BIG DAM BURSTS: FIFTY LOSE LIVES

Destruction Near San Diego.

DAMAGE ESTIMATED AT \$1,000,000

Area Two Miles Wide Devastated-Bodies Washed to Sea - Many Margoned Without Food.

San Diego, Cal .- At least 50 persons were believed to have been killed late Thursday when the lower dam of the San Diego water system in the Otay valley, south of here, broke under the heavy pressure of the flood waters. A wall of water 30 feet high was re-

Sweeping down the valley the great flood of water carried people, live-stock and valuable farm property to de-struction. Scores of residents are missing. Houses on 25 ranches were

awept away.

The first news of the disaster reached here late Saturday.
There had been no communication with the district since the disaster occurred,

as wires were down and roads were

impassable.

At least 25 Japanese men, women and children were reported to be among those lost.

An area 15 miles long and two miles wide is devastated.

Rescuers were unable to reach the

scene of the disaster, as all bridges were washed out and the swollen streams were so treacherous that it was impossible to launch boats to go

Several bodies have been seen float-

ing in the flood waters, according to reports received here.

The coroner confirms etimatess that place the loss of life in the flood at 50.

ated and narrow Otay valley.

The property loss will amount to at least \$1,000,000. Because of the fact that they were isolated by the breaking of the dam, which shut off any means of reaching other communities, hundreds of families in the vicinity are facing a food families. are facing a food famine.

Louis D. Brandeis, Boston Lawyer, Named for Supreme Court Bench

Washington, D. C .- President Wilson Saturday sent to the senate the nomination of Louis D. Brandeis, lawyer, of Boston, to be associate justice of the Supreme court in succession to the late Justice Lamar. The nomina-tion was a complete surprise in official circles. Mr. Brandeis' name had not en mentioned publicly in connection with the place.

Mr. Brandeis has been in the public eye for some years as a prolific writer on economic topics and for his connec-tion with labor and trust legislation. He attained some prominence six years ago as attorney for the interests which sought the removal from office of Secretary Ballinger in the noted Pinchot Ballinger controversy. He was conusel later on for the shippers

gation of the financial affairs of the cruisers outside. New Haven railroads. Mr. Brandeis represented the Oregon Industrial Welfare commission last year in the case of O'Hara vs. Stettler, in the United States Suprem court, giving the oral argument and preparing one of the briefs. The case

is still pending in the court. Several years ago Judge Brandeis appeared before the Supreme court in the same capacity in the interest of the Oregon 10-hour law. In this case he appeared as counsel for Illinois and Ohio as well. He was, in 1910, chairman of the board of arbitration which settled the New York garment workers'

GERMANS TAKE BRITISH PRIZE INTO AMERICAN PORT; NEW ISSUE DEMANDS ON CHINA

Norfolk, Va.-Given up for lost days ago, the British passenger liner Appam, plying in the West African trade, sailed like an apparition into Thirty-Foot Water Wall Carries Hampton Roads Wednesday, flying the Aid in Resisting Encroachments German naval ensign and with her ship's company under guard of a German prize crew.

She brought word of a mysterious German commerce raider, the Moewe. which now roams the seas, and had on board the crews of seven British mer chantmen and admirality transports captured by the Moewe before she seized the Appam and started her across the Atlantic for an American port with Lieutenant Hans Berge, of the German naval reserve, and 22 men in charge.

According to the story told with

great reserve by Lieutenant Berge to Collector Hamilton when he formally

JUDGE BEN B. LINDSEY

Ben B. Lindsey of Denver, memb place the loss of life in the flood at 50.

of the Ford peace party, has left Holland for Berlin to study the needs of the said that many of the bodies had land for Berlin to study the needs of been washed out to sea.

The breaking of the dam released It is said Henry Ford told Mr. Lindsey 11,000,000,000 gallons of water, which rushed down through the thickly populate ample funds to help the children. that if it were feasible he would pro-vide ample funds to help the children. Judge Lindsey hopes later to go to England and will leave there for the United States.

> reported his presence in American territorial waters, the Moewe captured the Appam bound from Dakar, French West Africa, for Liverpool, after a brief show of resistance on January 16, 60 miles north of the Madeira

Washington, D. C.—Until it is decided whether the German commander aboard the British steamer Appam brought the ship to an American port as a prize of war or as a converted suxiliary cruiser of the German navy, there will be no determination of the American government's course

specting the ship.
When certain formalities have bee complied with, the ship's passengers, including several British colonial officials, will be released and their dis-position passed on by immigration authorities. Any prisoner of war will

neutral country.
The United States then finally will have to deal with the German crew, and if they are accounted in naval service of Germany, as were the crews who opposed the general increases in of the Prinz Eitel Frederich and the by relying on private establishment of the prinz Eitel Frederich and the by relying on private establishment freight rates before the Interestate Kronprinz Wilhelm, already interned to supplement the output of government plants in time of war. commerce commission, and during the at the Norfolk navy yard, they, too, same period he was at the forefront of will be interned unless their ship goes

As to the disposition of the Appam herself, if she is held to be an auxiliary cruiser her commander will have the option of putting to sea after a ceratin time to make repairs and take

provisions. If she is delcared a prize, the situa tion becomes more complex, and in that event it is admitted that the United States will have to deal with prob ably the most novel question concern ing its neutrality that has arisen during the war. As one of the first steps, the problem probably would be referred to the neutrality board, which is an unofficial body whose function is nerely advisory.

AMERICA STANDS ALONE ON QUESTION

Complete Control of China by Japan Would Result - Open Door to U. S. Would Be Closed.

Washington, D. C .- Awaiting conwashington, D. C.—Awaiting confirmation from official sources as a necessary preliminary to any action by the United States, State department officials were interested Thursday in a report from London that the Japanese extra fancy, \$1.25; choice, \$1; Yellow Newtowns, extra fancy, \$2; fancy, \$2; fancy, \$2; fancy, \$1.75; choice, \$1.25; choice, \$1; Yellow Newtowns, extra fancy, \$2; fan government has revived all of the demands on China included in the famous "group five" of the list of proposale submitted to the Pekin governmen more than a year ago for a permanent settlement of outstanding issues be tween Japan and China.

There is a conviction in official cir-cles here that any action at this time likely to have results to warding off the new Japanese demands must be taken by the United States practically With every evidence of sympathetic

interest by the European entente allies in the attitude of opposition which the United States took when the proposals in the "group five" originally wer submitted, it is believed none of thes powers will be inclined to take issue with Japan at a moment, when the are leaning heavily on their Oriental ally, not only for munitions of war, but for military and naval protection of their interests in the Orient.

The close study that has been made in Washington of the proposals em-bodied in "group five" has only con-firmed officials in their original belief that if accepted in full by China, with-out protest from other nations, they would lead not only to material and ndustrial, but even political domina tion of China by Japan.

Japanese advisers for the Chinese government with resulting exclusion of all other foreign advisers from Pekin, it is felt, would place China completely under the political control

While not prepared to make an iss on that point, however, the State de-partment is convinced the other pro-visions of "group five" finally would close to American commerce and en-terprise the open door in China.

General Disapproves Government Manufacture of War Munitions

Washington, D. C .- Estimates given the senate military committee Thursday by Brigadier General Crozier, chief of ordnance, showing that a plant costing \$400,000,000, operated by a force of 750,000 workmen, would be required to manufacture ammunition and war materials necessary to be released, because international law keep an army of a million men in the permits no holding of war prisoners in field and equip an additional million

recruits. General Crozier strongly disap proved any proposal for government monopoly of war supplies, insisting that best results could be accomplished by relying on private establishments

The committee received from Secre measure suggested by Senator Cham-berlain, chairman of the committee which would provide for the authorization for the proposed continental army in general terms only, leaving the de tails of the proposed system to be worked out by War department regu-lations. The original draft of a bill submitted by the War department contained an outline of the entire system. Mr. Garrison pointed out to the congressional committee, when he appeared before it, however, that as the plan largely was an experimental one, it would be wise to give the President

Pumice Batters Vessel.

San Francisco-Pumice stone from submarine disturbance mingled with the waves which battered the liner Sierra during a hurricane which was encountered three days out from Sydney, N. S. W., according to the report made by the captain when the steamer arrived here. Captain Kougan said the Sierra must have passed over the seat of the volcanic outbreak, as for hours the ship was in a sea of pun pieces varying in size from the size of a marble to as big as a stovepipe hat being thrown on deck by the waves.

Reaction in Wheat Market Feared

The recent swift upward movement in the wheat markets of the United States is causing grain men at Port-land to proceed with caution. They are asking whether or not the top has been reached. Sooner or later the high limit is going to be attained and the turning point will come without warning. It is true that prices are 30 cents cheaper in the local market than they were one year ago, but it is just about a year ago that the crest of the 1914-15 market was reached, and a slump disastrous to many set in. While there may or may not be a permanent check to the rise, a reaction, at any rate, is looked for, and for that reason there has not been the keenness to buy this week that was witnessed in the preceding week. It is also this uncertainty that is causing millers to refrain from advancing flour prices at

this time. Country wheat bids were unchanged, but at the local exchange offers were raised from ½ to ½ cents. Coarse grains were about steady.

Bradstreets estimates the world's

visible wheat increase at 960,000 bush-els, the corn increase at 1,172,000 sushels, and the oats increase at 979,-

000 bushels. The European visible wheat supply is 79,840,000 bushels, an increase of 3,456,000 bushels for the week; a year ago it was 72,300,000 bushels, a decrease of 4,400,000 bushels.

Boom in Hop Trade.

A buying movement of unusually large proportions has struck the Pacific Coast hop market. In the three states trading has become extremely active and prices are on a firmer basis than any time this year. A large part of the buying appears to be for export account. There are also indications of urgent short covering. That some of the purchases represent new business with Eastern brewers is also certain. Hop men are at a loss to explain the

would be wise to give the President wide discretionary powers to meet problems which could be solved in the light of experience yet to be gained.

Hop men are at a loss to explain the sudden boom in trade. It may be partly in consequence of the clearing off of pooled hops from the market, but it is more than likely that the demand for association hops is an effect rather than a cause of the flurry. place abroad for a large quantity of American hops has evidently been found. Whether the stocking up is in found. Whether the stocking up is in anticipation of a small foreign grop or is to svoid the import duty that Eng-land is likely to impose is not clear. At any rate, the buying has become urgent and supplies in the hands of Coast growers are sharply reduced Oregon holdings in first hands, outside the association 10,500 bales. sociation, are now estimated at

Fruit Men Await Government Report North Yakima - Members of the Yakima Valley Fruit Growers' assoc London—Germany is continuing her efforts to conclude a separate peace with Serbia, according to the Ahtens correspondent of the Daily Mail. Fruit Distributors be deferred until after government experts have submitted a report on a new system of fruit marketing. The report now is being formulated as the result of recent conferences with fruit growers in various parts of the state. The trustees of the Yakima Valley association are expected to act on the resolution

Opportunities of the Horse Breeder in

it the professional horse breed

About the professional horse breeder I shall have little to say. He is abundantly able to take care of himself and, if he is as foresighted as he should be he will profit by the impending conditions which will soon make horse breeding one of the most profitable phases of animal husbandry in this country.

Henry Ford and the European war conditions have completely changed the aspect of the horse business in this country—the first by putting the poor horse out of business and the second by practically cleaning the country of the lighter and less useful farm horses and both in causing contions which make for the advantage of the drafter.

ditions which make for the advantage of the drafter.

More than any other country the United States is a user of agricultural machinery and, as our machines have become heavier and more complicated we have suffered from lack of farm power. Motors will not supply this lack as they are yet too expensive both in cost and operation and they do not supply the mobility of power afforded by the horse and needed by the farmer.

forded by the horse and needed by the farmer.

The reason for this lack of power is not far to seek. It has been the long continued and almost universal practice for farmers to breed their mares to the nearest stallion regard-less of breed or type but, all the time, very regardful of the size of the serv-ice fee. Too often the farmer will breed his mares to a Percheron one year, a Clyde or a Shire the next and then to a standard bred, a Morgan or a grade the next with the result that

then to a standard bred, a Morgan or a grade the next with the result that he has all kinds and types of horses on his farm at the same time. The raising of pure bred draft horses on the farm should now offer greater opportunities than ever be-fore. I mention the drafter particular-ly because he is the only kind for the farmer and his market for his surplus animals.

Never breed a mare to a stallion that is not of her own breed and that is not of her own breed and never, under any circumstances, use a stallion that is not better than the mare. Good draft horses are just as essential as good seed or good machinery and the foals from pure bree parents are worth at least double any other kind. And then feed. Draft horses cannot be made without feed. Push the colt from three weeks to three years, give him plenty of open air and exercise, and he will pay you as well as anything on the farm.—I. D. Hraham, in Rural Spirit.
