Yes, There's a Lot of It!  
The New York "Times" published the other day an account of an interview with his Excellency John Bonanza, Titular Archbishop of the Holy See and Apostolic Delegate to the United States. The interviewer finally asked the apostolic delegate to tell something of his opinion of modern American literature as he had observed it during his stay of four years in this country. The archbishop, after carefully scanning Madison Avenue for a moment and then gave his verdict: "Of modern American literature, I would say that I am convinced that it is plentiful."  
It might well be added that one trouble with our present-day writing is that very few of those busied therein can express themselves with the clearness, restraint, and force of that sentence—Collier's.

For bruises use Hanford's Balsam. Adv.

**A Great Vocabulary.**  
It was the office of a great sporting newspaper, and the golf editor was taking a brief holiday. In his absence the inquiries from readers which the golfing man answered through his correspondence column were handed to the racing editor. "Which is the better course," wrote an ardent follower of the royal and ancient game, "to fuzzle one's put or to fettle on the tee?" The turf man tilted back his chair and smoked five cigars before taking his pen in hand. Then, when he had come to a decision on the weighty problem, he wrote as follows: "Should a player snuggle his iron, it is permissible for him to fuzzle his put; but a better plan would be to drop his guppy into the pringle and snoodle it out with a niblick."—Toronto Mail.

For inflamed sore eyes apply Hanford's Balsam lightly to the closed lids. It should relieve in five minutes. Adv.

**A Shell Game.**  
A gentleman who dined regularly at a certain restaurant often ordered a dozen clams. One day he counted them and found but 11. Still another day the dozen was one short. He called the waiter and asked him: "Why do you give only 11 clams when I order 12?"  
"Oh, sir," replied the waiter, "I did not think you'd want to be sitting 13 at table, sir."—Christian Herald.

**New Occupation.**  
"When we went across in 1912," said Mrs. Blunderby, "we didn't know one word of French or German."  
"Didn't you find it hard to make them understand what you wanted?" asked her caller.  
"Indeed we did," responded the old lady. "Why, my husband had to hire a man to go about with us as an interpreter."—Boston Transcript.

**Suspended Sentence.**  
Three-year-old Keith had told his mother a deliberate lie and she had put him to bed as a punishment. Sitting by the bedside, she asked him what he would do if he had a little boy who did such a thing. After a moment's thoughtful silence the child replied, "I think I'd give him another chance."—Christian Herald.

## TWO ZEPPELINS FALL IN RAID ON LONDON

Large Dirigible, Aflame, Brought Down With Shrapnel in Suburbs.

### THIRTY BRITONS ARE KILLED

Second Flyer, Disabled, Lands and Crew Made Prisoners—Much Property Loss by Bombs.

London—Of the 12 big Zeppelins which invaded the British Isles Saturday night to deal death and destruction from the skies, two lay Sunday stark and black masses of steel and aluminum in the little village of Mangold, Essex county.

One came down a flaming torch, while the second, disabled by gunfire, effected a landing, which saved the lives of the crew, who are now prisoners in England. The crew of the first raider died in the consuming flames of their own ship.

The death and burning of the first Zeppelin was witnessed by tens of thousands of London residents, but the wounding and descent of the second raider was a matter of doubt until official statements were given out. Few details are available of this second raider's condition, but it is reliably reported that the crew surrendered to special constables.

Many who saw the shrapnel bursting like skyrocket about the invader, which subsequently caught fire, think there must have been several direct hits. Many aeroplanes were aloft and attacked the Zeppelins from all sides.

The raiders took a heavy toll of lives before their destruction, 28 persons being killed and 99 wounded in the metropolitan district of London. Two persons were killed, probably four, and 17 wounded in the provinces.

The property damage, while widely distributed, is confined for the most part to small dwellings and shops, some empty cars being destroyed and part of the tracks torn up.

The roar of dropping bombs was heard in many districts where the raiders were invisible. It is not believed that more than two or three invading Zeppelins which crossed the east coast succeeded in reaching the environs of London, and that two of these paid the death penalty gives the greatest satisfaction to the military authorities.

### Seattle Ferryboat Triton Sinks While Crossing Lake Washington

Seattle—The Lake Washington steamer Triton, owned by the Anderson Steamboat company and engaged in ferry service, struck a snag while approaching Byers' Landing on the east shore of Lake Washington and sank just as she was driven on the beach. All the passengers and crew landed safely.

The vessel ran a mile after striking the snag before the crew knew that she was leaking. When the vessel was a short distance from the shore the water began pouring into the engine room, but Captain Hiram Riddle was able to drive her on to the beach alongside the wharf at Byers' Landing before the water stopped the engines. There were only 25 passengers aboard and all stepped safely off the upper deck onto the wharf.

Ten minutes after the vessel had been abandoned she turned over and now is lying submerged alongside the pier.

### \$1,000,000 Fire at Phoenix, N. Y.

Syracuse, N. Y.—Fire early Sunday destroyed the entire business district and more than half the industrial section of the town of Phoenix, N. Y., 16 miles north of here, causing a loss of more than \$1,000,000. One person is known to have perished. Eighty-two buildings were destroyed. The fire burned without check for 15 hours. Not a store was left standing, and the people are confronted with a serious problem of food supply. Looters invaded the ruins, and scores of deputies were sworn in with orders to shoot.

### Animals Are Fed Better.

Berlin—German horses and cattle are now sharing in the improved conditions of sustenance made possible by the more plentiful harvests this year. The rations of oats for horses kept in Germany have been increased from three to four pounds a day and those of bulls have been increased two and a half pounds. Draft oxen are now allowed two and a half pounds of oats daily, and draft cows one and a half pounds, while employed at harvesting. During the last year draft oxen and cows have had no oats.

## BITTER BATTLE RAGING IN EAST; GREEK KING GIVEN LAST CHANCE

Paris, via London—Although official communications have shed little light on recent developments in the war situation, it is learned from staff officers that the battles at all important points on General Brusiloff's front are again assuming the intensity which characterized the first period of his advance. The principal centers of action are the districts near Vladimir Volynski and west of Lutsk, the Halicz region and the Carpathians, and in each of these territories there has been a general resumption of the fighting, which has spread to adjacent sectors until the whole southwestern war theater from the Pripiet marshes to the Danube may be said to be again in action.

London—According to Athens dispatches received here, M. Venizelos will issue a manifesto to the Greek people from Canea, Island of Crete, where he probably will direct the formation of a separatist government. Besides Admiral Conroutis, the dispatches add, those accompanying M. Venizelos include all the members of his former cabinet, with the exception of M. Raktavinos, minister of justice.

The proclamation of M. Venizelos, it is said, will invite King Constantine to put himself at the head of a national defense movement.

An Athens dispatch to the Daily Chronicle says the Venizelos proclamation will provide the last opportunity for King Constantine to place himself and his government in line with the wishes of the majority of the Greek people, who do not want any declaration of the dethronement of the monarch.

The dispatch says Venizelos will call for a general mobilization throughout the Island of Crete for the purpose of national defense.

### Exports Make Record of Half Billion a Month for First Time

Washington, D. C.—American exports have passed the half billion dollar a month mark. Statistics issued Tuesday by the Department of Commerce show that goods sent abroad in August were valued at \$510,000,000, a record not only for this country but for the world. The total is \$35,000,000 above the previous high record, established in May and \$45,000,000 higher than the June figures.

Imports decreased in August, the total of \$199,247,391 being \$47,000,000 below that of June, the record month. It was greater, however, than the total for any previous August. Exports for the year ended with August aggregated \$4,750,000,000 and the imports \$2,200,000,000, both totals being far in advance of those for any similar period. Of these August imports, 66.5 per cent entered free of duty, compared with 67.5 per cent in August a year ago.

The Federal trade balance for August was \$311,000,000, compared with \$119,000,000 in August a year ago, and a balance of \$19,000,000 in August, 1914, against the United States. For the 12 months ended August 31 the export balance was \$2,465,000,000, against \$1,353,000,000 in the preceding year and \$374,000,000 two years ago.

The net inward gold movement for August was \$29,000,000 and for the year \$410,000,000, a record-breaker. Last year the net inward gold movement was \$146,000,000 and two years ago there was a net outward movement of \$95,000,000. Gold imports in August were \$41,258,716, against \$61,641,191 in August, 1915, and \$3,045,219 in August, 1914.

### Germany Still Holds American Taken From Dutch Steamer

Washington, D. C.—Official State department advices Tuesday report seizure of the Dutch steamer Prins Hendrik by German warships, but did not say on what charge Isador Polak, the naturalized American, removed from the vessel, was being held. The department is investigating further.

Much significance is attached by officials to Germany's seizure of mail aboard the steamer. Some time ago Germany claimed the right to censor letter mail on the basis that The Hague convention, declaring the "inviolability" of such mail had been rendered inoperative by failure of several of the belligerent nations to ratify it, but more recently the practice apparently had been discontinued.

### Auditor Closes Seattle Institution.

Seattle—The Equitable Savings, Loan & Investment association of Seattle was closed by the state auditor, who took charge of all records. In letters sent to the stockholders, Auditor Clausen said the association was overvalued with real estate which had depreciated in value and which made it impossible for the association to "continue in business." H. O. Shuey, president of the association, said the liabilities amount to \$75,000. The assets equalled the liabilities, but could not be realized on immediately.

### Border Sick Rate Higher.

Washington, D. C.—Slight increases in the sick rate of both National Guard and regular troops on the Mexican border are shown in a report Tuesday to the War department. For the week ended September 16 the Guard sick percentage was 2.13, as compared with 1.91 for the week preceding. That of the regulars was 2.63, against 2.15 for the previous week. Guard deaths totaled five and those of the regulars two, against three and four, respectively, for the week ended September 9.

### Wheat Grains Multiply.

Oregon City, Or.—Three years ago George Bon Jensen planted 12 grains of wheat he had carried from Russia, his native land, in his pocket. This year he harvested 1276 pounds of cleaned wheat from the 12 kernels. He lives near Mount Pleasant. This grain is somewhat larger than the ordinary variety of domestic wheat and is darker in color. Several Clackamas county farmers have decided to give the imported wheat a trial.

## THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes gout, rheumatism, gout or sciatica. This is the time to try "Anuric."  
Anuric digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many ailments, and insurance companies requiring doctors always test the water of an applicant before a policy will be issued. This is a good time to take "Anuric," for twenty-four hours. A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of disease, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination. This is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or a book of 108 pages. Physicians will inform you truthfully.

**KNOW YOURSELF!**  
Read all about yourself, your system, physiology, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical and Family Book of 108 pages. Send to Dr. V. M. Pierce, Buffalo, N. Y., three dimes or thirty cents in one-cent stamps for a cloth-bound copy.

### What a Tourist Heard.

A tourist in Ireland came upon a couple of men "in holts" rolling on the road. The man on top was punning the other within an inch of his life. The traveler looked on for a moment in silence and then intervened. "I say, it's an infernal shame to strike a man when he's down."  
"Pat! If you know all the trouble I had gettin' him down yer wouldn't be talkin' like that," came the intermittent reply.—Judge.

## HUSBAND OBJECTS TO OPERATION

### Wife Cured by Lydia E. Pinkham's Vegetable Compound

Des Moines, Iowa.—"Four years ago I was very sick and my life was nearly spent. The doctors stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got me some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced to get better and am now well, stout and able to do my own housework. I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave ere this if it had not been for your Vegetable Compound."—Mrs. BLANCH EPPERSON, 703 Lyon St., Des Moines, Iowa.

### Before submitting to a surgical operation it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound; it has saved many women from surgical operations.

### Walla Walla Growers Sell Wheat in Shaky Market

Walla Walla—In the past few days farmers have sold about 100,000 bushels of wheat at about \$1.20 for club and \$1.25 for Turkey red. The actions of the grain market have alarmed some of the growers, who sold at 10 cents less than they could have obtained a few days ago.

Alex Wray and J. E. Berryman sold 22,000 bushels of choice bluestem at top prices, and G. Schwenk sold 7000 bushels. There were numerous small lots sold. Winter bluestem, sown in the light land section 12 miles north of Touchet, yielded 25 bushels to the acre, while Turkey red, sown under the same conditions, yielded but 22, according to reports made to County Agriculturist O. V. Patton, who has been experimenting with different grains.

Henry Vincent, one of the big Euroka flat ranchers, has just completed the harvest of 115,000 bushels of wheat.

### Apples Sell for \$2.10 a Box.

Wenatchee—The Rock Island unit that employed G. M. H. Wagner & Sons as selling agent has received returns on the first two cars of winter bananas shipped. The cars were sold on the Chicago market and netted the unit \$2.10 for extra fancy, \$1.50 for fancy and \$1.20 for C grade on one car and \$2 for extra fancy and \$1.50 for fancy on the second car. The second car was shipped one month ago. The Rock Island district, almost without exception, always ships the first straight car of winter bananas every year and usually receives top prices. Direct from Rochester, the market center of New York apple district, F. E. Thorn, representative of Kimball Brothers of New York, brings the news that the apple crop of the Empire state is of poor quality and will have a large percentage of culls. Virginia presents the opposite situation. It has the largest and best quality crop in its history. The orchards in the Shenandoah valley and Cumberland valley are loaded with fine fruit.

### Klamath Wants Grazing Toll.

Klamath Falls, Or.—A movement to secure for Klamath county the taxes said to be due it for the grazing of transient livestock within its boundaries has been started here by the Klamath Commercial club. The club is compiling data concerning the amount of such stock grazed in Klamath county during the season of 1916. The state law provides that owners of livestock grazed in counties in which the owners of the stock do not reside are liable for a tax on this stock.

### Tacoma Firms Get Contracts.

Olympia—The State Board of Control has issued the contracts for the food and domestic supplies for the next six months. The Tacoma Grocery company will supply 9600 pounds of laundry soap at 4 1/2 cents a pound. Five thousand gallons of syrup will be purchased from the Pacific Coast Syrup company of Seattle. Albers Brothers Milling company, of Tacoma, was given an order for 83,600 pounds of rolled oats. Rogers Bros was given a contract for dried and canned fruits.

### Western Washington Hops Sold.

Several hundred bales of new Western Washington hops were sold this week. The two Miller crops, aggregating 400 bales, were sold at 9 cents, and Carl Kohler sold 100 bales at 8 cents. The Gus Olds crop of 90 bales was also sold.

## Proved His Point.

The old Scotch professor was trying to impress upon his students the value of observation. "No," he complained. "Ye dinna use your faculties of observation. Ye dinna use 'em. For instance."  
Picking up a pot of chemicals of horrible odor, he stuck his finger into it, and then into his mouth.  
"Taste of it, gentlemen," he commanded, as he passed the pot from student to student.  
After each had licked a finger and had felt a rebellion through his whole soul, the old professor laughed in triumph.  
"I told ye so," he shouted. "Ye dinna use your faculties of observation. For if ye had observed ye would ha' seen that the finger which I stuck into the pot was in the finger which I stuck into my mouth."—Chicago Herald.
