The Little Tots' Favorite

H-O

The children prefer "H. O" because it is the oatmeal with the tempting flavor. It makes sturdy little bodies and keen quick-thinking brains---as it contains the properties that make energy and tissue in just the right proportions. "H. O" is more nourishing than meat or eggs, and can be prepared in only 20 minutes. Do not accept ordinary oatmeal or rolled oats, when you can obtain "H. O." At all grocers.

A woman who was traveling in Canada, collecting data for her book, stayed with a farmer's wife. When the farmer came in from the fields he stopped some time to rub his gum boots on the door mat.

"Where is your husband?" asked the visitor. "I thought I heard him at the door."

"He's cleanin' his 'gums' on the mat, ma'am," said the farmer's wife.

When the book was sent to the publisher this passage caught his attention:

THE NEW METHOD

(By L. W. Bower, M. D.)

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys; hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack ambition to do things.

The latest and most effective means of overcoming this trouble, is to eat sparingly of meat, drink plenty of water between meals and take a single An-u-ric tablet before each meat for a while.

Simply ask your favorite druggist for Anuric, double strength. If you have lumbago, rheumatism, gout, dropsy, begin immediately with this newest discovery of Dr. Pierce, who is Chief Medical Director of Invalids' Hotel and Surgical Institute in Buffalo, N. Y. Send 10 cents for trial pkg.

PISO'S

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ? ! ? ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—Mrs. AUGUSTUS BAUGHMAN, Box 80, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

SOLDIERS ARE NOT MADE IN SCHOOLS

Training in All Countries Found to Be Only Preliminary in Character.

FOUNDED UPON PATRIOTISM

Uncle Sam's Investigators Find That It Is Not Regarded as a Substitute for Physical Training, but as Solely Preparatory.

Although each European nation possesses its own system of military training of school youths, adopted to the specific conditions and purposes of the movement in each particular instance, a certain similarity of origin and organization of these movements may be observed, according to experts of Uncle Sam's bureau of education, who have recently looked very carefully into this matter as being of special interest to educators of the United States at this time.

In most cases it was found that the source of the movement could be traced to the department of education and patriotic organizations of citizens. Where military instruction is not an obligatory part of the public school curricula, it is promoted in the form of student organizations under the leadership of patriotic clubs and aided by government grants and by the lease of government property. In those countries where the governments are not directly active in this work it often arises spontaneously, it was found, under the guise of semi-military clubs.

Training Only Preliminary.

As a result of the study made by the experts it was found that military instruction, of the exact nature and to the same extent as that given to soldiers is not found in the schools of any country of Europe except the special military schools. Such training is confined everywhere to the period of active service, and no attempt has ever been made to impose upon the school the task of producing fully trained soldiers. In many countries having universal military service the public schools provide for training boys in such elements of military science as may be conveniently combined with their physical training and at the same time prepare them for the active service awaiting every young man.

The attitude of foreign educators, it was found, is well defined on this matter. They do not, as a rule, regard the military instruction as a successful substitute for the well established systems of physical training and character building. They generally view it as an anomaly in the school system, justified only by the exigencies of national defense. The enthusiastic support they lend to this work comes more from patriotic rather than from pedagogic motives, according to those experts who have just completed this study. Occasionally, however, the beneficial effects of military training upon the moral and physical sides of boys' education are emphasized. Very marked results of this nature have been observed in Australia.

Not Physical Training.

In France, where military training is a component part of the prescribed program of public primary schools, it is not approved by leading educators as a method of physical training, but it is recognized and commended as preparatory training for military service, intended to raise the efficiency of the French army. The programs of public schools in France include gymnastics and moral instruction, the former as a means of building up the physique of the boys and the latter of developing their character. It is generally recognized that these two objects of education cannot be perfectly attained by any system of military training.

It is a significant feature of all militaristic movements affecting the schools that they appear wherever and whenever special need is felt for raising the standard of the military preparedness of the nation. In France the movement was started after the disastrous war of 1870 and revived after the reduction of the term of active service in 1905. In Austria intensive military work in the schools was launched after a similar reduction of the term of service. In Switzerland and Australia it accompanied the introduction of an abbreviated system of universal military service. During the period from 1908 to 1914, when apprehension of the oncoming European conflict was keen among the nations of the continent, the training of school youths in warlike exercises was greatly extended.

Intolerance.

The truth is, the notion that an intellectual recognition of certain dogmas is the essential condition of salvation lies at the bottom of all intolerance in matters of religion. Under this impression, men are too apt to forget that the great end of Christianity is love, and that charity is its crowning virtue; they overlook the beautiful significance of the parable of the heretic Samaritan and the orthodox Pharisee; and thus, by suffering their speculative opinions of the next world to make them uncharitable and cruel in this, they are really the worse for them, even admitting them to be true.—Whittier.

Undeserved Derision.

No more undeserved derisive nickname was ever visited upon an organization than that of the Fourteenth Hussars, commanded by Colonel Hamilton. Several companies of it were once compeled to retreat before an overwhelming force and the whole regiment was branded as "Hamilton's Runaways." Here was a regiment which was one of the bravest ever in the service of Great Britain; it had left its dead on the battlefields in all parts of the world; it had a brilliant record for valor and yet was it known even to its comrades in arms by an insulting epithet.

THE FOUR-WHEEL DRIVE DUPLEX.

Here's the truck that was built to meet the conditions under which YOU must do your hauling. Here's the truck you don't have to lay up in Winter—the truck that goes through plowed fields and up un-roaded hills like stock take to the range.

READ THIS!

We have been very successful with the Duplex under the condition that the truck must work in this territory, due to the fact that it is exclusively a FARMING district and most of the work is done in the FIELDS, in WHEAT STUBBLE, or PLOWED GROUND.

M. A. Woods put his WHEAT in the warehouse for 2 3-4 cents a sack. Last year it cost him 7 cents a sack with teams. He hauled 11,000 sacks in 23 days, ALL OUT OF THE FIELD; never got stuck and never had to unload during the entire season. His farm is an average hilly one.—Excerpt from a letter from a Duplex owner.

On another occasion the DUPLEX negotiated a 45 per cent grade with 50 sacks of wheat where a TWO-WHEEL DRIVE TRUCK COULD NOT GET UP EMPTY. 4500 sacks were hauled over this road. The hill is three miles long.

Let's hear from you NOW. Give us the chance to show you how we can save you big money.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
