Awkward.

A draper is bemoaning the loss of a customer. A lady was in the shop on Saturday and bought some goods.

"How much is it?"
"Two shillings."
"Dear me! One-and-ninepence is all

have with me. Cannot you let me have it for that?"
"Really, I could not," said the draper, "but you can pay the next time

you are in."

"Oh, but suppose I should die?"
laughingly inquired the lady.

"It would be a small loss," rejoined
the draper, but he saw from behind the injured look the customer wore as she crept out of the door that he had made a mistake somewhere, though it did not dawn upon him until too late. —London Tit-Bits.

Strength is Calm.

A life whose resources are inexhaus-tible, whose power is resistless, ought to be a peaceful life. The strong soul is always a quiet soul. There is no surer proof of power than caim. The feeble physique fligsets and flutters and is never at rest; it takes a strong and is never at rest, it takes a strong man to hold still. A weak wrist can pound the piano; it is only the iron muscles of a Padorewski or a Hofmann that can touch the keys so softly that they only murmur as in the music of a dream, "The mountains," says the paalmist, "bring peace to the people"; that is because "the strength of the hills is his also." Great crowds cheered the spectacle of the burning Zeppelin as it fell in the London district. The great flare from the burning aircraft was visible for a long distance.

Destruction of a Zeppelin Sunday night by the British made a total of four within a month. One was brought down the night of September 3 in the outskirts of London and two more on the night of September 23. The California market held strong at 15 cents for the best hops and buying was heavy. Proctor purchased 1200 bales and Wolf 300 bales at this price.

Market Conditions at Tacoma.

Eastern flour advance d 20 cents a barrel and the advance L. expected to reach here in a day or so. With the continued advance of flour, bread prices may be expected to go up. In Tacoma this is likely to take the form of smaller loaves.

Peaches and cantaloupes hold well.

varieties will gradually finish off the peach season.

Cantaloupes are meeting with a lighter demand and the price is steady at \$1\$ a crate. Only a few dealers have any watermelons on hand and there seems to be no demand for them. Casabas are practically off the market. Plenty of grapes continue to be the feature of the market. Tomatoes are growing scarcer and the price advanced to .60 cents. Sweet potatoes declined to 2½ cents a pound.

Dealers say it is hard to estimate the potato crop this year but the general opinion is that potatoes will be high. The local crop is good, and no Yakima potatoes are being imported.
