Order Affects 20,000,000 Bushels in Eastern Elevators — Price Not Yet Fixed by Dominion.

> Ottawa, Ont .- The Canadian govern nent has commmandered all highgrade wheat in elevators from Fort William, on Lake Superior, to the At-

The action was taken under the sp cial war act by the Canadian Grain commission. The wheat seized was of grades No. 1 hard and Nos. 1, 2 and 3 northern. It was the property of grain-shippers and millers. That taken is shippers and millers. That taken is all which on Saturday night was in the public elevators at Fort William, Port Arthur, Midland, Tiffin, Port Mc-Nichol, Collingwood, Coderich, Kings-ton, Fort Colborne, Prescott, Quebec St. John, Montreal and Halifax.

A revised estimate places the mount at about 20,000,000 bushels. A considerable amount is the property

The Main Difficulty.

The management of a factory recently engaged a new man and gave instructions to the foreman to instruct him in his duties. A few days afterward the manager inquired whether the new man was progressing with his work.

The grain was taken to so that grain exchanges should be so that grain exchanges should be officially announced that the graingrow-the new man was progressing with his work.

The grain was taken to so that grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges should be affected as little as possible. It is officially announced that the grain exchanges and the grain exchanges a there still is in Canada, in the hands of farmers and dealers west of Fort William, 150,000,000 bushels surplus of wheat available for export. It is expected that most of this will be taken in the future for the use of Great Britain, France and Italy.

The domestic supply of Russia is more than sufficient to meet the needs of that country. Had the Dardanelles been forced, the surplus of Russian wheat would have made the present action unnecessary.

action unnecessary. While the wheat just taken was ommandeered to fill an oder from the British government for a large quantity of wheat, it is understood that

most of it will be shipped to Italy.

The Canadian government will look after the transportation of the grain to the Atlantic seaboard and from there its shipment across the Atlantic will be undertaken by the British government in the same way that ship ments of oats and hay have been hand

German Object in Serbia Gained and Operations Close

Berlin, via London—With there oc-cupation of Rudnik, the capture of 2700 prisoners and the flight of the scanty remains of the Serbian army the Albanian mountains, many's operations against Serbia have been brought to a close, says the offi-cial statement issued at the headquar-

ters of the general staff.

The object of these operations—the opening of communications with Bul-garia and the Turkish empire—has been accomplished, it is asserted.

London - The greater portion of mg in two what remains of the Serbian northern army is believed to have crossed into the mountains of Albania and Montenegro, where the Serbs are continuing, with the aid of King Nicholas' troops and supplies, which are reaching them from the Adriatic, to offer stern resistance to the Austro-German and Bul-

garian invaders. Like the Belgains, however, the Ser bians hold only a fringe of their coun-try, which widens as it reaches the southwestern corner, of which Monas-

tir is the center. For some reason, variously explained, the Bulgarians have halted their march on Monastir. It is said in some dispatches that, having reoccu-pled part of Macedonia, largely in-habited by their fellow nationals, the Bulgarian people and government are disinclined to push any farther west.

Oil Men Join in Prayer. Taft, Cal - The oil men here tool efuge in prayer and practically everybody connected with the oil industry in this vicinity went to church Sunday to hear a sermon preached by Rev. Luther A. Rice on the subject of "False Conservation." The sermon dealt with the order of ex-President Taft withdrawing certain oil lands and the effect on the California industry and this district, where the withdraw lands are situated, in particular. The congregation was asked to pray that congress pass remedial legislation.

> \$1,042,743 in Postal Bank. Washington, D. C .- Only six cities

Washington, D. C.—Only six cities in the United States have greater deposits in postal savings banks than Portland, and Portland's deposits are more than double those of any other city in the Northwest. The statement just issued gives Portland's deposits as \$1,042,743, only \$100,000 less than that of San Francisco. Other Northwestern postal banks having more than \$100,000 in deposits are: Seattle, \$420,975; Tacoma, \$418,207; Astoria, \$135,748; Bellingham, \$121,236; Spokane, \$112,184.

Large Decrease in Onion Crops. The production this year in the 12 important onlongrowing states is estimated by the agricultural department at 13,801,789 bushels, as compared with 21,901,014 bushels in 1914, a decrease of about 37 per cent. The states included in this estimate are Massachusetts, New York, Ohlo, Indiana, Michigan, Wisconsin, Minnesota, Iowa, Colorado, Washington, Oregon and California. These states included

and California. These states included about 59 per cent of the total onion acreage in the census year 1909.

From the returns of special truck-crop reporters it is estimated that the per cent of acreage abandoned in 1915 in certain states because of blow-outs, floods, thrips, blight, etc., was as follows: Massachusetts, 6.8 per cent; New York, 9.1 per cent; Ohio, 54.8 per cent; Indiana, 59.2 per cent; Michigan, 8.6 per cent; Wisconsin, 5.6 per New York, 9.1 per cent; Ohio, 84.8 per cent; Indiana, 59.2 per cent; Michigan, 8.6 per cent; Wisconsin, 5.6 per cent; Minnesota, 0.7 per cent; Iowa, 1.8 per cent; Colorado, 4.4 per cent and California, 0.9 per cent. Total for states considered, 23 per cent. From the same returns it is estimated that the per cent of the onion crop that is of storage quality is as follows: Massachusetts, 51 per cent; New York, 44 per cent; Ohio, 17 per cent; Indiana, 30 per cent; Michigan, 45 per cent; Wisconsin, 75 per cent; Minnesota, 81 per cent; Colorado, 57 per cent; and California, 60 per cent. Total for states considered, 46 per cent.

Wheat Buying is Lighter

Slaughter.

European—Our war is terrible. I know of a colonel who commanded a regiment of 1000 privates and lost half of them in one battle.

Mexican—That's nothing compared with our war. I know of one private holders in the country, however, have not abated their strong views.

At the Portland merchants' ex

At the Portland merchants' exchange, the tendency was toward a lower level all around. November club bids were reduced 1 cent and fortyfold offers were ½ cent lower than the week before, and there was the same decline in other deliveries of white wheat, while red wheat was 1 to 2 cents lower on bid.

Bradstreets estimates wheat and flour exports from the United St. is this week at 10,238,000 bushels. Argentine wheat shipments this week lic man is said to be at the zenith of "It means, my son," replied the de-feated candidate ruefully, "that he is about ready to hit the toboggan."— Birmingham Age Herald.

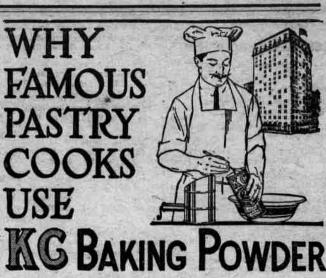

gentine wheat shipments this week were 84,000 bushels, against 96,000 bushels last week and 80,000 bushels a year ago.

New Records in Foreign Trade.
Washington.—New high records in
the foreign trade of the United States
continue to pile up the greatest favorable trade balance this country has
ever known, according to figures made
public by the department of commerce.
During the 12 months ended with
October foreign trade exceeded \$5,000,000,000, Imports were \$1,691,748,013 and exports \$3,318,634,656, as compared with imports of \$1,880,414,501 "I see that the Smiths have been divorced," remarked Brown. "That so?" asked Jones, "Did they have any family?"
"Yes," replied Brown. "She gets
the custody of the poodle and he gets
the custody of the motor car." pared with imports of \$1,880,414,501 and exports of \$2,140,847,829 during the same 12 months previous. Exports of October established a "Did Alice take her husband's fall-ure in the right spirit?"
"Oh, yes. Just as soon as she knew he was going under she went out and

new high record, rising to \$334,638, 578, which was \$33,951,756 more than the former record made in September. October imports were \$148,529,620.

Heavy Trade In Green Produce. Portland.—Trade is rushing in the fruit and vegetable district this week There is not only a heavy shipping demand in all lines, but local buying was largely increased. The demand is particularly good for apples, which are now selling better than at any time this sesson. Cranberries were also free sellers, and the trade in storage grapes was likewise good. A car of head lettuce arrived from the south, and the steamer brought a mix-ed assortment of California vegetables.

Industrial and Trade Activity. New York.—Bradstreet's weekly re port says: "Further progress in trade apantes greater industrial acti vity, higher prices, better collections ncreased demand for money, record bank deposits, sharp reduction in un employment, heavier payrolis, a big movement of grain and lower temper-atures over a wide area, which latter has given snap to retail trade in ses-sonable wearing apparel. Rain has helped winter wheat, and cold weath-er has put a period to cotton growth."

The patrons of our first class hotels and restaurants are exacting—they demand the best. Women go where the pastry and cakes are noted for their excellence. Men are attracted by hot bread and biscuits—when fresh and moist and light.

The pastry cook with a reputation uses K C Baking Powder because he knows that results are certain; every time everything is as good as his best.

Then, too, with K C Baking Powder he can mix the various kinds of batter before the rush of the meal begins and bake as needed so that every order goes to the table fresh and hot, yet the last he bakes are just as good as the first.

> The reasons behind these reasons is that K C is really a blend of two baking powders. One commences to give off leavening gas as soon as moistened. The other requires both moisture and heat to make it active. Dough or batter will remain in a partially leavened condition for hours, and when put in the oven, will come up as light as if mixed a moment before. For cookies, pancakes, doughnuts and the like, which cannot all be baked at once, K C is indispensa-

ble. For all baking the double raise makes doubly certain. Follow the example of the professional cook and your baking will be equal to his.
