School Notes.

Work of equipping the High School gymnasium began this morning, after the completion of the work of placing the new opera chairs in the auditorium, and will be finished early next week. Other things needed before it is in readiness for basket ball are the screening of the basketball; another roll of wire to be placed in front of the bleachers; the walls covered with padding to a height of six feet for protection from the rough surface of the wall, and the floor filled and varnished.

The girls' and boys' basket ball squads will resume regular practice as soon as the gymnasium is ready, having discontinued for about a week and a half.

Woke up about three hours later and found himself ten miles from home and no entrance in sight."

"You don't mean it?" was the amazed rejoinder of Brown. "How in the world did he get back?"
 "That was easy," was the cheerful reply of Jones. "He lay down under a tree, dreamed that he was an Indian again and walked back." —Philadelphia Telegraph
