The Oregon Voter, a free lance publication of Portland, spots Jonathan Bourne as follows:

"Jonathan Bourne, Jr., world-citizen, one-time Senator from Oregon, and today one of the most influential men of the nation, is feeding publicity matter to the press of the whole country. Its one burden is the financial incompstency of the Democratic administration. Thousands of columns of his authorship are published weekly throughout the United States. It is a powerful and telling influence, and, irrespective of whom the Republicans nominate for President next summer, the standard bearer, if successful, may give serious consideration to the idea of appointing Mr. Bourne to a Cabinet position-possibly postmaster general.

Orohard and Farm says Oregon is exceptionally well adapted to seed production of certain kinds, particularly clover seed. Too dry an atmosphere prevents the seed from filling. tut the moisture of Western Oregon and the mild, temperate climate not only makes the plants do well, but causes the seed production to be heavy. Other sections which grow clover extensively are not good for seed production, so rely to a certain extent upon Oregon for the seed to keep them going, and this makes a good market for all that can be produced.

Persons who are particularly inter ested in the matter of rural oredits can send to the United States Department of States for a report of a hearing of David Lutin, delegate of the United States to the International Institute of Agriculture, before the Tentous being ready to sue for peace. State Department. This describes in detail, among other things, the Landschaft, or great farm credit organizations of Germany, that have teen a big success

Portland papers tell of the probrable demand from Eastern perfume manufacturers for Willamette valley rose petals as the result of less importation on account of the European war. Already the Eastern makers of perfume are investigating and Portland will doubtless recognize the opportunity of manufacturing the product at home instand of shipping the raw material to others to reap the profits.

With the exception of the two Judgeships and one county commissionership, almost every county office will be contested for this year. The primary election for party nominees for State and County offices will be held Friday, May 19, the law requiring that it be held the third Friday in

A Mulligan Stew Selencionenenenenenenen A Central Oregon editor speaks of the return of a young lady to her home after a long, hard stage ride, saying: "The dear soul was very cold and irritable!" adding indulgently, "but we were very glad to have ber home again." Now, if it had teen the Weston Kernel expressing himself so ing. teaderly regarding the fair sex, 1

wouldn't have been surprised, know-ing the peerless old grouch as I do —especially after that touching occulatory experience in his barren old life. ... There is no trouble whatever in curing a seat on the rear platform of the observation car these days.

Yell Leader Post of Athena Hi instills pop in his oborns with a series of gestures all his Own; and I ob-

served the other evening that e-ev'ry little gesture has a meaning of its Own. A crook of his left arm at an angle of 45 degrees signified more volume of sound; a rub a dub motion of the right meant speed Up, while a sudden cross-out movement as though both arms were being thrown away, denoted cres-c-e-n-dol And he got it every time.

Quicker than greased lightning is the Mexican greaser. At least that's the opinion I have after reading of his promptness in capturing the lead-ers of the Villa handits; but my opinion would to enhanced and of a stronger vintage bad he brought in those bandits alive instead of packed in ice, for identification.

... Kernel, old top, we're dowaright glad that your old junk shop did not get scorohed in Sunday morning's fire. If she had, though, there would have been no need of suspending publica-

tion of the Leader for a single issue. This shop over here is plenty big enough for the both of us, by the ob servance of a certain restriction, i. i. e. e., that you couffice yourself to the rear room among the rollers, ink caus, type-lice, and lye pots. Oh! we could have gotten out a couple of issues of the Leader, all right, ol' Kid. ...

It's a long, long way to Missoula, Montana, all right, but I read in the Walls Walls papers that lots of Washington money is going tack to, that cold, hot burg for booze. Well, Missoula always did have a reputation for thriftiness and wide open proclivities, and now she seems to be reaping be added to four to make nine, and the reward of her proclivities.

I have arrived at the conclusion that those Germans have to be whipped with something other than paper. Every now and then you read of the Right after that, soon following, you read again. And invariatly you are enlightened on second reading with certain facts relating to the capture of some stroughold from the allies. The Montenegrin nation is the last. You might build a railroad on paper, but I opine that it takes metallic sut-

stauce and nerve to win battles.

DEATH OF JOSEPH FORREST

End Comes Early Monday Morning After Three Years Ailing.

Joseph F. Forrest died at his bome southeast of Athena at 1:30 o'clock Monday morning, of heart trouble. He had been afflicted for nearly three years, having at times been in a serious condition following injury received over a year ago, while handling mules. The body was taken to Pendleton, where funeral services were held at the Catholic church Wednesday, being conducted by Father Joys of Athena. The Fendleton Lodge of Elks, of which Mr. Forrest was a member, had charge of the services at the grave. Joseph Forrest was born in Minne sota, near the Canadian line, on Feb runty 17, 1844. At the age of 19 years he crossed the plaine. He made his home at Walla Walla, where for

MONEY STONES OF YAP.

latives of the Island Do Not Carry Change In Their Pockets.

Propped up against the house of th native chief of Yap, which is one of the Caroline islands lying southeast of the Philippines, may be seen a row of 'money stones," the current coin of the island. In shape these stones are like millstones, but they do no grind-They serve simply as a parade of the wealth of the village. Their value lies solely in the difficulty with which they are obtained. The yellowish granite of which they

are made is found only in the island of Palao, 200 miles away, and when, the monsoon favors forty or fifty na-tives voyage there in their cances. After pacifying the king of Palao with presents the work of hewing the walakn, or money stones, begins, lasting for months until the monsoon changes. when the toilers start homeward with

their "coin." The smallest of these stones is about a foot in diameter and three inches thick, with a round hole through its center. It will buy food for a family

for a month. The large stones, about three feet in diameter and eight inches thick, have relatively much greater value, since it is more difficult to transport them in cranky canoes over such a long stretch of sea. Indemnities can be paid with such a stone or the aid of neutrals purchased in time of war.

-William L. Cathcart in St. Nicholas,

THE NUMBER NINE.

Easy to Multiply by It if You Will Remember This Rule. Examine any one of the statements

of equality in the multiplication table of nine, up to and including nine times ten. Select, for example, 9×7=63; or 9×2=18 plied, and the second digit in the prodfirst digit, the sum of the two is nine. You may make practical use of this applying it in the following way: If nine is to be multiplied by eight, for example, think at once of seven

nine and eight.

you have forty-five, the product of nine and five. said to "remember themselves."-Youth's Companion.

A High Priced Fricassee Lord Alvanley, a noted wit and high

his dinner table every day throughout the year. On one occasion he paid a caterer \$1,000 for a luncheon put up in a basket that sufficed a small boating party going up the Thames. Being one of a dozen men dining together at a London club where each was required to produce his own dish, Alvanley's, as

in all about 300 birds.

nitz of Vienna that general cold baths have the effect of increasing the num-

LEGION OF HONOR.

The French Order, Its Ranks and Its Limits of Membership.

The Legion of Honor is a French order for the recognition of military and civil merit, instituted by Napoleon while consul May 19, 1802, and inaugurated July 14, 1804. The decoration originally consisted of a star containing the pertrait of Napoleon surround-ed by a wreath of oak and laurel, with the ligend, "Napoleon Empereur des Francais;" on the reverse was the French cagle with a thunderbolt in his talons and the legend. "Honneur et Patrie."

The order has been remodeled several times, the last occasion being subsequent to the downfall of the second empire. There are now five ranks or classes-ordinary chevallers or knights, officers, commanders, grand officers, grand crosses. The profuse granting of the decoration of the order latterly brought the institution into discredit. and the number of chevallers is now restricted to 25,000, the officers to 4,000, the commanders to 1,000, the

grand officers to 200 and the grand crosses to seventy. The star now bears a figure emblematic of the republic, with the inscription, "Republique Francaise, 1870;" on the reverse two flags, with the inscrip-"Honneur et Patrie."-Philadelphia Press.

USE OF OLIVE OIL.

Reasons Why It Should Have More Prominence In Cooking. Americans are not, generally speak-ing, liberal enough in the use of olive

oil. It should occupy a more prominent place in cooking. Any olive oil left in the pan after

frying can be filtered through cheese-cloth and kept in a cool place for future use. Olive oil can be used re-peatedly. It should be hot before the article to be fried is placed in the pan. Olive oil is capable of having the temperature raised to over 600 degrees before it burns. Butter burns at a little over 200, suct at about 300 and lard at 235. It will be seen that butter is a poor frying medium, as food must be kept at too low a temperature or it scorches, while with oil the high degree quickly coats the outside of the article with a crust that prevents the oil from penetrating.

Rub the preserving kettle with olive oil to prevent fruit from burning. Use olive oil in recipes when possible where butter is called for. It is especially delicious in soft gingerbread, salad dressing and baked beans.-New York Sun.

To the Public.

It is rather strange to see me on the Waterwagon and on the right side of the street. But this is where you will find me. So from now on I will be after the Bakery business in the city of Athena, to which I am justly entitled. 1 will do everything in my power to please you all and with this notto in mind I will no doutt make a success. Thanking old customers for the past patronage, I send a hearty welcome to the new oues.
