### School Notes.

The people of the United States are asked to raise \$35,000,000 to help carry on the work of the Y. M. C. A. in the Army camps. The High school boys of the U. S. are asked to give \$1,000,000 of this amount. Theo Heyden and Frank Embusk of the Pendleton High school visited Athena last Tuesday and at a meeting of the High school boys all were asked to sign pledge cards to help the Y. M. C. A. Army fund. The pledges ranged from one dollar to five, all of the Athena boys signing a card.

Last Friday evening, Nov. 9th the first of the quarterly receptions was given in the domestic science room by the Seniors. The room was attractively decorated with crepe paper in yellow and green, the class colors; red, white and blue bunting and flowers. The evening was pleasantly spent with games and music. An interesting feature of the evening was the mock trial with Martha Hutt as plaintiff and Frank Miller as defendant. At 10:30 refreshments consisting of jello, whipped cream, wafers and punch were served.

The meeting of the Literary society was held last Friday morning at eleven o'clock instead of the regular time at 2:30, school being dismissed in the afternoon on account of Mr. Read's funeral. A very interesting program has been prepared for the next meeting. The public is cordially invited to attend. The program: Song, "Good-bye Broadway; Hello France," socie-

ty; piano solo, Ellen Pambrun; stunt, Faye Zerba, Velma Schubert, Claude Baker; vocal duet, Carrie DeFreece and Connie Baker; Jokes, Belle Pambrun; vocal solo, Mrs. J. O. Russell, accompanied by Zola Keen and Mr. Russell; reading, Martha Hutt; piano solo, Areta Littlejohn; Report of Critic, Clara Hagnie.

The regular Wednesday assembly was held in the High school auditorium Wednesday afternoon. After some patriotic songs were sung Rev. D. Errett gave an interesting talk on Life's Plan and Purpose. He left three points with his hearers: Man's Estimate of himself, Life's Plan, Conduct of Life.

The little folks of Miss Sherman's room are working hard to make their Thanksgiving program a successful one. Different readings and exercises on the spirit of Thanksgiving are being prepared and the program as a whole promises to be very interesting. It will be held in Miss Sherman's room on Nov. 22, at 1:30 o'clock. Parents and friends are cordially invited to attend. The program is as follows:

Song—"That Good Old Pumpkin Pie," by ten children; Reading, "Bob White," George Pambrun; Song "Better be Good," by five girls; Reading, "What's the matter, Stomach," Holli Dennis; Play, "The Runaway Thanksgiving Dinner," by sixteen children.

Mrs. F. B. Radtke, Mrs. Marion Hansell and Mrs. Ralph Staggs visited Miss Sherman's room last week. The agriculture class has sent to the Division of Agriculture at Washing-

ton, D. C., for dry culture of nitrifying bacteria, to be used for inoculating soil for growth of legumes.

The manual training class has completed the second table for the Red Cross.

The manual training class has finished lettering the rows of seats in the auditorium. Some thin lumber has been received by the manual training division for the work in the lower grades. This makes it possible for them to make many small articles, which the boys could not do with the thicker lumber, due to the fact that it necessitated too much planing.

Geneva Staggs entered the first grade in Miss Sherman's room last Monday.

Harold Kirk of the first grade has been seriously ill the past week at the home of his aunt, Mrs. DeFreece.

The third and fourth grades had their pictures taken Monday.

Mrs. Radtke, Lillian Tompkins and Rea Rothrock visited Miss Lawson's room this week.

#### Magic of a Siphon.

When a pipe shaped like the inverted letter U, in which the arms are of equal length, is filled with water and each end of the pipe is put into a separate vessel full of water "the downward pull" or weight of the liquid in each of the two vessels will balance the other, and if the water is at the same level in the two vessels it will remain at that level in both vessels. But if the level of the water in one vessel is lower than in the other, since the two vessels are connected with a pipe full of water, the water will run down from the higher level to the lower. This constitutes what is called a siphon. A siphon itself has no more magic about it than a pencil has when it falls or than any other similar phenomenon in nature, yet some of the siphon's manifestations seem to be not only magical, but almost incredible.—St. Nicholas.

#### "Most Perfect Ode."

One hundred years ago appeared what Byron called "the most perfect ode in the language." "The Burial of Sir John Moore." It was the Navy Telegraph which gave to the world this anonymous poem of Rev. Charles Wolfe, which won for its author but a posthumous fame, for not until his death in 1823 was its real authorship made known, though various had been the guesses as to the writer. That obscure curate of Ballybeg must have felt proud indeed to find among its putative authors such poets as Campbell and Byron.—London Chronicle.

#### Light of the Firefly.

A scientist says that a temperature approaching 2,000 degrees F. would be necessary to make a light equivalent to that emitted by an ordinary firefly. The enormous waste of energy in all industrial methods of producing light is a matter of common knowledge, and the example of the firefly remains unimitated by man.

#### Fountain Pen Tests.

Fountain pens are tested by an instrument called a micrometer. If one piece of the mechanism is out even a six-hundredth part of an inch the micrometer rejects it as faulty.

#### Card of Thanks.

Through the medium of the Press, Mrs. Luke Read and little daughter, Jennie Mae; George Gross and family and Mrs. Martha Read and family, wish to express their sincere thanks for the aid and consolation given them in their recent irreparable loss, the death of Luke H. Read. May all find as good friends in need.

#### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, Etc.

### The Churches.

**At the Baptist Church.**  
 Topics for next Sunday: 11 a. m. "Jesus Only." This is the last sermon on the transfiguration scene. Hear it! 2:30 p. m. "The Scarlet Thread." These addresses will be of interest to every one. Hear them.  
 A hearty invitation is extended to the public to attend all the services. A homelike church. Old time gospel. Good Singing. Rousing services. Come and see.  
 D. E. Baker, pastor.

**The Christian Church.**  
 "What Must the Church Do to Be Saved?" and "Four Sins." will be the respective themes at the Christian church Sunday morning and evening. They raise some questions. Are you interested? They are for you. Better come and see and hear. Bible school, 10 a. m., will be led by James Potts. The Director is trying an experiment by selecting leaders to conduct the school from Sunday to Sunday. It is worth trying. The Christian church choir will be on hand to render special music and assist in the singing. If you like music they will be glad to see you. You are cordially invited.  
 D. Errett, Minister.
