PHONE 331—It will pay you to watch our Windows

It is a good and safe rule to adjourn in many places as if you meant to spend your life there, never omitting an opportunity of doing a kindness or speaking a true word or making a friend.—Ruskin.

### DESIRABLE DESSERTS.

During the winter, steamed puddings and those rich in fat are more suitable and appetizing than in warm weather, so now is the time to make baked Indian puddings and suet puddings as well as others, rich with dried fruit.

**Steamed Graham Pudding.**—Cream one-fourth cupful of milk. Sift together one and one-half cupfuls of sifted graham flour, three-fourths of a teaspoonful of salt, two teaspoonfuls of baking powder, one teaspoonful of mixed spices and a cupful of raisins. Add to the first mixture and turn into a well-greased mold, steam two and one-half hours. Serve with

**Cream Pudding Sauce.**—Cream one-third of a cupful of butter substitute with two-thirds of a cupful of sugar; mix two teaspoonfuls of flour with one-half teaspoonful of salt, add four tablespoonfuls of cold water and when well mixed add one cupful of boiling water, stir and cook until smooth and thick. Just before serving add the butter and sugar and heat in with a wire whisk. Flavor with orange

and serve.

**Savory Pudding.**—When the hens are laying well will be a good time to serve this delicious pudding to the family. Scald one cupful of milk, add one-fourth of a cupful of butter substitute, one-fourth of a teaspoonful of salt; when the fat is melted add one-half cupful of flour and cook until the mixture becomes a smooth ball; add two tablespoonfuls of sugar, one cream cheese, grated rind of a lemon; press the cheese through a ricer and add to it the rind, then stir in the yolks of five eggs beaten thick and fold in the stiffly beaten whites. Put into a buttered baking dish and set in hot water; bake in a hot oven 40 minutes or until firm in the center. Serve with

**Currant Jelly Sauce.**—Simmer one glass of jelly, one cupful of boiling water and one-fourth of a cupful of sugar. When smooth add two teaspoonfuls of cornstarch mixed with three tablespoonfuls of cold water and one-fourth of a teaspoonful of salt. Stir until boiling, then cook for ten minutes.

*Nellie Maxwell*

President Butler of Columbia university remarks that war is a great educator. But men who learn only from war acquire their education slowly and at abnormal cost.

Entertainers are wanted for service in Europe. When the powers start to relieve the ennui in Tibet with American vaudeville acts a good many of us would like to make out the list.

### GET YOUR DISCHARGE

Discharged soldiers who fought in the big war are going to be issued regular honest-to-goodness "honorable discharge" medals. The emblem will be a bronze lapel button, similar to that of the G. A. R. A design has been selected from fifteen models submitted by artists and sculptors. Your "honorable discharge" will be the "V" sign hanging in the window showing you are a subscriber to the Victory Loan.

No modern war is considered complete without a meat investigation.

### Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

### Notice to Creditors.

In the County Court for Umatilla County, Oregon.

In the Matter of the Estate of John S. Harris, Deceased.

Notice is hereby given that the undersigned has been appointed executor of the last will and testament of John S. Harris, deceased, by the above entitled Court. All persons having claims against the above entitled estate should present them to me at Athena, Oregon, or to my attorney, Homer I. Watts, at his office in Athena, Oregon, within six months from the first publication of this notice; said claims to be verified as by law required.

Dated at Athena, Oregon, this 18th day of April, 1919.

Henry A. Barrett, Executor.

### Notice to Creditors.

In the County Court of the State of Oregon for Umatilla County.

In the Matter of the Estate of D. G. McKenzie, Deceased.

Notice is hereby given to all persons whom it may concern that Alexander McKenzie has been appointed executor of the last will and testament of Daniel G. McKenzie, deceased, and has qualified as such. All persons having claims against his estate are required to present them with proper vouchers to the said executor at his home in Adams, Oregon, or at the law office of Will M. Peterson in the Smith-Crawford Building at Pendleton, Oregon, attorney for the executor, within six months of the date of the first publication of this notice, which is Friday, the 18th day of April, 1919.

Alexander McKenzie, Executor.  
Will M. Peterson,  
Attorney for Executor.

### Notice of Final Account.

In the County Court for Umatilla County, Oregon.

In the Matter of the Estate of Catherine A. Zerba, Deceased.

Notice is hereby given that the undersigned has filed his final account and report in the above entitled matter and that the above entitled Court has fixed Saturday, May 10, at the hour of 10 o'clock a. m., of said day as the time, and the County Court room in the Court house at Pendleton, Oregon, as the place for hearing said account and report. Objections to said final account and report should be filed on or before said date.

Ernest A. Zerba,  
Administrator.

## SOY BEANS PROFITABLE FEEDING CROP AND ALSO INCREASE SOIL FERTILITY

Soy Beans Are Well Adapted to Cultivation in Rows.

(Prepared by the United States Department of Agriculture.)

The soy bean can be utilized to advantage as pasture for all kinds of stock, the most profitable method, perhaps, being to pasture with hogs, supplementing the corn ration. This is especially desirable when the harvesting is interfered with by bad weather, lack of labor, or other causes, and when the crop is grown for soil improvement. In this way the crop is profitable not only from the standpoint of feeding value, but also in the increase of soil fertility due to the manure and refuse vines. Hogs greatly relish the bean plant, especially the ripening pods and seed, and a considerable part of the growth of young hogs may be made with soy-bean pasture. Animals ready for fattening may be fitted for market much more rapidly if soy beans are used to supplement the corn ration.

### Test in Alabama.

In pasturage experiments conducted at the Alabama agricultural experiment station soy beans, pennus, chufas, and sorghum were compared as pasturage for hogs. It was found that when corn alone was fed, 100 pounds of pork cost \$7.63; when fed a two-thirds ration of corn and pastured on chufas in addition, 100 pounds of pork cost \$8.89; on sorghum, \$7.79; on peanuts, \$8.20; and on soy beans, \$2.74. The average gain of the pigs each day on the soy-bean pasture was 1.02 pounds, on the peanut pasture 1.01 pounds, on the chufa pasture 0.72 pound, and on the sorghum pasture 0.37 pound. The same station reports three years' work in feeding 105 hogs to determine the value of soy-bean pasture as compared with other feeds, the most profitable quantity of corn as a supplement, and the effect of the soy-bean forage on the quality of the pork. It was found that when corn was used alone the average daily gain for each hog was 0.375 pound, at a cost of 7.61 cents. When soy-bean pasture was grazed with a one-fourth, one-half, and three-fourths ration of corn the average daily gains were raised to 1.102, 1.006, and 1.329 pounds, respectively, and the cost of pork reduced to 2.50, 3.36, and 3.17 cents, respectively. One acre of soy-bean pasture afforded grazing for 10 hogs for 32 days with a one-fourth ration of corn, 48 days with a one-half ration, and 62 days with a three-fourths ration of corn. The

total value of pork produced on each acre of soy-bean pasture varied from \$25.84 to \$39.13.

### Kentucky Experiment.

The Kentucky agricultural experiment station, in a series of experiments with soy-bean pasture for hogs, found that it was not profitable to hog down soy beans (grain) unless a supplementary feed is given. The results showed, however, that it was highly profitable to hog down soy beans if a supplementary feed, such as corn, is given. The lot of hogs receiving 2 per cent of its weight in corned daily produced 825 pounds of pork to the acre, at a cost of \$4.54 per hundred pounds of gain. An acre of soy beans hogged off with a supplementary feed of corn produced feed for 30 hogs for 21 days and for 20 hogs for an additional 21 days. An acre of soy beans with no corn fed the hogs produced feed for 10 hogs for 21 days and for 15 hogs for an additional 14 days.

Various methods of seeding are used when the soy bean is to be utilized for pasture purposes. In the Southern states, especially North Carolina, where a considerable acreage is used for hog pasture, from one and a half to two bushels of seed are sown broadcast at the last working of the corn. The hogs are turned in when the seed is fully mature. Corn and soy beans are sometimes grown together and pastured down, as is often done with corn, or the two crops may be planted in alternate rows. For young hogs the beans are often planted alone. Soy-bean pasture may be supplied for a period of several weeks by planting early, medium, and late varieties. Early maturing varieties may be sown after small grains and make sufficient growth to supply considerable feed in the fall. Soy beans may be pastured at any time from the stage when the pods are one-half filled until the beans are mature.

When hogs have been pastured on soy beans alone there is a tendency for the lard to become soft. This may be overcome very materially by feeding the hogs on a grain ration after taking them from the pasture. The feeding of corn alone for four or five weeks has produced firm lard, while corn and cottonseed meal used in the proportion of three parts of corn to one part of cottonseed meal has given the best results.

## The Man who Works for His Money

gives full value for it and has the right to expect the same when he pays out the reward of his toil. He will get it every time at this Grocery Store, where big values are proverbial. We want the trade of those who must be careful what they spend. They more fully appreciate the saying our service affords. Come in, give us a trial and be convinced.

### SPOILED BIG WEDDING FEAST

How Ex-German Emperor Upset Dinner on Which Herr Ballin Had Spent Much Money.

Herr Ballin was noted for the extravagant dinners which he gave on great occasions, says the Edinburgh Scotsman. Probably the most magnificent of all was that which he arranged to grace the wedding of the kaiser's daughter to the duke of Brunswick. The floral decorations alone cost \$10,000, the dinner worked out at about \$85 a plate, and the wines at about \$30. But the dinner, from Herr Ballin's point of view, was a failure, for the kaiser and kaiserin, who were to have been present, sent word in the afternoon that they could not come; and it was in their honor, of course, that Herr Ballin had spent his thousands on the banquet. One of his servants has said that when Herr Ballin received the message that the emperor could not come, he flew into a tremendous rage. He sent for his butler, and ere the man had reached Herr Ballin's study, his master shouted out to him: "The emperor cannot come to dinner tonight—put the whole show off!" and then slammed the door. The butler did not know exactly what to do. To put off so important guests as were to be present was, of course, an impossibility; but no one in the household dared to approach the master of it to suggest this. However, at about 5 o'clock Herr Ballin had sufficiently recovered his temper to come downstairs and give some necessary directions about the banquet.

Some person's idea of writing is to use big words.

Contingent upon their ability to make financial arrangements and upon the decision of the Portland district freight traffic committee of the United States railroad administration to grant an attractive rate on lumber for outward shipment, the Pacific & Eastern railway will resume operations. This road, running 33 miles out of Medford to Butte Falls, went into receivership early this year because of its inability to earn enough to pay operating charges, and its renewal of train service will be a source of joy to lumber producers of southern Oregon now without means of transporting their product to outside markets.

### TIBET OPEN TO CHRISTIANS

Officials Have Invited Missionaries to Enter Freely into the "Forbidden Land."

Those disciples of Christ who interest themselves in foreign missions are aroused over an invitation coming to American disciples from Tibet, according to the Boston Evening Transcript. This land, occupying the "roof of the world," has heretofore been practically closed to all foreigners. That it has been so was due, so Tibet officials tell American disciples, to the influence of China. Now Tibet has thrown off Chinese control and one of its first acts is to appeal for Christian missionaries. The disciples have a mission station at Batang, one of the farthest west cities of China, nearly 3,000 miles up the Yangtze river.

A venturesome American doctor, sent out by the disciples, journeyed 18 days farther west, getting into Tibet and into a city wherein disease in its worst form, unattended and not understood, ravaged the people. The doctor set up an impromptu clinic and dispensary. The relief was so great that one of the highest civic officials in all Tibet begged him to stay, or if he could not do so to return, build a hospital and official Tibet would help him.

Now the disciples argue that here is a call they are not at liberty to ignore. Their missionary society has acted to this effect. An appeal has been made for four families, two of them physician families, to go. It is said there are no hospitals, no churches, no schools, no Christian agencies of any kind in that country of 4,000,000 people. American manufactured goods are beginning to reach Tibet and Scotch whisky has been there for a decade or two.

### More Uses for Electricity.

As might be expected, the use of wire resistances in fabrics to give electric heating has suggested a great variety of applications. Besides the electric pad as a substitute for the hot water bottle these devices include electrically heated bath robes, sweating robes, heating bags, rugs, foot warmers, ear warmers, motorman's gloves and even an electric blanket for the old and rheumatic horse. Electric current may be taken from lighting circuits or special batteries.
