**What He Thought.**

A woman came into the store of G. Sides on Tuesday and said: "Harry, what would you think of a man who would eat two slices of ham, eight eggs, five large potatoes with the skins on them, six slices of bread and two cups of coffee?"

I said at once that he was a hog. She then informed me that it was her husband and got mad.

Just then her husband came in and called me aside and asked me what his wife said to me. I told him and he got sore, too. He wanted me to apologize, but I refused and told him if he said any more about it I would publish his name in the Democrat.

"I still say he is a hog," said Miffin County Democrat.

**Selling It.**

They were just about to get married and were discussing the details of domestic economy.

"But I'm afraid, dearest, we shall not be able to afford a servant at first," he said, looking tenderly at her.

"Oh, Harry, what ever will we do," she said, when they were alone.

"Why, darling," replied Harry, genuinely puzzled, "whose work do you want to do?"

**Fixing The Blame.**

He found his own front porch with wonderful accuracy, navigated the steps with precision and discarded the keyhole by instinct. Once in the dimly lighted hall there was an ominous silence, followed by a tremendous crash.

"Why what has happened, Henry?" came a voice from above.

"It's all right, Mary, but I'll learn those gold fish to snap at me!"—Exchange.

**Useful.**

"What kind of work could you possibly do around an office?"

"I'm a kind of all-round handy man, mister. I kin hold a door open, light a match for ye, look out an see if it's rainin', call a taxi, drop letters down the chute, an' tell folks yer out when ye ain't."—Life.

**STANDARD WAGES THOUGHT TOO LOW**

**Company Blamed for Strike by Federal Investigators.**

**PAY LESS THAN COMFORTABLE LIVING**

**Settled Policy Toward Employees Criticised—Laws Against Child-Labor Strongly Opposed.**

Chicago.—The report of George P. West and C. T. Cheney, who investigated the July, 1915, strike of the Standard Oil Company employees at Bayonne, N. J., for the United States Commission on Industrial Relations, was made public by Frank P. Walsh, chairman of the commission. The report said, in part, after stating that the strike was against the Standard Oil Company of New Jersey:

"The company is the most important of the Standard Oil group and this group is the principal contributor to the wealth, prestige and power of the largest estate in the country, if not in the world, that of John D. Rockefeller, Sr., and his immediate family. The facts regarding the company's labor policies must, therefore, be regarded as of special significance because of the tremendous power wielded by the company and because of its announced intention to enter the field of industrial relations with a view to widening their influence and activity, propagating what they deem to be the proper theories and principles that should govern the relations between employer and employee."

The following findings of fact are to be considered in the light of the foregoing:

"The Standard Oil company, of New Jersey, although conducting an enormous profitable enterprise, pays wages too low to maintain a family on comfortable, healthful basis. It fixes wages, not with relation to the earnings of the company, but by taking into consideration wages paid by other companies in the same locality and then fixing the wage as low or lower than the prevailing wage in this locality. In Bayonne it paid common laborers less than those of two companies whose plants adjoin its refineries. This is in direct contradiction to the claims of the company in a statement issued at 25 Broadway that it has always paid the prevailing wage or better. The statement of the general manager of the company that the interests of other companies in the same locality are considered in the fixing of wages constitutes in effect an admission that the company combines with the poorest of the generous employers to fix the wage rate.

"The company has instituted no machinery by which real or fancied grievances may be peacefully and promptly adjusted. The officials say that any man has access to the general superintendent, but the employees allege that they would be discharged before reaching the office.

"General Manager Gifford is not a believer in child-labor legislation, and on the other hand, thinks the children should be allowed to go to work earlier. He and Mr. Hennessy apparently have little respect for the foreign-born men whose labor produces the company's earnings and are proponents of the extremely individualistic and reactionary industrial theories discarded by enlightened employers and by economists many years ago.

The report recited that the company employed a detective agency of New York City to furnish guards and strikebreakers. It quoted the attorney for the agency as referring to these men as "a lot of thugs." The investigators added: "Their appearance amply justified his use of the term."

"The strike was broken by Sheriff Eugene Kinkead," the report stated, "who first overawed and disorganized the strikers by assaulting and arresting one of their leaders and then strengthened his control over them by promising to use his influence to obtain an increase in wages and by arresting 30 of the armed guards."

**Cancer Foe Discovered.**

New York.—The Rockefeller institution announced through the Academy of Science at Washington a discovery by two of its investigators whereby immunity from cancer, it is hoped, may be obtained. The investigation was conducted over a period of two years. The doctors discovered that in the white lymph cells of the blood there are the necessary factors in making animals immune from cancer. A decided increase of the cells gives absolute immunity, the physicians declare they ascertained.

**France Feeds 3,000,000.**

Paris.—France has expended \$384,000,000 during the first year of the war in feeding the wives and families of mobilized soldiers and workers thrown out of employment. There are at present 3,000,000 receiving allowances from the state. In the beginning a great many people entitled to these allowances preferred not to claim them, considering it an easy patriotic sacrifice for them to make, but as the war dragged on and their resources diminished, they were finally obliged to avail themselves of the aid.

**Soil Studied in Prison.**

Martinez, Cal.—Henry Kueckel returned to his home here Monday on parole from San Quentin penitentiary, where he served one and a half years of a seven-year sentence for forgery, to accept a position as soil expert in California for an agricultural implement concern. Kueckel occupied his time in prison by taking a correspondence course in agriculture from the University of California, in which he won three degrees.

**St. Louis Strike Ended.**

St. Louis.—The strike of 1500 transfer company teamsters and chauffeurs which began here last Friday has been settled. A general wage increase of 50 cents a week, a reduction of about one hour in the working day and better working conditions are granted the men.

Hogs—Light, \$7@7.30; heavy, \$6@7.20.

Sheep—Wethers, \$4.75@5.10; ewes, \$3@4.25; lambs, \$4@6.

Portland.—At the opening of the market Thursday morning there were over 1300 head of cattle at North Portland and three loads arrived from Central Oregon during the forenoon, says the Portland Live Stock Reporter. Buyers from all the smaller local packing plants were on hand, as well as from Puget Sound points, and trading opened with considerable spirit. A Puget Sound packer bought the greater part of the best offerings, paying \$7 for the top steers, and he got some very good steers for \$6.75. The smaller local packers were interested in bidders and each got some good cattle. Just before noon a load of fat steers of poor type were sold to a local packer at \$6.05. Up to noon the majority of the purchases had been made by the Puget Sound and nearby packers, and nearly half of the stuff had been sold. The market was practically on a steer basis, as there were only a few cows offered and only three or four bulls. Most of the steers offered, however, were of killer quality and of weights that killers require. While the market started out steady and most of the best stuff was sold before noon at prices which correspond with those of last week, the larger local packing interests are bidding lower.

**Oregon Crop Report.**

August 1 crop estimates by the United States department of Agriculture are as follows:

Winter wheat—Forecast, 14,000,000 bushels; final, 1914, 13,684,000.

Spring wheat—Forecast, 3,650,000 bushels; final, 1914, 2,920,000.

Oats—Forecast, 14,300,000 bushels; final, 1914, 12,740,000.

Barley—Forecast, 4,240,000 bushels; final, 1914, 3,660,000.

Potatoes—Forecast, 6,730,000 bushels; final, 1914, 4,753,000.

**Mule's Machinery Good.**

Olympia, Wash.—Edward Kelly, a teamster at Vancouver, Wash., was given a blank to report to the Industrial Insurance commission on his injuries, resulting from his being killed by a mule while in pursuit of his duties. The commission received the following: "State part of the machinery on which accident occurred." Answer, "Hind part of a mule." "Was the machinery in good working order?" Answer, "Yes." Kelly's claim for \$27.85 for 24 days' lost time on account of the accident was allowed.

**Fish Hatchery Accepted.**

Vancouver, Wash.—The Clarke County fish hatchery, recently completed by contractors, has been accepted by the Clarke County Game commission, comprising Dr. R. D. Wislawa, George B. Simpson and G. R. Percival. The commission has ordered 1,000,000 eggs from the hatchery in Yellowstone National Park, which are expected to arrive this week. The hatchery is on Cole Creek, five miles from Vancouver. A bungalow for the county game warden is to be built on the land bought by the commission.

**Hopyard Reports Are Better.**

More favorable reports are coming in from the Oregon hopyards. The warmer weather, in combination with the vigorous spraying operations, has at last got the better of the lice. The yards are by no means clean as yet, but good progress is being made toward that goal, and if the weather only continues right, there will be little to fear from mold. No business is passing in local market, and quiet conditions also prevail in California.

**Wenatchee Pears Moving Fast.**

Wenatchee—Wenatchee pears are going into the market in full force. The shippers say the fruit is of extra fine quality this year and that the growers are putting up a good pack. Thirteen outbound cars rolled Saturday. Warren O. Dow, manager of the Wenatchee-North Central Fruit Distributors, has received notice of a large sale of apples to Steinhart & Kelley, of New York, at good prices.

**Rebuilt Federal Trucks**

A Safe Used Truck to Buy.

A REBUILT FEDERAL is as good value for the money as a new truck. By rebuilt we mean that the truck is entirely taken apart, each part examined and if necessary replaced by a new part made at the Federal factory, the entire truck repainted and refinished, and everything necessary done to make the truck practically as good as new in every detail.

When you buy a rebuilt Federal you are protected by the same policy and interest that we give to all Federal owners. We operate a repair department in which the workmen are specialists on Federals, our supply of Federal parts is complete, and we insure the prompt filling of all parts orders. We also operate a service department, which is open day and night, "always at your call." The Federal being a good truck in the first place and protected by a company which is equipped and has the disposition to give you service—is consequently

**He Desired It.**

A boy walked into the office of the telegraph company at Chicago and asked for a job. He said his name was "Missouri."

The manager happened to be a messenger boy just at that moment, and gave him a message that had to be delivered in a hurry.

"Here's your chance, my boy," said the manager. "These people have been kicking about undelivered messages. Now, don't you come back until you have delivered 40."

A little while afterward the telephone rang. On the other end of the wire there appeared to be a building watchman somewhat terrified.

"Have you got a boy they call Missouri?" inquired the watchman.

"We did have 10 minutes ago," replied the manager.

"That Missouri fellow came over here and said he had to go to one of the offices. We don't allow no one up at that office at this hour and I told him he couldn't go."

"Yes, yes," said the manager.

"Well," said the watchman, "he said he would go and I had to pull my gun on him."

"But you didn't shoot him?" exclaimed the manager.

"No," meekly came back the response over the wire, "but I want my gun back!"—Philadelphia North American.

**WOMAN IN BAD CONDITION**

**Restored To Health by Lydia E. Pinkham's Vegetable Compound.**

Montpelier, Vt.—"We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would bleed. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me."—MRS. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

**An Honest Dependable Medicine**

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

**If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.**

**Clinton, Ia., Is Flooded.**

Clinton, Ia.—A cloudburst struck this city late Thursday. Ten square blocks, including the business district, are under four feet of water. Street-car service has been suspended. The big tents of a circus playing here were swept away. The spectators escaped from the wreckage by wading in water above their knees. The property loss will be heavy. Bridges and culverts were washed away by the onrush of waters. Streets became rivers and hundreds were imprisoned in upper floors of houses and store buildings.

**Northwest Business Big.**

Washington, D. C.—Reports received by comptroller of the currency from bank examiners in the Northwest on business conditions in that section are digested as follows by the comptroller: "There is unusual activity in Alaska trade. The livestock, agriculture, fruit, dairying and salmon industries are also active. The lumber and building trades alone are reported as being depressed. The cereal crop will be unusually good."

**SIX INDICTED FOR EASTLAND DISASTER**

**Charges of Manslaughter and Negligence Are Made.**

**JURY HOLDS SHIP WAS UNSEAWORTHY**

**Company Officials Accused of Guilty Knowledge and Ballast Was Not Understood by Engineer.**

Chicago.—Indictments charging manslaughter and criminal carelessness were returned before Judge Kersten in the criminal court Thursday in connection with the Eastland disaster.

The captain and engineer and four officers of the St. Joseph-Chicago Steamship company, owners of the boat, were named. Those indicted were: George T. Arnold, president of the company; William H. Hull, vice president and general manager; W. C. Steele, secretary-treasurer; Ray W. Davis, assistant secretary-treasurer; Harry Pedersen, captain; Joseph M. Erickson, engineer.

Bonds were fixed at \$20,000 each for the company officials and \$10,000 each for Pedersen and Erickson. The two last named are charged with criminal carelessness, and the officials with manslaughter.

Separate bills were returned against the captain and the engineer, while the four officials were named in a joint indictment. The bill against the officials contained five counts, charging:

1. That they knew the Eastland was unseaworthy and had no stability.
2. That they permitted 2500 passengers aboard the vessel, which is more than its carrying capacity.
3. That they were negligent in hiring an incompetent engineer, who, because of his lack of skill, was unable to control the boat properly.
4. That the crew did not number enough hands to manage and control the Eastland properly.
5. That the ballast tanks were allowed to be out of repair and not filled with water.

Against Captain Pedersen these charges were brought:

1. That he permitted aboard the boat a larger number of passengers than she could safely carry.
2. That he neglected to warn the passengers of the Eastland when it became known to him that she was unseaworthy.
3. That he was negligent in not seeing that the ballast tanks were properly filled and in good repair.
4. That he was negligent in not seeing that the chalk holes and gangways were closed when the ship was loaded.

The points in the indictment of Erickson are in essential similar to those against Pedersen.

The report of the grand jury finds that the disaster was caused by "instability under conditions of loading," and says that the instability was due to "one or three main causes, or any two, or all three of them," as follows:

- First—The overloading of the vessel with passengers.
- Second—The mishandling of water ballast.
- Third—The construction of the vessel.

**Public Should Bite the Bubble to Be Safe at Drinking Fountains**

Washington, D. C.—"Bite the bubble" is the latest "health hint" from the United States Public Health and Marine Hospital service. An expert for the Marine Hospital service says: "If improperly constructed or improperly used, the bubbling drinking fountain may be a greater menace to health than the common drinking cup. The other day an inspector of the Public Health service took a seat beside a bubbling drinking fountain in a railway station and watched the way it was used. Forty-seven different persons, 11 men, 22 women and 14 children used the bubbling fountain. In almost every case the lips were placed almost completely around the metal ball from which the water spurts.

**Navy Swindle Charged.**

Washington, D. C.—George D. Will, a clerk in the bureau of navigation of the Navy department, was arrested Saturday on a warrant charging conspiracy in that he was concerned in a scheme to obtain sums of money from enlisted men of the navy for transfers.

Government investigators say they have found evidence of a conspiracy to collect payments ranging from \$25 to \$50 from enlisted men for transfers and promotions to which they were rightfully entitled.

**ARE YOU DISFIGURED BY SKIN ERUPTION?**

Pimples, rashes, ringworm, prickly heat and, worst of all, that red itching, scaly torment, eczema, vanish when you use resolin ointment and resolin soap. There is no doubt about it. Even though your skin is so unsightly with eruption that you shun your friends and your friends shun you, resolin usually makes it clear and healthy, quickly, easily and at trifling cost. When you are sick of wasting time and money on tedious, expensive treatments, get resolin ointment and resolin soap from the nearest druggist and you will quickly see why physicians have prescribed them for twenty years for just such troubles as yours! Great for sunburn.—Adv.
