OF VITAL IMPORTANCE TO DAIRYMEN

Even if you are busy on the farm, don't neglect your Dairy, especially during the hot days. Make FREQUENT SHIPMENTS of GOOD Cream to Hazelwoods, Portland.

The better the CREAM, the better the Price

Dignities of Office.

This story—which perhaps true and perhaps not—is being told in many Italian mess rooms. On one of his royal tours King Victor Emmanuel spent the night in a small country town, where the people showed themselves unusually eager in caring for his comfort. So when he had gone to bed he was surprised to be awakened by a servant who wanted to put clean sheets on his bed. However, he waited good-naturedly while it was done, and wished the servant good night. He had dozed off to sleep when he was roused for the second time by a rap on the door and the servant reappeared, asking to change the sheets again.

Naturally the King asked why the change was made so often. The servant answered reverently: "For one's self one changes the sheets every week, for an honored friend every day, but for a king very hour."

More Apples Are in Storage.

The United States department of Agriculture, through its Office of Markets and Rural Organization, has issued a detailed report of cold storage apple holdings on May 1, 1918, as follows: The information received indicates that there were 92 per cent more apples in cold storage on May 1 this year than were held on May 1, 1915. The barreled apple holdings show an excess of 127.7 per cent and the boxed holdings an excess of 31.1 per cent over those of a year ago. During April 16.7 per cent of the December 1 holdings moved from storage, as compared with 20 per cent during March.

Strawberry Prices Jump.

Tacoma—Strawberry prices jumped to high points this week on account of the scarcity of the fruit and the high-priced Kennebec berries were snapped up by dealers who had placed only light orders. California berries jumped from \$1.75 a crate to \$2.15 and \$2.25. This is due to the fact that the California berries are nearly all gone, say dealers. The California shippers are turning down orders because the demand is greater than the supply. Clark seedling strawberries from Kennebec were snapped up at \$3.75 a crate, and the jobbers and their buyers are asking for more.

Cherry Men Defer Action.

Wenatchee, Wash.—Cherry growers who met at the Commercial club to unite in a cash selling plan will hold their plans in abeyance until the season develops and a more definite estimate can be obtained on the local and foreign crops and on the possible market value. At present there is a decidedly bullish feeling, not only on the part of growers, but also of shippers and sellers, who believe that the entire crop can be disposed of at good cash prices. Under these circumstances it appeared that it would be advisable to wait.

Four Hundred Tons Oats Sold.

Portland—Four hundred tons of June oats were sold at the Merchants Exchange Thursday at \$26.75, a quarter under the price of the last board sale. It is reported from Washington, D. C., that the government will soon be in the market for 10,000 tons of oats. The local wheat market was dull and bid prices were unchanged. The country wheat markets were also quiet.

Gold Imports From Canada.

New York—Additional imports of gold from Canada were received by J. P. Morgan & Co. Saturday, making a total thus far this week of more than \$3,000,000. The gold, which is more or less equally divided into sovereigns and bars, came from Ottawa in connection, it is believed, with recent purchases of supplies by the Dominion of Canada.

Clarke County Prune Buyers Out.

Vancouver—Prune buyers are active in this county and it is reported that as high as 64 cents a pound has been offered for prunes of this year's. Some buyers, however, it is known, are attempting to close contracts for 64 cents for prunes that run 30-35 a pound.

Big Sugar Crop in Porto Rico.

San Juan, Porto Rico—The revised estimate of the sugar production of the island for the season now ending shows that the production will exceed all previous estimates and is expected to be in excess of 463,000 tons, as compared with 345,000 tons last year.

FERNS ARE GOOD TO EAT, SAY UNIVERSITY JAPANESE

Considered Great Delicacy by Nipponese, Who Eat Puget Sound Plant Like Asparagus.

University of Washington.—The common fern or brake that grows in the Puget Sound country is good to eat, according to University of Washington Japanese students. Several Japanese families have been gathering the stems of the plant on the campus recently. They are boiled and eaten like "fuki," the Nipponese rhubarb, or the American asparagus.
To take out the acid taste of the fern, the stems are boiled in water, to which ashes are added. When nearly cooked the water and ashes are poured off. Clean boiling water is then poured on and the cooking is called "warabi" and is considered a great delicacy. Warabi may be eaten at once or it may be dried and stored away for winter use. When mixed with oysters it is called "shoyu," which means oyster sauce. The food can be mixed with most meats, shellfish and vegetables.

Kill All Flies! They Spread Disease

Flies, mosquitoes, house flies, etc., are the most common carriers of disease. They spread typhoid, cholera, dysentery, and other dangerous ailments. Kill them with the most effective and safe Fly Killer.

It was the last half of the fourth inning, and the home team had three men on bases and nobody out. The next man up was the best batter on the team, in fact the entire league. He advanced to the plate swinging three bats and wearing a confident smile on his face. The stands were in an uproar of enthusiasm.

Suddenly the umpire stepped forward and held up his hand. "Game called on account of darkness," he announced. He leaves a widow and three children.

What to Do for Your Itching Skin
Eczema, ringworm and similar itching skin eruptions are so easily made worse by improper treatment, that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of Resinol ointment and Resinol soap. This proved so remarkably successful, that thousands of other physicians have prescribed it constantly for over 30 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and Resinol soap can be bought at any druggist's, and are not at all expensive.

HOT WATER AND "ANURIC" BEFORE MEALS—AND HEALTH

All people in America and especially those who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in their arteries, veins and joints. The suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air or drink enough pure water in order to sweat freely and excrete impurities thru the skin.

Dr. Pierce has conducted experiments and thoroughly tested a uric acid solvent at his Invalids' Hotel and Surgical Institute which he is convinced is many times more potent than lithia—this he named "Anuric." It can be had at almost all drug stores by simply asking for Dr. Pierce's Anuric for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant need of getting out of bed at night.

Our grandmothers have told our mothers and our mothers have in turn instructed us that in case of sickness, resort to Dr. Pierce's dependable household prescriptions. These medicines as put up for sale by druggists have never been recommended as "cure-alls," but only as superior remedies for certain common and easily-recognized diseases. Had those medicines been adapted to all classes and forms of chronic diseases there would have been no necessity for organizing a competent staff of expert physicians and surgeons, to act in the treatment of difficult, obscure and complicated cases of chronic diseases, as Dr. Pierce maintains in his Invalids' Hotel and Surgical Institute. Of his home remedies the most widely known are his "Favorite Prescription" for womanly troubles and run-down conditions peculiar to the woman; his "Golden Medical Discovery," the greatest of all herbal system tonics and vitalizers, for stomach, liver and blood disorders, as well as his "Pleasant Pellets," the tonic, laxative, overcoming constipation and cleansing the system of poisons and accumulations in the bowels.
