

Now is the Time for Every Voter
to come to the aid of Umatilla County

THE QUESTION?

Muddy roads each winter and dusty roads each summer, or good roads the year 'round?

Which do you choose?

For the development of Umatilla County there can be but one answer,

GOOD ROADS

Let's make it possible to ship our products to market.
Let's connect up with the national highways and make it possible for tourists to come to Umatilla county.

Lets make possible business and social traffic between communities.

Let's get that \$576,000 the state of Oregon wants to give us—if we will match it—for the development of Umatilla county's roads.

EVERY VOTER

should go to the Polls on March 4th and mark his or her ballot

300 X YES

If you cant wield a shovel or pick in the actual construction, you can do your bit in a very forceful way by voting for and helping to get all your neighbors out to vote for Umatilla County's good roads bonding measure. Most of the money will be spent in this county and in the end we will have the money as well as the roads.
