COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Where Are They?

The man who had made a huge fortune was speaking a few words to a number of students at a business class. Of course, the main theme of his address was himself.

"All my success in life, all my tremendous financial prestige," he said proudly, "I owe to one thing alone—pluck, pluck, pluck!"

He made an impressive pause here, but the effect was ruined by one student, who asked impressively:

Club Rates.

"My wife and myself are trying to get a list of club magazines. By taking three you get a discount."

TAKE OUT GREASE SPOTS

Blemishes That So Greatly Annoy the Housekeeper May Be Effectively Dealt With.

Grease spots may be removed by the application of carbon tetrachloride, according to H. F. Zoller, assistant in chemistry in the Kansas State Agricultural college.

"Removing grease spots with gasoline or benzene is both dangerous and wasteful," said Mr. Zoller. "Chloroform is effective, but is dangerous. Carbon tetrachloride is used by cleaners because of its safety, cleaning power and the absence of a disagreeable odor. The disadvantage is its expense.

"It is difficult to remove if it has been in the garment for some time. Iron inks may be removed by oxalic, acetic, citric, or dilute hydrochloric acids. In case of the coal-tar inks, the spot must be bleached.

"Iron rust can be removed by fairly strong oxalic acid solution, if allowed to stand on the goods for a short time, and often when it is exposed to the sunlight the action is a little quicker. The excess of oxalic acid must be washed out, and the goods washed with a good soap, in order to neutralize the acid. Hydrochloric acid is the best remover of iron rust, if handled by an experienced person.

"An excellent formula for the removal of fountain-pen ink, especially iron ink and iron rust, is the oxo-oxalic acid formula. It is made by saturating a 10 per cent acetic acid solution with oxalic acid, and mixing one part of the product with four parts of alcohol."

HOUSEHOLD HINTS

To induce a canary to take a bath sprinkle a few seeds upon the water. This added attraction will make the bath become a habit with the little fellow.

To keep flowers fresh, place a pinch of bicarbonate of soda in the water before putting them into a vase.

To make glassware clean and sparkling, add a little washing blue to the suds when washing.

If ink is spilled on the carpet or table cover, cover it immediately with salt as it absorbs the ink.

Powdered alum added to ordinary stove blacking adds to its brilliancy. Oxalic acid and javelle water are excellent for removing ink stains.

New tinware will never rust if greased with a little fresh lard and baked in the oven before it is used.

Wet the Hair.

One can corn, four cupfuls potatoes cut in one-quarter-inch slices, one and one-half-inch cube fat salt pork, one sliced onion, four cupfuls scalded milk, eight common crackers. Cut pork in small pieces and try out. Add onion and cook five minutes, stirring often so that onion may not burn. Strain fat into a steppan. Parboil potatoes five minutes in boiling water to cover. Drain and add potatoes to fat; then add two cupfuls boiling water; cook until potatoes are soft, add corn and milk, then heat to boiling point. Season with salt and pepper and butter and crackers, split and soaked in enough cold milk to moisten. Remove crackers, turn chowder into a tureen and put crackers on top.

Codfish Souffle.

Pare and slice enough potatoes to make one pint, add a pint of codfish, shredded. Place in a saucepan, covered with cold water and bring slowly to the boiling point. Drain off this water, cover with boiling water and cook until the potato is thoroughly cooked, then drain and mash fine. Melt one tablespoonful of butter, add an equal amount of flour and stir until smooth; add one and one-half cupfuls of milk, then fish and potato mixture and cook for five minutes. Cool, add the beaten yolks of three eggs, then the stiffly beaten whites. Turn into a buttered baking dish and bake slowly for 35 minutes. Serve immediately, garnished with sprigs of parsley.

Colonial Cake.

One-half cupful butter, one and a quarter cupfuls granulated sugar, three eggs, half cupful thin cream or rich milk, half even teaspoonful soda, one even teaspoonful cream tartar, two cupfuls of pastry flour, half cupful seeded raisins. Add whites of eggs last and bake in tube pan. When cold frost with a heavy white icing that will contrast prettily with the yellow of the cake. Citron sliced in thin strips may be used instead of raisins, or in combination with them.

Chocolate Pie.

Four tablespoonfuls cocoa, one pint of water, yolks of two eggs, two tablespoonfuls cornstarch, six tablespoonfuls sugar. Boil until thick, add one tablespoonful vanilla. Bake the crust, pour in the chocolate. Beat the whites of the eggs with one cupful of sugar, spread over top and brown. One teaspoonful of baking powder in one-half cupful granulated sugar added to the white of one egg stiffly beaten makes a fluffy meringue.

Cornmeal Muffins.

Sift together one cupful cornmeal, one cupful bread flour, one teaspoonful soda (level) in one cupful sour milk, and add it to the sifted ingredients. Then add one-quarter cupful molasses, then two eggs, two tablespoonfuls melted drippings. Beat well and bake in well-greased muffin pans about one-half hour in moderately hot oven. Makes 12.

Steamed Sweet Pudding.

One cupful chopped suet, one-half teaspoonful salt, one teaspoonful soda, two teaspoonfuls cream of tartar, one cupful molasses, one and one-half cupfuls milk, two and one-half cupfuls flour, one cupful chopped raisins, one cupful currants, a little cut up citron, one teaspoonful of lemon extract, one teaspoonful of utmeg. Steam four hours. Serve hot with hard sauce.

Ice Cream Coffee.

Put a good-sized spoon of vanilla ice cream into the bottom of a tall, large glass and fill up with chilled and iced coffee made with sugar and cream. Do not stir. Serve with long-handled spoon.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's uric waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel renal twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

AXLE GREASE IS NEGLECTED

Overight Means Wear and Rapid Deterioration of Farm Equipment—Keep Grease Handy.

Of all the sins of neglect committed against farm equipment that of failing to "grease" the farm wagon is perhaps the worst. The farm manager gets in a hurry, hitches up the team and drives off to haul a heavy load when the "spindles" of the wagon may be so "dry" as to be bright from the friction of the wheels.

Such use means heavy wear and rapid deterioration. It takes but a few very minutes to "grease" the wagon when everything needed is handy. When axle grease is used often the load draws easier and the wear is reduced considerably.

Keep your wrench, axle grease and axle rest handy so you will not forget to lubricate the wagon.

GENTLE ITALIAN BEES

Stinging Black and Hybrid Breeds Have Been Discarded.

Expert of Oklahoma Experiment Station Advises Beginners to Get Modern Fixtures to Keep the Honey Gatherers In.

(By C. F. SANBORN, Oklahoma Experiment Station.)

A great many people fear the sting of bees, but it is just as the Western country was years ago, where there were large herds of cattle. Very little butter was made because the cows were so wild and kicked so much that only one or two per family were milked. Now, however, with the improved breeds, nearly every farmer has butter and cream the year round, and often receives a nice income from the sale of these products.

The same applies to bees. The stinging black and hybrid breeds have given place to gentle Italians. I often handle my bees throughout a year without being stung.

In the first place, don't fool with black bees any more than you would attempt to milk Texas cows. Get pure Italians. In the second place, don't monkey with boxes or gums to keep them in, but get modern fixtures.

Don't try to produce comb honey in round boxes. An expert beekeeper is required to make it a success anywhere. Don't imagine that you can get rich at the business just because you take off, say, 200 or 300 pounds of honey some years.

If you can buy from a neighbor more cheaply than from a dealer, do so; but bear in mind that when you sell a cow, you don't always sell your best one, but more likely one with a peculiarity that you don't like. Likewise with bees, for which reason it is often better to buy from a dealer. He will be inclined to sell you something good because he has a reputation to sustain.

The colonies of Italian bees in a complete one-and-one-half-story hive will cost about \$20. Two empty hives (ready to put new swarms in), supplied with full sheets of foundation in the brood chamber, and starters in the upper stories or supers, will cost \$9.00.

AVOID "VENEERED" Baled Hay

Some Dishonest Men Make Practice of Putting Inferior Article on Inside of Bale.

When you buy baled hay be sure it is not "veneered." It has been found that some dishonest men are feeding the baling machine in such a way as to make the outside of the bale of better quality than the inside.

Be sure your bales are the same grade all the way through.

FOUR ESSENTIALS IN BUYING

Simplicity, Reliability, Durability and Accessibility Should Be Kept Well in Mind.

When buying a new machine keep in mind these four words. Simplicity, reliability, durability and accessibility. Then if the machine is given proper care, long life, and greater profits are insured. Use plenty of oil and grease.

Most Eminent Medical Authorities Endorse It.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained.

If backache, scalding urine, frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N. Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which he finds in thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50-cent box of "Uroline" put up by Dr. Pierce. Dr. Pierce's Favorite Prescription for weak women and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—also as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can get a sample of any of these remedies by writing Dr. Pierce.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One fine, Sugar-coated Pellet cures Bile, Dr. Pierce's Favorite, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.
