

There are thousands of children who are bright but frail—not sick but underdeveloped—they play with their food—they catch colds easily and do not thrive—they only need the pure, rich liquid-food in

SCOTT'S EMULSION

to start them growing and keep them going. Children relish SCOTT'S and it carries rare nutritive qualities to their blood streams and gives them flesh-food, bone-food and strength-food. Nothing harmful in SCOTT'S.

Scott & Bowne, Bloomfield, N. J.

His Troubles.
"I am having zoological troubles."
"What kind are they?"
"In trying to keep the wolf from the door I am finding a lion in my path and an elephant on my hands."—Baltimore American.

Feminine Intuition.
"I thought you were going to send that hat back, Maude. What induced you to keep it?"
"Every girl I know exclaimed as soon as she saw it on me how becoming it was."—Baltimore American.

Felt in Doubt.
"Did you cure that patient you had with the falling memory?"
"I thought so at one time," replied the doctor. "But I'm not so sure about it now. It went away and forgot to pay his bill."—Judge.

A PROMINENT WOMAN ENDORSES OUR STATEMENT.

Portland, Oregon.—"I was troubled for years with female trouble and tried a great many remedies without any benefit until I was advised to use Dr. Pierce's Favorite Prescription. I took several bottles of it and received great benefit therefrom. I can heartily recommend this medicine to all women who are expecting to become mothers, as I do not think there is anything to equal it. It is also good during the period of middle life."—Mrs. C. A. ANDERSON, 1451 Macadam Street.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal condition, bearing down sensation, mental depression, dizziness, fainting spells, headache and exhaustion, women should never fail to take this tried and true woman's medicine.

For girls about to enter womanhood, women about to become mothers, and for the changing days of middle age, Dr. Pierce's Favorite Prescription should always be on hand. It is a temperance remedy that is extracted from roots with pure glycerine and its ingredients are published on wrapper.

Any medicine dealer can supply it in either liquid or tablet form. The cost is modest, the restorative benefits truly remarkable.

Write Doctor Pierce, Invalids' Hotel, Buffalo, N. Y., for free 130 page book on woman's diseases. Every woman should have one. You can also have confidential medical advice without cost.

How He Was Caught.

He had no stomach for the army, but presented himself for examination with a "sure trick" up his sleeve to "work his ticket." He was physically perfect, but his insight was shocking—so bad, indeed, that the sergeant thought the doctor should see him.

"First class physically," pronounced the doctor, but when the medical man applied the eye tests the would-be recruit's sight appeared much worse than when the sergeant had him in hand.

"No, no, my man; with slight like that you're no use for the army," said the doctor. "But you ought to get glasses. Stay, I've a pair like microscopes, and if you see with them you can have them."

The spectacles were produced and fitted on, and the recruit at once cried, "Oh, I see splendidly!"

"Do you now?" said the doctor, with sarcasm. "Take him along, sergeant, and get him sworn in. There's no glass in the spectacles."—London Tit-Bits.

What's the Use?

He—Do you think I ought to see your husband about my marrying your daughter?

She—Dear me, no. He will read all about it in the papers.—Puck.

THE STRICTEST ATTENTION

must be paid to the first evidence of weakness in the stomach, liver or bowels—Neglect only invites illness.

BE WISE IN TIME—TRY HOSTETTER'S STOMACH BITTERS

DEMOCRATS LOSE CONTROL OF HOUSE

Both Major Parties Have 215 Each According to Late Returns.

ONE SEAT REMAINS IN DOUBT

Two Progressives, One Socialist and One Independent Are Seated—Speakership is in Doubt.

New York—With returns missing Saturday from only one congressional district in the United States, the Republicans and Democrats each had elected 215 representatives. The vote in New Mexico, which is still in doubt, probably will determine which party is to have a plurality of one over the other. The present member from New Mexico is a Republican.

The balance in the next house will be held by four men, one a Progressive-Protectionist from Louisiana, one an Independent from Massachusetts, one a Progressive from Minnesota and one a Socialist from New York. Their action apparently will determine the choice of a speaker, as well as the fate of legislation which is supported or opposed on purely party lines.

In addition to the hope of electing a congressman-at-large from New Mexico, the Democrats had one grain of comfort. It was that an official count may disclose that Thomas J. Scully had been re-elected from the Third New Jersey district. They contend the chances were that Scully had been the victor by a few votes over Robert Carson, his Republican opponent, to whom the election previously had been conceded by a narrow margin.

A reversal in Iowa, where complete returns showed the election of George C. Scott, Republican, over Congressman Tom Steele, in the Eleventh district, and the election of Republicans in the Second and Third West Virginia districts, brought about the present tie. Four members of other parties have been elected.

Late returns appeared further to complicate the congressional situation. Congressman James J. Britt, Republican, of the Tenth North Carolina district, was reported to have defeated his Democratic opponent, whose election previously had been conceded. The senate remains unchanged, 64 Democrats to 42 Republicans.

Villa's Gains Delay Decision of American-Mexican Commission

Atlantic City, N. J.—Confirmation of reports of the increased strength of various reactionary movements in Mexico served to offset, Saturday, the apparent determination of the Mexican-American joint commission to effect an early adjustment of the problem of the two governments are facing.

Until official reports reveal the truth of the stories of Villa's successes in the North and of the progress made by other reactionaries in the south, there appeared a probability that an agreement would be entered into, perhaps next week. That appeared less likely, and the chance of a formal adjournment without an agreement other than one of the most general character seemed more probable.

Reports received by the Americans from official sources, and others received by the Mexicans from their government, dealing with the activities of Villa, were studied at the conference Saturday. The result of the comparison of the reports was to disclose that General Carranza is now conducting a defensive campaign against Villa with a battle at Escalon imminent, instead of prosecuting an offensive campaign against him.

From the source come reports, accepted as reliable, that Felix Diaz' forces are in possession of Rincon Antonio, a station on the Tehuantepec railway, which extends from Salina Cruz, on the Pacific, to Puerto Mexico, on the Gulf of Mexico. Diaz was reported in the state of Chiapas. It was believed that the men in command of the Diaz forces that took Rincon Antonio are Canuto Reyes and Yanba Robles, formerly active in the support of Villa.

German Anger is Stirred.

Berlin.—(By wireless to Sayville, N. Y.)—A deep impression has been made on the German public by the report from the admiralty that a British patrol ship, flying the American flag, after destroying the German submarine U-41, deliberately ran down two survivors. "Indignation is growing in Germany," says the Overseas News Agency, "and the excitement is stimulated by the fact that German submarines returning from trip report that they have been attacked treacherously by hostile merchantmen."

California Feels Quake.

Berkeley, Cal.—University of California seismograph instruments recorded an earthquake 375 miles from San Francisco early Saturday.

Washington, D. C.—A heavy earthquake, lasting almost half an hour, was recorded Saturday morning on Georgetown University seismographs. First tremors were recorded at 4:31 o'clock. The heaviest came at 4:31 and 4:32 a. m., and the disturbance ceased at 4:35. Conservative estimates placed the distance at 2000 miles.

Montana Has Blizzard.

Helena, Mont.—The storm which started here Saturday night with rain, quickly changed to snow and was accompanied by a severe drop in the temperature. The snow was general throughout the Prickly Pear valley and Northern Montana and fell to a depth of from three to six inches. There was little wind and the blizzard reported from the Northern part of the state has only partially reached here. No injury to life or property so far.

OREGON GOES REPUBLICAN FROM TOP TO BOTTOM

Portland, Nov. 9.—Oregon's five electoral votes will go to Charles E. Hughes. He will carry the state over President Wilson by a plurality of approximately 7500 votes. The figure may be as high as 8000, but not more. Returns from every county in the state, excepting Harney county, give Hughes a lead of 6272. The present figures are: Hughes, 105,898; Wilson, 99,626.

These returns represent approximately 93 per cent of the vote cast. The missing precincts are in the outlying districts of the state, including some in Multnomah county, and are not expected to affect the result much either way.

Hughes has carried the outside counties by a plurality well over 2000 and is maintaining his early lead in this county.

Hayley, Republican, for representative in congress in the Western Oregon district, has been elected over Weatherford, Democrat-Prohibition, by a decisive vote, although Weatherford has carried Linn, his home county, and Jackson, which is strongly Democratic.

Sinnott, Republican-Progressive-Democrat, was re-elected representative in congress in the Eastern Oregon district over Barkley, Socialist.

McArthur, Republican, was re-elected representative in the Multnomah county district over Lafferty, Independent, and Jeffrey, Democrat.

State officers, all Republicans, have been elected as follows: Secretary of state, Ben W. Olcott; justice of the Supreme court, George H. Burnett and Frank A. Moore; dairy and food commissioner, John D. Mickle; public service commissioners, H. H. Corey and Fred G. Buchtel.

CONTROL OF HOUSE IS CLOSE; DEMOCRATS LEAD IN SENATE

New York, Nov. 9.—Although the Democrats have assurance of control of the senate by a working majority, control of the house was still in doubt at an early hour today. The Democrats had made slight gains however in the late returns in Montana and Kansas. At 1 o'clock 208 Democrats, 198 Republicans, 2 Progressives, 1 Socialist and 1 Independent had been elected, with 25 congressional districts yet to be heard from. Republicans did not give up hope of winning control.

The situation in the house at this hour is so indefinite that it is impossible to declare whether the Democrats will maintain control. If they do it is certain to be by a greatly reduced margin and one that will scarcely give a good working majority. In fact, unless Democratic gains are made in the districts yet undecided, independent minority members might seriously interfere with the re-election of Speaker Clark and the organization of important committees.

Jetty Car Plunges Through Draw.

Vancouver, B. C.—A Vancouver-Ladner jetty, driven by George Smith, plunged through the gates of an open draw and carried nine persons to death, with the possibility that two more may be added to the list, at the Main street crossing of the Fraser river Sunday night. Smith was driving to Vancouver at a high rate of speed, and the supposition is that in the frosty air the windshield became clouded and he failed to see the warning lights. Before any warning could be given, the machine had plunged overboard.

French Praise Americans.

Paris—Gallantry of Section 1 of the American Ambulance Field Service, again has been cited in army orders.

"Under the command of Lieutenant Robert de Boursaon de Pennefret and Herbert Townsend, an American officer," says the citation, "the section in August and September of 1916 assured the evacuation of three divisions successfully under dangerous circumstances. It asked the favor of continuing the work and both officers and staff gave proofs of most brilliant courage and most complete devotion."

One American on Arabia.

London—The American consul at Bombay, India, states that only one American, Paul Rutledge Danner, was on board the British steamer Arabia, sunk November 6 in the Mediterranean. The Peninsular & Oriental Line Arabia, according to a statement by the British admiralty November 6, was sunk without warning by a submarine. All of the 437 passengers and all the crew but two, were saved.

NORTHWEST MARKET REPORTS: GENERAL CROP CONDITIONS

Portland—Wheat—Bluestem, \$1.58; forty-fold, \$1.51; club, \$1.48; red fife, \$1.48; red Russian, \$1.43. Oats—No. 1 white feed, \$3.4. Barley—No. 1 feed, \$3.7. Sheep—Lambs, \$8@8.75; yearlings, wethers, \$7@7.50; old wethers, \$6.25 @6.50; ewes, \$5@5.50.

Forest Notes.

Much spruce of both the eastern and western varieties is used for sounding boards of pianos and organs. Its natural resonance has won it first place for this purpose.

Of the present total supply of hardwoods in the country, sixty-one per cent is located in the southern states. The Appalachian hardwood region is at present the greatest center of hardwood production.

Within the past year, the Forest Products Laboratory, Madison, Wis., by co-operation with manufacturers, has succeeded in getting a dye, made from mill waste of orange, put on the market as a substitute for fustic which we import from Jamaica and Tehuantepec.

About nine-tenths of the paper which we use is made from wood. Many of the so-called "alk" socks, neckties, and fancy braids now on the market contain artificial silk made from wood.

He Meant Well.
Niece—I do think you are clever, aunt, to be able to argue with the professor about sociology.

Waste of Money.
"Women have queer ways."
"How now?"
"The styles call for mannish hats. So my wife bought a mannish hat for \$18."
"Well?"
"She could have bought a man's hat for \$4."—Pittsburgh Chronicle-Telegraph.

A Merit.
"Do you think imitation butter is as good as the real?"
"In one respect," replied Miss Cayenne, "it's better. People can afford to buy it."—Washington Star.

Resinol

first aid for skin troubles

It is more necessary than smallpox. Any experience has demonstrated the almost miraculous efficiency and harmlessness of Resinol. Resinol is a natural product of the sea, and is not a chemical. It is a natural product of the sea, and is not a chemical. It is a natural product of the sea, and is not a chemical.

Portland Warehouses Sell 1,500,000 Pounds of Wool

Portland—Several big wool deals, involving about 1,500,000 pounds of the Oregon clip of this year, have been closed in this city in the past few days. One of the transfers was a block of 1,000,000 pounds. The wools sold have been held here since early summer by the Columbia Basin Wool Warehouse company and the Portland Wool Warehouse company. The prices realized were not made public, but it is known they were the highest prices ever paid for wool in this state.

The bulk of the wool sold went to Eastern woolen mills, but Boston dealers also secured several large lots. Three or four million pounds remain unsold in the local warehouses.

Stocks of wool in Portland have been larger than anywhere else in the West, except Chicago, and this fact has turned the attention of buyers to this city. This is what the wool men and warehouse men of Oregon have been striving for, the making of Portland a wool center where stocks could be accumulated and sold direct to the consuming trade.

As the holders of the wools just sold have realized a good advance over the prices prevailing during the early part of the season, they have demonstrated their wisdom—this time, at least—in not taking first offers, but in holding for the late market.

Biennial Report Shows Well.

In compiling his forthcoming biennial report, Superintendent of Public Instruction J. A. Churchill, finds that there are 1628 teachers in Oregon who hold life state certificates or life diplomas. The number of teachers holding life papers is 112 greater than in 1915.

The regularity with which the children attend school in Oregon is worthy of notice. Through the efforts of the country teachers to keep the attendance up to 92 per cent, the average record before a school may be considered standard, the percentage of daily attendance in the rural schools is slightly over 90 per cent, which is higher than in any other state in the United States. The percentage of attendance in the city schools is still higher, so that the average attendance for the entire state is 94.8 per cent. The number of absences from school was 2,317,410 less last year than during the previous school year.

Cranberry Prices on Higher.

Portland—Cranberry prices were advanced all along the line Tuesday. Jobbers are now quoting Eastern cranberries at \$12@12.50 a barrel and Pacific Coast stock at \$9.50.

The first car of Florida grapefruit has arrived and will be quoted at \$5.25 to \$5.75.

Sweet potatoes are very firm at \$2.50. Local stocks are small and owing to the car shortage cannot be replenished readily.

The potato market was barely steady on the street at \$1.75@2.

Canned Milks Are Again Advanced.

Portland—The purchaser of the Agen million-dollar milk-condensing plant at Mount Vernon, Wash., turns out to have been the Carnation Milk Products company, as was suspected at the time of the sale by many of the wholesale grocers. The Carnation company, in its notice to the trade Wednesday, listed Mount Vernon milk with its other products.

Carnation milk was advanced 10 cents a case to \$4.15 and Aster was raised 10 cents to \$3.90. Mount Vernon is listed 10 cents below Carnation.

W. L. DOUGLAS

"THE SHOE THAT HOLDS ITS SHAPE"

\$3.00 \$3.50 \$4.00 \$4.50 & \$5.00 FOR MEN AND WOMEN

Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers. The Best Known Shoes in the World.

W. L. Douglas name and seal price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wear protected against high prices for inferior shoes. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them.

The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles and the leaders in the Fashion Centers of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy.

Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other make. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free.
