegie hall under the auspices of the National Security League, which just begun a two-day peace and preparation conference at which 25 states were represented.

The speakers included Jacob M. Dickinson and Henry L. Stimson, ex-secretaries of war; Charles J. Bonaparte, ex-attorney general; Judge Alton B. Parker, honorary vice president of the league, and Dr. Lyman Abbott. In introducing Judge Parker as chairman of the meeting, S. Stanwood Menken, president of the league, said to the conference desired to inquire into the necessary steps which should be taken for an immediate adequate national defense.

Judge Parker declared that the present European war has taught this country that what was preparedness two years ago is not preparedness now. "We are now faced with the question," he said, "whether we are in a position to protect our rights. We need not fear a growth of militarism, but we must have an army and navy large enough to protect us in our possessions."

O'Shaughnessy is Back. New York—Nelson O'Shaughnessy, who was the United States official representative in Mexico in the critical days that preceded the taking of Vera Cruz, and was later assigned to the American embassy at Vienna, reached New York aboard the Cunard liner Orduna, in response to cable instructions from Washington. Mr. O'Shaughnessy sailed from this port September 9, last, for Vienna, where he was secretary of the American embassy. He declined to comment upon the significance of his recall.

Oregon Adds to Trophies. San Francisco—The Oregon agricultural exhibit in the Agricultural Palace has received from the jury of awards, in addition to the grand prize for forage, 30 gold medals, three medals of honor, 63 silver medals, 94 bronze medals, and 12 honorable mention. This is in the face of the fact that the main agricultural, as well as horticultural exhibits for Oregon, are in the Oregon building, and not in the great palaces. Oregon is walking away with the best of everything in competition of soil products.

Villa Will Admit Food. San Antonio, Tex.—General Francisco Villa gave assurances to United States authorities that he would "do all in his power to assist in the distribution of food supplies to deserving civilians," according to a message from Eagle Pass. It said that General Villa had reversed the order of General Rosalio Hernandez and ordered safe conduct for Red Cross supplies destined for Monclova.

NORTHWEST MARKET REPORTS; GENERAL CROP CONDITIONS

Portland — Wheat: Bluestem, 95c; forty-fold, 94c; club, 96c; red Fife, 90c; red Russian, 85c. Millfeed—Spot prices: Bran, \$27@27.50; shorts, \$28@28.50; rolled barley, \$25.50@26.50. Green Fruits—Strawberries, Oregon, \$1.10 @1.25 crate; apples, \$1.50 @2.50 box; cranberries, \$1.12 @1.25 barrel; cherries, 4 @10c pound; gooseberries, 2 @4c; cantaloupes, \$2.75 @4.25 crate. Potatoes—Old, \$1.85 @2 sack; new, 2 1/2 @3c pound.

Onions—Yellow, \$1 @1.50 sack; white, \$1.75; red, \$1.75. Veal—Fancy, 9 @10c pound. Pork—Block, 10 @10c pound. Hops—1914 crop, 10 @11c; contracts, 10 @11c pound. Wool—Eastern Oregon, medium, 25c; Eastern Oregon fine, 18 @20c; valley, 25 @28c; mohair, new clip, 30 @31c. Casaca bark—Old and new, 4 @4c pound.

Grain Bags—Nominal, 7 1/2 @7c. Cattle—Best Steers, \$7.30 @7.65; good, \$7 @7.25; medium, \$6.75 @7; choice cows, \$6.35 @6.60; good, \$6 @6.35; heifers, \$5 @7; bulls, \$3.50 @5; stags, \$3 @6.50. Hogs—Light, \$7.50 @8.10; heavy, \$6.75 @7.05. Sheep—Sheared wethers, \$6 @6.75; shewed ewes, \$4 @5.25; shewed lambs, \$6 @7. Full wools, \$1 higher.

Oregon Exhibit Wins First Prize.

San Francisco — The Oregon horticultural exhibit, C. N. Ravlin, of Hood River, chief, has received the gold medal in close competition with Washington, Idaho and California and Eastern states and foreign nations.

The jury on awards was composed of famous horticulturists from The Netherlands, Japan, California and the East. A tremendous triumph for the state, Oregon spent on her exhibit \$2500; Washington, \$7500, and California a much larger sum. Success of Oregon is due to her exhibit being purely horticultural in character, every item being practical for horticultural purposes.

There is tremendous enthusiasm among Oregonians here over Oregon's first big capture, horticulturally, from California. Northwest Hops on Steamer Inkum. There were 4306 bales of Pacific Coast hops on the British steamer Inkum, which was struck by a German submarine's torpedo off the coast of England Friday morning. Eight hundred bales of the cargo consisted of Oregon hops, 1000 bales of Washington hops, and there were 2300 bales from California. The shippers of Oregon hops were James Pineus, of Tacoma, who had 404 bales on board the ill-fated steamer; H. L. Hart, of Portland, had 206 bales, and Louis Lachmund, of Salem, 190 bales.

The loss of these hops has as yet had no effect on the market at this end. Cable offers have been made to English dealers to replace the quantities that went down, but the offers met with no response. The losses fall on the English importers.

Sara Mill on Full Force. Ridgefield, Wash.—The sawmill belonging to the Allen & Ryan Lumber company at Sara, about six miles southeast of Ridgefield, is running full force and has orders that will require until fall to fill. They may continue to operate during the winter. This mill, although not a large one, employs about 20 men and about 16 in the logging camp near by.

The logging railroad, over which shipments are sent from the mill at Sara to Knappa Station on the main line of the Northern Pacific railroad for their destination, employs a number of men. Enough timber is available close by to keep them running for about two years. The capacity of this mill is about 30,000 feet every 10 hours.

Boston Orders Loganberries. Eugene — An order from Boston for 20,000 pounds of dried loganberries is announced by J. O. Holt, of the Eugene Fruit Growers' association. The order is nearly as large as the total loganberry output of the Eugene drier last year. The price is favorable, though not made public. An increased demand is expected this year for the loganberry juice, a beverage introduced by the Eugene association last year. The plans of the Commercial club are to present the passing Shiner excursionists in July with samples.

Horse Buyers Criticized. Baker — Horsemen in the John Day valley are much dissatisfied with the French horse buyers who, during the week, have been purchasing cavalry and artillery horses in that section. Many horse owners assert that the buyers are too particular. Of more than 300 head offered at Prairie City only 30 were selected. While prices are about the average, the horsemen say that they took some animals that measured up to the advertised demands nearly 100 miles, only to have to take them back again.

IS ARTIFICIAL SUN

Invention of Scientists for Purification of Water.

Is Claimed to Have Much the Same Effect as That Produced by the Rays of the Sun—in Use in Europe.

It has long been known that water allowed to flow over a bed of sand, a natural filter, and subjected to the sun's rays, soon becomes free from harmful bacteria. The powerful sterilizing effect of the sun's rays which are so effective in destroying germs has been attributed to the ultra-violet part of the light. The problem for scientists has been to devise some way of employing the sterilizing effects of these rays in an effective manner for human use.

French and German scientists set about the task and have produced a new sterilizer, in which, in order that the maximum amount of ultra-violet rays can penetrate the rock crystal, which is the only solid that will admit such penetration. The light given out is vastly richer in ultra-violet rays, in proportion to visible rays than in sunlight.

The sterilizing apparatus was tested at Marseilles and Rouen, where typhoid has become an epidemic, and the results obtained were highly satisfactory. The French carried one of the sterilizers into Morocco and the freedom of the troops from ravages of typhoid, which raged among the Moors, was attributed by the army surgeons largely to the use of the ray-sterilized water. Reports of tests made in the Austrian army shows a similar success for the system, and the United States army surgeons in the Philippines declare that the rays destroyed the harmful bacilli in the water there and also the ameba, which abound in practically all tropical waters.

The rays, it is said, may also be used for purifying the waters of public baths and their use will be especially valuable in keeping the water of swimming pools pure and free from lurking danger of germs. The cost of the apparatus is comparatively low—an outfit of 150 gallons per hour capacity costing in the neighborhood of \$200. Cost of operation is slight where electric current is available, and the operation of the machine does not require a high degree of skill.

Further use for the invention will be found in purifying water for the manufacture of artificial ice, in bottling works and other industries, in which the purity of water used should be an important consideration. Experiments are now being made to find a means for adopting the rays to the sterilization of milk and it is thought that such an apparatus making use of the ultra-violet principle will ultimately be evolved.

CASTER EMBODIES NEW IDEA

Ingenious Mounting Makes Considerable Improvement Over Apparatus of the Past.

An ingenious mounting for the wheel is embodied in a furniture castor recently invented. The castor holder, as described by Popular Mechanics, revolves on a pin inserted in the furniture leg in the usual manner, while each end of the axle of the wheel works in flat inverted V-shaped

Caster That is Central Under Leg of Furniture When at Rest, but Moves to One Side When Rolled.

slots in the sides of the holder, so that the wheel slides from one side to the other when the furniture is being moved and trails readily without requiring the holder to reverse. When the furniture is at rest the axle takes its place at the middle or high part of the slot and the caster wheel is therefore central under the furniture leg.

The Princess Islands.

The Princess Islands, in the Sea of Marmora, now said to have been fortified, as the last defense of Constantinople, have been a place of exile in all ages. In Byzantine times the savage Empress Irene was shut up in a nunnery upon Prinkipo, the chief island. At the time of the Young Turk revolution the worst officials of the Yildiz gang were interned here, though they were politely termed "guests of the island." And afterward the Marmara islands became the dumping ground of the wretched dogs of Constantinople, which the reformers did not dare directly to put to death, though they had no scruples about leaving them to starve and perish of hunger tempered by cannibalism.

Outlived the Doctor.

Senator Burleigh of Maine applied to a recruiting office one morning back in Civil war days and expressed a desire to be a soldier. The examining physician rejected him on the ground that he had a tricky heart. "I wish you'd let me in," coaxed Burleigh. "My heart may act funny, but I'll bet you I live a great many years yet." Nearly half a century later, Burleigh, true to his word, was still living, and as a member of congress got a pension of \$50 a month for that same doctor.

This Baking Powder Keeps Its Strength

The large can of K G lasts longer than 25 cents worth of other baking powders but no matter how long it takes the user to get to the bottom the last spoonful is guaranteed to give perfect satisfaction. K G raises the nicest, lightest biscuits, cakes and pastry you ever ate, and it is guaranteed pure and wholesome. For goodness sake, use K G.

The Youth of Athens.

When Athens gave every fourth block to her children and youth for the gymnasium and the playground, the bulk bodies of silk and steel, and great men walked up and down her streets in regiments, and her health bloomed in the orations of Demosthenes, and the essays of Plato and the marbles of Phidias. Just as soon as the race and the body began to deteriorate, Athens went to pieces. This has been the story, also, of Spheus, and Corinth, and Venice.—Newell Dwight Hillis.

Olive Oil in Nursery.

For a child who is emaciated from illness a massage with olive oil once or even twice a day will supply the needed fat to the body and also lubricate the dried-out skin. A teaspoonful of olive oil three times a day is a good tonic, good for digestion and a mild laxative when given to a baby an hour before or after a feeding. It will also soothe a tickling cough. Olive oil is also healing for burns, chapped lips and hands.

Dr. Pierce's Pleasant Pellets cure constipation.

Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take.

Spectacles Known to Ancients.

There are evidences in ancient writings that some sort of a spectacle was used at an earlier period than that in which de Sapia lived, but to what extent or with what effect is not known. It is thought that for some ages the Chinese have employed spectacles for the relief of defective eyesight and probably they were known to the ancients.

Opened a Charge Account.

He was about twenty-five years old, and it was his wedding day. After the ceremony, when the time came to fee the minister, he calmly said: "Charge it." The minister never saw or heard of him after that.

Shake Into Your Shoes.

Allen's Foot-Ease, a powder for the feet. Cures aching, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Onatole, Le Roy, N. Y.

Coaling Barge Mixes Fuel.

Economy of fuel consumption in steamships often requires the mixing of two or more kinds of coal and an Englishman has invented a coaling barge that mixes coal as it delivers it into a bunker.

Better to Have Tried.

"Failure after long perseverance is much grander than never to have a striving good enough to be called a failure."—George Eliot.

Uncle Eben.

"Do man dat gives advice," said Uncle Eben, "is generally tryin' to show off how much he knows instead of bein' any real help."

BAR VIEW HOTEL

Located at Bar View, Tillamook Co., Ore. Train stops at our door. Only 300 feet from high tide. Plank drive to beautiful beach. Safe bathing, comfortable beds. All the clean, crisp & chicken you can eat. Rates \$1 per day and up. For particulars write or call on W. B. DENT, CO., Rooms 211-22, Falling Bluff, 3rd at Wash., Portland, Ore. Phone A or M 2029, or Bar View, Tillamook Co., Oregon, Dance Every Night. Food, Billiards & Bowling. Surf Bathing Sea Fishing.

DAISY FLY KILLER

ROBERT SOMER, 159 DEARB Ave., Brooklyn, N. Y.

Chinese Salt Wells.

Salt wells in China have been operated for hundreds of years, and in the Tselinghing district, especially, have built up a prosperous community. In some cases the wells are 300 feet deep. The salt is obtained in the form of brine, which is raised in bamboo tubes by means of crude derricks, the motive power for which is furnished by water buffaloes.

Have Healthy, Strong, Beautiful Eyes.

Oculists and Physicians used Murine Eye Remedy many years before it was offered as a Domestic Eye Medicine. Murine is Built Compound by Our Physicians and guaranteed by them as a Reliable Relief for Eyes that Need Care. Try it in your Eyes and in Baby's Eyes—No Smarting—Just Eye Comfort. Buy Murine of your Druggist—accept no Substitute, and if interested write for Book of the Eye Free. MURKIN EYE REMEDY CO., CHICAGO.

Safety First Idea.

"This safety first idea is pretty good stuff," said Pennsylvania Hungry as he sat down in a soft corner of his private box car. "That's right," agreed Hobo Frank. "Every now and then you read about some guy getting drowned in a bathtub."—Cincinnati Enquirer.

Field for Harvest.

This world is not my orchard for fruit of my garden for flowers. It is, however, my only field whence to raise a harvest.—Christina Rossetti.

Habit is Internal Principle.

Habit is an internal principle which leads us to do easily, naturally, and with growing certainty, what we do often.—Webster.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

(As Tablet or Liquid Form)

Assists the stomach in the proper digestion of food, which is turned into health-sustaining blood and all poisonous waste matter is speedily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied—restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 50 cents for a trial box of this medicine.

Send 31 one-cent stamps for Dr. Pierce's Common Sense Medical Advice—1008 pages—worth \$2. Always handy in case of family illness.

Address: Dr. J. C. Pierce, Buffalo, N. Y.

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

Is S. S. S. You Get a Twist on Rheumatism that Settles It. Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and make its wonderful influence. S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end of casting out every irritating, every pain-inducing, every poisonous, that disorganizes and accumulates in the joints, seizes acid accretions to dissolve, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains. And best of all this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs. Get a bottle of S. S. S. today, and ask for S. S. S. You may depend upon it that the above that tells you what you get in a good place to trade. Write to the Swift Specific Co., 204 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.
