THE KITCHEN CABINET
A little thing, a sunny smile, A loving word at noon, And all day long the sun shone bright, The cares of life were made more light, And the sweetest hopes were born.

MORE GOOD SALADS.

Fruit and vegetables are absolutely essential to good health and should not be considered an extravagance. This does not mean buying them out of season, however, for there are always fruits to be had in the markets that are reasonable in price and are nutritious.

Mock Lobster Salad.—Mix two cups of cold flaked cooked haddock with two cups of celery, add two tablespoons of finely chopped pimentos, season with salt, paprika and add two tablespoons of lemon juice and let stand half an hour. Add a cupful of mayonnaise and serve at once. Garnish with lemon slices decorated with paprika.

New York Salad.—Arrange four slices of pineapple on lettuce leaves. Cut one-half cupful of celery into long slender strips and mix with one-half cupful of nut meats. Place in the center of the pineapple and garnish with four sections freed from its membrane.

into symmetrically on the pineapple. The dressing is passed separately.

Marshmallow Salad.—Cut two oranges in halves, remove the pulp carefully leaving the cups. Cut a slice of pineapple and eight marshmallows in bits, chop one-fourth cupful of nuts, skin and seed one-half cupful of white grapes, mix with the orange pulp and a little dressing. Fill the cups, cover with dressing and cross with two strips of canned pimento. Place a half grape on the center of the salad and bits of chopped parsley between the strips of pimento.

Nut Fruit Salad.—Take one cupful of cooked peas, one cupful of celery, cut in cubes, one cupful of walnut meats and one cupful of shredded orange. Serve with mayonnaise dressing.

Chicken Salad.—Cut chicken into bits, using two cupfuls, add one cupful of celery, one cupful of diced cucumber and two tablespoons of capers. Season with salt and pepper and mix with a boiled or mayonnaise dressing to which an equal quantity of whipped cream has been added. Serve on lettuce.

Nellie Maxwell

Those famous "lights of London town" are beginning to glimmer again, albeit faintly. The dread air raids has passed, but coal is scarce.

A large number of so-called bolsheviks are no doubt recruits from the large number of persons who do not investigate and are willing to join anything once.

ON ITS WAY TO SCRAP HEAP

Dialect Known as "Pennsylvania Dutch" Bids Fair Soon to Be a Thing of the Past.

"Pennsylvania Dutch," that curious combination of German, English and Yankee, which since Revolutionary times has developed in parts of Pennsylvania and Ohio, is going into the discard. For more than a century it has been growing just as languages always grow, with use. It has corrupted words, made words, created forms, one might say a grammar of its own. It has not, it is true, produced a literature. But it has been the speech of a considerable number of persons in their homes. It long since ceased to be recognizable as German and English it never was. In it, students tell us, are mingled German, English, Welsh, French and even Gaelic words.

"Pennsylvania Dutch" has been the dialect of those German disciples of Peter Menno who came to America, some of them in pre-Revolution days, seeking religious liberty and political freedom. Some of these went into Ohio during Revolution days, others into Canada, some as late as Civil war

time, and they were largely an agricultural people.

Now the word has gone forth among the Mennonites that it is no longer patriotic to speak "Pennsylvania Dutch," and as fast and as thoroughly as possible these unbelievers in war are discarding the speech of childhood and home associations. The task is not an impossible one to them, since all or nearly all of them have had some experience in the common schools. From among them 8,000 young men have gone overseas to fight the oppressors of their ancestors and the barbarians who threaten their own liberties.

The banning of "Pennsylvania Dutch" is an impressive object lesson to all Americans. Let's all resolve to speak English.—Detroit Free Press.

Russia is printing from 500,000 to 1,000,000 rubles a day on the bolshevik presses. If the printer makes a mistake and prints "kopecks" for rubles, it doesn't matter very much.

Airships may eventually make the journey across the ocean so quickly that a man in Europe may pass the week end in America and be back on Monday for work in London or Paris.

METHODISTS GET READY FOR GREAT CENTENARY DRIVE

Campaign For \$105,000,000 To Rebuild World On.

DOING, NOT TALKING, IS AIM

Forty Million Dollars to Be Spent on Home Programme, \$40,000,000 on Foreign Field and \$25,000,000 For War Reconstruction.

The church in America intends to take its place in the forefront. From now on, its motto will be "doing," not talking.

Hence, in celebration of the 100th anniversary of the foundation of Christian missions, the Methodist Episcopal church and the Methodist Episcopal church, south, have joined in a nationwide Methodist centenary campaign.

Every phase of Methodist church life has been enlisted. The aim of the colossal campaign is the rebuilding of the world.

\$140,000,000 to Be Raised. In brief, the Methodist Episcopal churches of both branches will ask for a total of \$140,000,000 for their joint aims. Especially detailed are those aims so far as they concern the Methodist Episcopal church, which in the seven-day period of May 18-25 will ask for \$105,000,000.

Here is how that money will be spent:

Forty million dollars on the greatest foreign mission programme ever conceived, lasting five years; embracing the building and operating of schools, hospitals, dispensaries, colleges and everything that will benefit mankind. Christianity will be preached too, but the aim of this new and bigger Methodism is to live Christianity and the brotherhood of man.

\$40,000,000 at Home.

Forty million dollars will go for a carefully detailed programme of home missions. But the programme again

BRILLIANT PREACHER IS CENTENARY LEADER

DR. A. L. HOWARTH

Dr. A. L. Howarth is the associate executive secretary of the \$105,000,000 Methodist Centenary movement for rebuilding the world, with headquarters at Portland, Or. Dr. Howarth is one of the most brilliant preachers in the northwest and during the Centenary campaign his every Sunday has been occupied with demands for addresses. As executive secretary, he supervises the business details of the vast Centenary plans in the Portland area, which consists of the state of Washington, a large part of the state of Oregon and northern Idaho.

calls for living Christianity and doing Christian things, rather than preaching Methodism. Great community churches in the big cities where there will be healthy amusements and where the church buildings will be open seven days a week; community churches in the country—\$11,000,000 alone will be spent on helping to make the country church a real factor, building cross roads churches, making allowances so that the rural church can get the best of pastors and pay them a salary that will interest them; educational work in the cities; help pastors to get a living wage.

Twenty-five million dollars will be expended in the next five years at the rate of \$5,000,000 on direct war reconstruction work equally divided between Europe and this country. Close on \$3,000,000 has already been spent by the sending to Europe of the first Methodist mission ship. Perhaps there were Bibles on board, but there were a great many more plows and tractors. That great ship was loaded to the gunwales with everything that could help a people to rebuild.

United Church is Aim. Methodism is preaching a united church—a common church. It is urging that churches unite, the smaller churches closing that the stronger ones may be stronger yet.

"Let us have a strong, dominant Christianity," say the Methodist leaders. "Never mind about the especial brand."

"With Christianity and the golden rule filling the world, peace, democracy and Christianity will be unitedly safe for ever."

DOLLAR WEEK HERE

Watch Out!

For offers of agents to sell you groceries at prices less than wholesale. Look out for the claim that goods are sold at a loss. No one is in business to lose money. Better by far, spend your money with the home merchant, where honest values and quality are given.

Death Guided the Plane.

A remarkable instance occurred somewhere in France, in which a faithful flyer brought his machine safely home, although he himself had died from the effects of a wound received in an encounter with an enemy machine in the air. Knowing that he was about to die, he propped himself up in such a way that the rudder bar and control lever were kept in position, carefully calculated the distance back to camp and arranged the machine so that it would volplane safely to the ground after his soul had departed. His plans were successful, and when his horrified companions hastened to him they found in his pocket a notebook in which was the information he had been sent to obtain—"at all costs."

Planes Smaller Than Birds.

The smallest British airplanes now being manufactured are actually of less span than the largest birds. The great albatross has been known to measure nearly eighteen feet from wing tip to wing tip. A certain type of "midget" airplane recently exhibited in London is only fifteen feet in width.

For the war profilers it looks to be all over since they put it over, over there.
