From "Scribbler's" Notes: "John Foss is teaching on Gerking Flat; training the young idea how to shoot. The embryo statesmen, with the young idea that John is teaching how to shoot, have another young idea, and that is that they already know how to shoot—paper wads—but that is neither here nor there. What I wish to state is that John boards at home and rides to and from his school on a fiery, untamed steed that has a gait on him like a pair of bars. The front end of the horse will be trotting at about a three mile clip, while the rear end walks along very deliberately. The horse is really a curiosity and should be sent to the World's Fair."

The Athena Press Honor Cup will be on exhibition next week. After the summary of the reports is made for the past month, the record of each room will be recorded and published. The honor cup will then be presented to the room winning the most points for one month. Which room shall win the cup next month?

The choice of cup is in keeping with the merit of the high standard necessary to hold it. The honor cup stands fourteen and one-half inches in height. We are especially fortunate in securing this rich trophy.

Give the Good Wife Her Share of the Big Crop

When thinking of the new farm equipment and improved new machinery you expect to buy from the proceeds of this year's crop, don't forget the woman's department. Surprise the wife or other women folks by suggesting a new Monarch range and a McDougall Kitchen Cabinet. They have shared in the work for the crops. Why not let them share in the profits?

MONARCHS AND McDOUGALLS

Both these modern conveniences are life-time articles. They save steps, save time, save work, save worry; and listen, Mr. Man!—the cabinet saves supplies and the range saves fuel—soon actually paying for themselves. After that, the saving is velvet. While you are thinking about it, drop in and look them over—you'll understand them some of the reasons for the things we claim.

NEW PIANOS AND PLAYERS

We have just received another large shipment of the latest up-to-date pianos and players. Come in and see them, and also see how much you can save by buying your instrument instead of having it "sold" to you.
