23 Years Ago.
[From the Press of Mar. 15 1895]

Frozen ground has put a stop to seeding.

The peach trees are in bloom at Dayton and it is feared that the cold wave will destroy the prospects of a peach crop.

The spring tide of emigrants has begun to flow through Athens. Several "prairie schooners" passed through town this week.

F. R. Mitchell and Joseph Ell rode on their bicycles from Pendleton to Walla Walla Sunday morning in 4 hours and 45 minutes, the best record made yet for that trip.

The agency on the reservation is honored with a guard of U. S. regulars, 40 strong. It all came about from an innocent Indian dance and the timidity of an agent who never saw a siwash until he was imported from Georgia to Oregon.

Mr. C. C. Cunningham, whose efforts to propagate Denny pheasants in the Walla Walla valley have been extensively noted and favorably commented upon by the press of the state, has secured all but three pairs of his pretty birds, but expects to raise several large broods this summer. The eggs will be set under ordinary hens and as fast as the young are hatched and grow to the proper size they will be set free.

If one is to believe reports, the Pendleton school election was carried on Monday midst great excitement. It was a factional fight and much challenging of votes was done on both sides. Two physicians were put against each other—C. J. Smith and H. S. Garfield. The Tribune says: "It was a disgraceful proceeding on both sides, and reflects no credit upon the town."

Snow falling Tuesday for a couple of hours caused old settlers to dig up recollections of the past. A. W. Nye said it was in the nature of an anniversary of a storm which occurred twenty-five years ago. On that occasion it began snowing on March 11 and for three days the snow fell without a break. This whole country was covered sixteen inches on a level and where Athens now stands, then wild prairie, there was from eighteen inch-

es to two feet. The winter had been exactly such as experienced this season and March, the first spring month, was just like the present March.

The sporting editor of the Weston Leader, Clark Wood, was a Press office caller Tuesday evening. While Mr. Wood is endowed with an air of timidity he is a man to be feared; but after his eyes had become accustomed to our uncertain light over here, and he had extended his hand with an emphatic stroke of cordiality, at the same time striking our horse editor for a chew of the luscious weed, the Press man was more at ease.

Proud Record of Marines.
As the first battle of the American navy was fought and won by the marines, so, down through the years of the Revolutionary war, we find the marines at the forefront when difficult work was to be done. In fact there were but few expeditions in which they did not figure in more or less strength. Thus Lieutenant Wallingford of the marines died at the head of his men under John Paul Jones in the battle between the Ranger and the Drake; and in the classic fight between the Bon Homme Richard under Paul Jones and the Serapis, the marines lost 49 out of 137 men.
