One daughter was severely bruised, the other daughter and little son escaped with a shaking up.
 Some time ago W. J. King lost a valuable horse. The loss was keenly felt by Mr. King, both from a financial sense and sentimental attachment for the animal. Knowing this, friends quietly contributed to a fund for the purchase of another horse, and now "Bill" possesses another, which Jinks Taylor purchased and turned over to him at a very reasonable price. That Mr. King is deeply grateful for this act of kindness on the part of his friends, those who know him well realize. When he told the Press man to "stick something in" about it, the old fellow wailed up, and we all know what that means—more than words can express.

 A fire, starting from the burning out of the kitchen fire, threatened destruction of the Athens Hotel, Sunday afternoon. Prompt action of the fire department soon put out the fire. The principal damage to the hostelry resulted from water, the upper rooms necessarily being flooded.
 Undaunted by a cold wind, over 200 people stood for two hours at O.-W. depot, Monday evening, waiting for the special train to arrive with Liberty Bell. When the train arrived wild cheering went up as the nation's most cherished relic passed slowly by. Souvenir literature was thrown to the crowd by attendants in custody of the bell, who stood on the decorated car used for transporting it across the continent to its place of exhibition at the Panama exposition in San Francisco.

The little folks of the three Sunday schools, M. E. Baptist and Christian, were treated to a union picnic Wednesday by their teachers. They assembled in the city park during the forenoon, but on account of a shower of rain decided to repair to the commodious basement of the Methodist church for a bounteous lunch was served by the ladies. Nothing daunted by the weather, the children enjoyed games at the church, and at 2 o'clock, the skies having cleared, the built autotrack was chartered and laden with about fifty youngsters, who enjoyed a hilarious ride for an hour. Upon their return to the church, the children were served with hot chocolate and cake by their entertainers and all departed, voting the day an unmitigated success, in spite of the weather man.
 Frank Alger and Wm. Carsten were fined in Recorder Richards' court Tuesday evening for assaulting Chas. Grant. From the testimony Alger was shown to be the aggressor in the fight and that Carsten assisted him. It appears there was some dispute over money derived from an egg throwing concession at the recent picnic, and this finally ended in the fight. The Recorder gave Alger a \$15 fine, and Carsten, \$20. As an incident of the scrap, Henry Keen is no longer city marshal, and Ernest Boynton is wearing the star. The trouble started in Carsten's saloon, and ended on the sidewalk in front of the building, where Alger was pulled from on top of Grant. Officer Keen received the promise of Alger and Carsten that they would appear at the recorder's office the following morning, instead of arresting the men. Recorder Richards, on this report from Keen, advanced the opinion that the men should be arrested. Councilman Watts thought likewise and told Keen to either arrest the men or turn over his star. This Keen did. It was planned on Boynton's breast, and accompanied by Mayor Watts, he went to Alger's home where the two men were found, brought to the recorder's office and gave bonds for their appearance in court.

Kirk Implement House

HERE IS A LEFT HAND BINDER

That has given complete satisfaction. It is built to cut grain in the most economical way, maximum efficiency in the field with a minimum of trouble and repair cost. Practicality, ease of operation and features of merit all combined is what the users of Cutting Machinery are demanding today. These can best be found in the Johnston line of harvesting machinery.
 The manufacturers of this line of cutting machinery were established in 1871 and today they are putting 43 years of knowing how in every machine that leaves their factory. Johnston Harvesting Machinery is being sold today in most all civilized countries. Much time and money has been spent in perfecting their line of machinery to meet the rigid requirements of the Pacific Northwest. A policy of the Manufacturers is to know that every machine is in perfect running order before it leaves the factory. This is an assurance that it will do the work when placed in the field. All machines are guaranteed to the work for which they are intended.
