A confusing arrangement in balloting on the good roads bouding proposition occurs at the polls today, for the reason that many suppose the vote goes on the regular primary ballots, when in reality it does not. A separate ballot is required, because of the fact that a special election was petitioned for as required by law, and the County Court named the 19th of May as the date for holding the election. being the same date of the primary election. A further complication devolves through the misunderstanding of many voters, who were under the impression that today they are to vote for or against having the bond issue placed on the election tallots to te voted at the November election. However, generally speaking, voters have been made aware of the voting conditions through newspapers and the active campaign of opponents of the road bonds.

Whenever Charlie Strain tackles a problem, just leave it to him to delve after figures and facts. He substantiates his opposition to the proposed road bonding on conservative statistics from localities that have been "through the mill," verifying his statements with a lucid presentation of existing conditions. In his address before an Athena andience Tuesday evening, Mr. Strain went into the core of the road matter, and gave in detail his reasons for opposing the bonds, and without frills or personalities, convinced his hearers that the proposed bond issue at this time would not be to the advantage of the tax payer.

National headquarters for the Reputlican party have been opened at Chicago in readiness for the convention. It is now up to McManus and Teddy to tell the rank and file of the party what to do.

Teddy's newest slogan is "no puesy footing." He prefers the elephant tread even over the Bull Moose limp. It will take more than a teddy bear stamping to test the donkey trot this year.

There may be more Class to the Blue Mountain League than Ours, but where's the tall team that can live on Class? Go ask the whispering winds that are on the eve of blowing op the Pendleton organization. I'm of the opinion that it takes more than Gasoline and Lime to make some ball teams tick through the season. Geo-graphically, logically, psychologically and otherwise, combined with a sufficient quota of pep. Weston, Athena, Adams and Helix are the turgs that could and should tote a league banner through the season with the proper eclat.

COMNENCEMENT EXERCISES

The High school auditorium was filled to capacity Sunday forenoon, when Davis Errett, pastor of the Christian church, delivered the bao-calaurente sermon. Morning services were dispensed with in the three churches and after Sunday school, the congregations went in a body to the auditorium, and after being seated the High school faculty and members of the graduating class, in caps and

gowns, took seats in front of the as-semblage. A mixed quartette, Mrs. Will R. Scott, Miss Inez Wagner, Mr. Geo. R. Gerking and Dr. Will R. Scott sang, Rev. Reuter of the Methodist Episcopal church, followed with prayer. Scriptural reading by nev, Bentley of the Baptist church, preceded the baccalaurente sermon.

THE WOODMEN IN CONVENTION

The Twelfth Annual Convention Pacific Jorisdiction, Woodman of the World, was held in Athena Wednesday. Delegates from every county in Eastern Oregon except Lake and Klamath were eligible and a large num ter of Camps were represented.

In response to Mayor Watts' address of welcome, Judge FitzGerald of Camp 41, Pendleton, responded as follows: "Mr. Mayor and Citizens of Athena: To me has been delegated the task of making fit reply to your hospitable address of welcome, and such has been

the hearty and whole-souled welcome accorded to us, that it is with diffidence that I address myself to you on this occasion. "Mr. Mayor and Citzens of Athens,

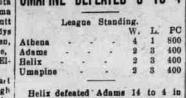

on behalf of the members of this District Convention and on behalf of our great Order, I thank you for your bos pitality and assure you that it will long be rememtered by the delegates

"But it is meet that we should be able to give a reason for our being with you on this occasion, and that reason is that we love our Order and all that it stands for, and are assem bled here to do our duty in the per petuation of its principles and benefit cent objects.

Sunday's game. Umapine plays in Athena Sunday and Helix at Adams.

Umspine had Athena beaten up to the ninth inning, 4 to 2, Sunday, and deserved to win, but the brakes went against the boys of the Chieftain's town in the very last inning, when with the help of a souring two-sacker off the bat of "Jutoh" McPherrin, Hi school lad substituted for Wilson,

three runs tapped the panarimo and Athena scooped the game. The tale written in the score took shows that by all odds Umapine should have annexed the game. Only five hits were garnered off Wynants' delivery, of which King got three, Mo-Pherrin one and Catron one. True, three of the hits went for extra bases, but two of these counted for no runs. Umapinne garnered all bits, four for extra bases and scored in the third, sixth and seventh innings. Athena reeled off two tallies in the

first inning by a combination of a wild throw, a hit, an error and an out. She jogged along natil the ninth, when after Sharp was out, Shick was safe on a fielder's choice, and advanced to second with Winship safe at first on Wynant's error both 'scoring on Mo-

Pherrin's two-bagger. MoPherrin scored from second on Catron's single. The score by innings:

Road Meetings.

Two meetings were held in Athena at which the tonding for roads was discussed. On Friday night Jos. T. Hinkle of Hermiston spoke in favor of the bonds and Eugene Smith of Portland in opposition. Tuesday evening Hon. M. E. Miller of St. Helens and Assessor Strain of Pendleton, addressed a meeting in opposition to the tonds. Both meetings were held in the High school auditorium.

Billiard Tables on Solid Rock.

Billiard tables supported on solid rock are among the novel features of a thirty-six room concrete residence located on one of the islands of the San Juan archipelago in Puget sound. Each table rests on a massive concrete base, which extends through an open ing in the floor and has its footing on bedrock and is therefore as solid and as free from vibration as if it were a part of the island itself.-Popular Me
