Athena High school's recent defeat in debate has not caused a decline in enthusiasm, although this school will not be represented further in the State Debating League this year. Plans are being made for the English classes to take up debating in connection with the Literary Society. The questions for these debates will be of popular interest and some good debaters are expected to be developed, to take the floor as members of next year's teams.

The basket ball teams took an extended trip during the latter part of the week, playing at Waitsburg Friday evening and at Touchet Saturday afternoon. Although the girls lost both games, they deserve much praise for their work, as they put up a hard fight against the Waitsburg girls, but had poor luck at converting fouls, losing by a score of 33 to 7. The boys were also defeated at Waitsburg by a score of 39 to 23, but excelled the Touchet quintet in speed and team work, and winning by a score of 38 to 32. The Touchet girls won over the Athena girls by a score of 27 to 10. The Touchet games were refereed by Emery Worthington.

Tonight the local basket shooters will journey to Milton and meet Milton High in a double header. Although both Athena teams were defeated by Milton in the local gymnasium, they have been practicing hard and are out tonight to win.

Tomorrow evening the Athena boys will meet the Walla Walla second team and the Athena girls will battle with the Waitsburg girls on the local floor. Both games are expected to be fast. The Walla Walla second team defeated Athena last year but they are not expected to win this game. The girls are practicing and will try hard for a victory over the speedy Waitsburg team. They were handicapped at Waitsburg last week by being on a strange floor.

Next Friday night the Athena fans will get to see Hermiston's basket ball teams for the first time, when they meet the Athena teams in a double-header on the local floor.

ANYBODY can tell you what a tobacco costs. But only 'yo' old pipe can tell you what a tobacco is worth.

Velvet Joe

THERE can't be any better pipe tobacco than VELVET because it is the best of good Burley cured in Nature's way.

No one has been able to equal Nature's method of curing tobacco—two years' ageing in wooden hogsheads. It is slow—it is expensive, but if you will try a tin of VELVET today you will know that it is right.

Get clearly in your own mind just what qualities you want your pipe tobacco to have. Then give your old pipe a chance to prove to you that VELVET fills every one of your requirements.

Make any test you like; compare VELVET with any tobacco you choose—and the sooner the better!
