THE FRENCH ACADEMY.
Career of the Organization of the "Forty Immortals."

The Institute of France had its inception in 1570, when there was founded in Paris by the French poet, Antoine de Balif, a literary and musical society, known as the Academy of the Valois. Charles IX. granted it letters patent on Nov. 20, 1570, as "The Academy of Poetry and Music." It had, however, no stability. Attacked upon every occasion and criticized by its opponents, its members ceased to meet after 1584. Almost half a century passed before a revival took place.

For some time since the year 1622 a small circle of enthusiastic students was wont to meet at each other's home for the study of French language and literature. From year to year its membership increased, and in 1634 Cardinal Richelieu proposed to the society to have their private status changed into a public institution, with many rights and privileges. Upon agreement by the society it was henceforth known as "The French Academy," with a charter from Louis XIII. of January, 1635. It consisted then of forty members—the "forty immortals"—and at no time and under no pressure whatsoever has this number been increased.—London Standard.

School Notes.

The pupils of Miss Sherman's room are preparing a Thanksgiving program. It promises to be very interesting.

Two new pupils registered in Miss Barce's room during the past week, while eight visitors made their appearance. Miss Wagner had one new pupil and Miss Sherman one visitor.

Claude O. King is the latest addition to our High school student body. He promises not only to be a careful student, but also a strong basket ball player.

A party was held by the seventh and eighth grades last Monday evening in the Domestic Science room which proved to be a decided success. Refreshments were served by a committee appointed for that purpose and many games were played under the supervision of Miss Fortna. One of the most diverting of these was a voting game which was played with two stakes, standing for Wilson and Hughes. A ring was thrown on these stakes, and the one getting the most rings won. The game resulted in Hughes' defeat. Mr. and Mrs. Russell were guests of honor.

Because of the enthusiasm on the part of the students over the election, a straw vote was held in the High school Tuesday morning. Sample ballots were secured and voting was done in an orderly manner. For the presidency, Wilson won over Hughes by a 43 to 10 vote. Ben W. Oloott was unanimously selected secretary of State, as was T. D. Taylor for Sheriff. Reeves and Hodgen were selected as representatives for the 23rd district and E. J. Stillman won over Grace Gilliam by one vote for treasurer. The Normal and Rural Credit bills carried by a large majority, the brewers' bill was defeated and the bill stopping the importation of liquor carried.

In the double-header basket ball game played last Saturday evening in the gymnasium, the girls' first team won over the second team by a score of 50 to 19, and the boys' first team won from the second team by a score of 75 to 10. This was the first game of the year, being a practice game to select the first team squads, who will meet the Columbia College first team in a double header next Friday, Nov. 17. The lineup for the boys' first team was as follows: McPherrin, forward; Thary, forward; Payne, center;
