Dangerous Method.

"What are your usual modes of pur ishment?" was among the questions submitted to a teacher in a rural district in Ohio. Her answer was, "I try moral sussion first, and if that does not work I use capital punishment." As it was a neighborhood where moral suasion had not been a success, and the children were scarce, the commit tee took no risks.

Her Own Business.

The charming young woman who expected to be married soon, went to the registration book for the first The man in charge asked: "With what party do you expect to be affiliated?" "That's none of your business," she replied. "If I have to tell his name I'm not going to register, so there."

Loved Daddy, Too. Pinning a flower on my little four-year-old boy's suit on mother's day, I said to him: "You must wear this rose today to show that you love your mother, Edward." In a little while he returned to me, saying: "Mother, please pin another rose on me so peo ple will know I love my daddy, too."-

FRENCH SUCCESSFUL **AGAINST GERMANS**

Commanding Points Over Plain of Flanders Heights Won.

BOTH SIDES USING HEAVY ARTILLERY

Night Attacks Spectacular—Reports Say Teutons Lose 120,00 Men During 120 Days Battle.

Paris—After battling 120 days for the hilly country between Bethune and Arras, the French forces are in posses-sion of all the eminences looking out upon the plain of Flanders. Lille, Douai and Cabrai all are visible from

Every position along the broad national road between Arras and Bethune has been won except Souchez, and last night another quarter-mile of trenche in the Souchez web was torn away. The attack was made under parachute rocket lights, the French burning bluish white and the Germans greenish white, covering the scene of the des-

perate conflict with a ghastly glow.

The most desperate lighting has been along the short 10-mile front from Arras to Aix Noulette, which began March 9 with the taking of a few hun-dred yards of trenches on the water-shed of Notre Dame de Lorette, where there are the ruins of an old Merovin-gian military road. Every day since then some section of the German trenches have been taken, lost or re-

taken.

Each side has been employing for-midable artillery, both of small and heavy caliber, the French guns being somewhat the more numerous and served with unlimited quantities of

served with unlimited quantities of high-explosive shels.

A correspondent of the Associated Press went through five or six miles of the trenches formerly held by the Ger-mans and reconstructed by the French. Upward of 100,000 Germans have fallen or been captured in these trenches, according to the French official count, since the second week of March. The French losses, the cor-respondent was confidentially informed, while serious, have been much smaller than those of the Germans. There are thickets of little crosses made of twigs tied together marking graves between the trenches. Some of these graves have been torn up by the shell fire.

Two-cent Rate Causes Railroads to Withdraw Many Public Privileges

Chicago-W. J. Cannon, assistan general passenger agent of the Chi-cago, Milwaukee and St. Paul railroad, continuing his testimony in the west-ern passenger rate hearing here, said the two-cent fare laws had wiped out the practice of granting special rates to fairs, conventions and resorts where the hauls are short ones.

"Experience," he said "has proved that the institution of reductions like tourists fares has generally stimulated travel and as a large percentage is carried on regular trains the railroads can afford to make such reductions. Tourist fares of all characters are open to the public and necessarily reduced the average rate per mile. Homeseek-ers' fares, which apply to round-trip tickets, have been made for many years to the West, Southwest and Northwest, and the demand continues. "The carriers are vitally interested in inducing settlers to take up or pur-chase land.

Experience shows that the bargain rate principle of granting such con-cessions on certain days is a factor of consequence in accomplishing the de-sired result."

Pacific Trade Growing.

San Francisco-Big increases in im ports and exports through the San Francisco customs office for the year ended June 30 are shown by the annual report of the collector. During the last six months the increase in exports over the same period last year is about two-thirds. Exports for the last six months thirds. Exports for the last six months were \$39,573,826; same period in 1914 \$24,326,152. Other figures for the year ended June 30, 1915, are: Exsports 1915, \$79,731,766; exports 1914, \$62,535,648; imports 1915, \$76,068,028; imports 1914, \$66,394,389.

France Wants Leather.

Washington, D. C .- France has ofred to lift her embargo on raw hides in return for a supply of American leather goods for military purposes, according to advices received here. The plan, if worked out, will release for manufacture in this country a vast quantity of raw hides which accumu-lated in France as a result of the embargo and because of the extensive slaughter of French cattle for food. Paris dispatches also contain requests for American wheat flour for the use of civilian bakers.

Rome, via Paris. — German Zeppelins, according to reporte received in Rome, have been transported to the coast of the Austrian Adriatic seatosate of the Austrian Adriatic seatosate it is said, is to reach the coast of the Austrian Adriatic seatosate it is said, is to reach the said, is to reach the said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband, I don't seater and I said to my husband and he said, "Why don't you try it?" So I did, and after I had taken two bottles I felt Rome, have been transported to the coast of the Austrian Adriatic sea. Their object, it is said, is to reach Rome. The Italian government has notified the Vatican and the Pope has ordered that the light of the coastaling ordered that the lights of the apostolic palace be dimmed or extinguished at an early hour. The Pope also gave instructions for the removal of art treas-ures from places exposed to damage.

50 Passengers Held Up.

Los Angeles—Fifty passengers on a westbound Pacific electric interurban car were held up and robbed late Sunday night by two masked men about a mile west of Pomona. The robbers poked their guns under the nose of the conductor when he was throwing the switch. The robbers then went through the car and took money and jewelry ameunting to about \$200 and seekepel.

When We Work Best

Autumn and spring are the best sea-sons of the year for all kinds of work. At a very low temperature both men-tal and physical work are depressing Mental work reaches its highest off elency at a temperature of 38 degrees while physical work reaches its maximum at 50 degrees for men and 60 de grees for women. Recent investigadistinctly good for us and promote our mental efficiency.

DOES YOUR SKIN

ITCH AND BURN?

If your skin liches and burns with eczema or any such tormentins, unsightly skin disease, simply wash the sore places with resimol scap and hot water, dry and apply a little resinol ointment. The itching stops in-STANTLY, you no longer have to dig and scratch, sleep becomes possible, and healing begins at once. That is because the soothing, antiseptic resinol-medication strikes right into the surface, arrests the action of the dissurface, arrests the action of the dis-case, and almost always restores the tortured, inflamed skin to perfect health-quickly, easily and at little

To Appreciate Colors. Only a few of the great painters have been great "colorists," for the regrettable reason that they could not divinely see color, and to such paint-

ers the master colorist has been called crude and garish. The fine thing for everyone is to cultivate the eye to a close and ever observation of all hues and shades in nature, for in that way only one can have the pleasure of the highest appreciation of nature, splen did as the wondrous revelations of the spectrum is in its divination of the composition of rays of light.

All Have Three Forms.

All things in the world have three forms; these are gaseous, liquid and solid. Everything is moving from one of these forms into another. For instance, the sputum is a liquid. Dried in the open air, it soon becomes a solid. Then, pulverized, it is taken up by the air and circulates in minute dust particles, some of which are too small to be seen.

Expert in Silver Linings. Hall—"Blythe is a pretty optimistic character, I hear." Wall—"I should say o. If he failed in business, he'd thank beaven he had his health: If he failed in health, he'd thank heaven he had his business, and if he failed in both, he'd say there was no use having one without the other."

Poor Diagnosis. "What you need," said the eminent medical man, "is more bodily activity. You should exercise your back and limbs and feet. What's your business. 'I am the leading tango expert on the champagne floor of the elite lobster palace," replied the unhappy patient.—Cleveland Plain Dealer,

every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.'

So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich. Not Well Enough to Work.

BERLIN NOTE MAKES PROMISE OF SAFETY

American Passenger Ships May Sail Freely in War Zone.

OFFICIAL GUARANTEES ASKED OF U.

German Reply Makes Conditions for Travel Under Own Flag or On Neutral Passenger Ships.

Berlin, via London - Germany's offer, embodied in the reply to the United States' note regarding the sinking of the Lusitania and submarine warfare, was delivered to James W. Gerard, the American ambassador, Saturday night. Its essential features

American ships engaged in legitimate trade will not be interfered with nor the lives of Americans upon neutral

ships be endangered.
Second, that German submarines passenger ships to pass freely and safely, Germany entertaining in return confident hope that the American government will see that these ships do not carry contraband; such ships to be provided with distinguishing marks Prescribed by doctors for twenty and their arrival announced a reason years, and sold by all druggists,— able time in advance.

The same privilege is extended to a reasonable number of neutral passen-ger ships under the American flag and uld the number of ships thus available for passenger service prove inade-quate Germany is willing to permit America to place four hostile passen ger steamers under the American flag to ply between North America and Europe under the same conditions.

German Reply Viewed Here As Quite Likely to Bring Crisis

Washington, D. C.—Arrival of the press translation of the German note confirmed impressions which have been current in official quarters for several days that Germany would refuse to give the assurances asked for by the United States that the lives of Ameri-cans traveling the high seas on unarmed ships of any nationality be not endangered.

The press copy arrived too late to be read by many officials, and those who saw it said they could not comment until the official text from Ambassa-dor Gerard had arrived.

Assumption of liability for the los of Americans in the Lusitania tragedy

crisis the friendly relations that have ish shipments, and, being unable to existed between the United States and complete the contract because of the ermany developed more strongly in official quarters.

Steamer Minnehaha Arrives in Port

Halifax, N. S .- A bomb placed aboard the Atlantic transport liner Minnehaha, probably while she lay at her pier in New York, caused the exquiet and unchanged. plosion and fire at sea, in the opinion of the officers of the steamer, which put in here for examination Saturday with the fire still unextinguished.

Frank Holt, or confederates, were responsible for the explosion, which occurred at 4:15 o'clock on the afternoon of July 7, the date on which Muenter predicted that some vessel, as to the name of which he appeared uncertain, would be destroyed. would be destroyed

The strong California export demand for butter is keeping the Portland mar-ket very firm and a higher range of prices for cubes in the near future is probable. The belief prevails in the of Americans in the Lusitania tragedy probable. The belief prevails in the was considered to have been wholly evaded by Germany, and the chief principle for which the United States announced that it would omit "no word or act" to see observed was viewed as having been passed over lightly.

The general feeling that the note word to supply the British government with a large quantity of butter would be unsatisfactory and bring to a to make up for the deficiency in Dan-The general feeling that the note ment with a large quantity of butte would be unsatisfactory and bring to a Australian drouth, they have turned to the Pacific Coast for a supply. What puzzles the trade is why the American butter, if intended for England, is not

sent direct to London instead of by After Terrific Explosion and Fire way of Sydney.

Egg buying prices were unchanged with the opening of the week. The poultry and dressed meat markets were

Demand for Fruit Is Renewed. That retailers of Portland sold up closely on the holiday rush was indi-cated by the good demand for fruit and with the fire still unextinguished.

The explosion occurred in No. 3 hold, and was of terrific force, shaking the vessel from stem to stern. Those of the crew who were forward at the time were stunned by the shock and two sailors were hurled into the air. It is a time followed, and for two days and nights the crew battled to save the ship.

There is no doubt in the minds of the officers that Erich Muenter, alias Frank Holt, or confederates, were represented by the good demand for fruit and vegetables on Front street this week. Watermelons were quoted lower at 1½ to 2 cents loose and 2½ cents crated. Cantaloupes were firm at last week's prices. Oregon peaches were steady at 75 cents to \$1 and California peaches at 90 cents to \$1. Among the receipts was a mixed car of California apples, peaches and plums.

There was a good-sized shipment of strawberries from Eastern Washington points, but there was not much demand.

on sale at 75 cents a dozen.

Water Famine Is Feared.' Ellensburg - Charles E. Hewitt, of posals of last February for the reopen- North Yakima, water commissioner of posals of last February for the reopening of her cable communications with Kititas and Yakima counties, after going over water conditions in the values of conditions on the consent of Great Britain and the London foreign office, which never replied to the negotiations communicated by the United States. State department officials made this explanation in the light of a published assertion by Herr von Jagow, who laid stress on the lack of cable communication as a means of an exchange of views on submarine warfare.

London Sets Wool Market Pace

The verdict at London has been ren

Wheat Not Badly Hurt. Washington, D. C.—Sir Cecil Spring Rice, the British ambassador, formally called the attention of the State department to the Fatherland, a German paper published in New York, pointing early grain probably will be damaged out that it forecast the sinking of the Lusitania and predicted internal explosions on ships sailing from the United States for the allied nations. Without making any request, the ambitude of the standard of

The patrons of our first class hotels and restaurants are exacting—they demand the best. Women go where the pastry and cakes are noted for their excellence. Men are attracted by hot bread and biscuits-when fresh and moist and light.

The pastry cook with a reputation uses K C Baking Powder because he knows that results are certain; every time everything is as good as his best.

Then, too, with K C Baking Powder he can mix the various kinds of batter before the rush of the meal begins and bake as needed so that every order goes to the table fresh and hot, yet the last he bakes are just as good as the first.

The reasons behind these reasons is that K C is really a blend of two baking powders. One commences to give off leavening gas as soon as moistened. The other requires both moisture and heat to make it active. Dough or batter will remain in a partially leavened condition for hours, and when put in the oven, will come up as light as if mixed a moment before,

For cookies, pancakes, doughnuts and the like, which cannot all be baked at once, K C is indispensable. For all-baking the double raise makes doubly certain.

Follow the example of the professional cook and your baking will be equal to his.

The Brooklyn navy yard was estab-ished February 23, 1801, when the first land, twenty-three acres, was bought from one John Jackson for \$40,-000. The yard now comprises 144 three miles, protected by a sea wall
