Movement to Restore Monarchy Nov Beyond Stopping-Vote Must Be Continued as Planned.

Pekin, China—While outward calm prevails in Pekin, Japan's communica-tion has caused excitement in official circles, as it is feared this is only a prelude to further action. It is in-comprehensible to the Chinese why

comprehensible to the Chinese why Japan chose the present moment to hand in the communication, as the secret service must have informed the Tokio government two months ago that a monarchy was surely coming.

The communication is more likely to cause trouble than to prevent it, by encouraging the revolutionists with the idea that foreign powers are against the restoration of the monarchy, and thus strengthening the opposition to it.

position to it.

Foreigners and Chinese realize that
the restoration movement has gone so
far that it is impossible to stop it.
Japan's action is all the more strange, Japan's action is all the more strange, considering that Premier Okuma a fortnight ago said that the restoration of the monarchy was China's domestic affair, that it had been decided on and that he was convinced it would be brought about peacefully. The Chinese government, he said, was fully able to control any situation which might arise and Japan had no right to interfere.

right to interfere.

In some quarters Japan's communication is considered an impertinence.

It is said here that the Russian min ister had not received any intimations from his home government, but accompanied the Japanese Charge d'Affaires, Obata, with the object of fully understanding the situation should compli-

ations arise.

The French minister did not attend because he was not invited and had no instructions from his home govern

Whether the British minister was advised by his government is not known, but it is most significant that before Obata presented the communi-cation he waited for the British minster to speak.

Both the British and Russian min

isters remained silent, forcing Obsta to read the communication.

The elections are still going on, and as no attempt is being made to alter the voting schedule, the monarchy undoubtedly will be decided on.

San Francisco - Only 45 out of total of more than 2000 American sea-men in this port who come under the ents of the La Follette eamsn's act had qualified before the local Federal steamship inspectors up to the closing of office hours Tuesday. Unless an order comes from Washington setting aside the letter of the law and making it flexible in many respects, San Francisco shipping interests fear that vessels scheduled to depart on the day the law goes into

clearance at the custom house.

Collector of Customs J. O. Davis said that no vessel which did not have 40 per cent of its crew list qualified under the new law would receive clear-

ance papers.
San Francisco shipping men man fested a pertinent interest in the new law in that it possibly meant the holding up of vessels at a large pecuniary loss because seamen could not qualify

Launch Wrecked; Two Die. Port Townsend, Wash .- The 50-foot powerboat Seeam was wrecked on the north end of Whidby Island in a strong gale Tuesday, and George Bridges, master and owner of the vessel, and a man named Wickersham were drowned. Their bodies and the wreeked launch were found on the beach. A large hole was stove in the Seeam when she struck and she filled with water. The seas carried away the pilot house and stripped the deck of all gear. The Seeam was carrying a cargo of fish from Hood Canal.

Portland.—The strong export demand is the feature of the salmon market. Domestic trade has been good all the season, and with foreign business increasing the situation is entirely satisfactory at this end, and there is every prospect that the pack will be entirely cleaned up.

European orders heretofore this season have been for medium grades, and a large quantity of Alaska reds and silversides has been disposed of. Now the London trade is becoming interested in fancy Columbia River chinooks, an inquiry of this kind having been received yesterday.

The British steamer City of Corinth, now loading on the Sound, will reach Portland the latter part of the week, and will take on between 5000 and 10,000 cases of salmon here for London. The steamer Tampico left down the river carrying 250 tons of salmon for week coast points.

don. The steamer Tampico left down the river carrying 250 tons of salmon for west coast points.

The steamer Yucatan will reach Astoria in a few days with about 36,000 cases of Alaska fish, and the steamer Despatch is also due there from Alaska with a salmon cargo. All the Portland salmon ships are now in.

Eastern salmon orders are also increasing a new development of the

Eastern salmon orders are also increasing, a new development of the trade being the booking of new business with Boston. A still heavier tonnage could no doubt be disposed of but for the interruption of Panama Canal traffic. The blockading of the canal and the congestion of freight at Galveston has left the Esstern markets lightly supplied, and some grades of salmon are practically unavailable

there.
The total shipments of canned salmon by land and sea from American ports for the present year up to Sep-tember 1 were 2,676,795, as compared with a total of 1,801,898 for the same with a total of 1,801,896 for the same period last year. Inasmuch as a large percentage of the Alaska pack for this year had not reached San Francisco by September 1, this season, the packers expect that more recent shipments will show a still greater increase over the shipments that were made last year. In the first part of the year, before the current season's pack began to move, Puget Sound exported \$50,000 cases of salmon to Great Britain, double the quantity exported to that country last year.

that country last year, Wheat Business Less. Portland.-Wheat business, both lo cally and in the interior, is on a much reduced scale. The present tonnage reduced scale. The present tonnage situation amounts practically to an embargo, and when offers were made for wheat they were on a descending scale. Bids at the Merchants Exchange for October and November delivery were lowered 1 to 2½ cents, and December bids were 1½ to 4 cents lower. No sales were posted. The coarse grains were also neglected. November cats bids were reduced 25 cents and December bids raised 25 cents.
