Watts and daughter, Vernita, have returned from Honolulu to Oakland, where Miss Watts will resume her studies at Mills College. Mrs. Watts will return home soon. Miss Beula Banister entertained a large number of her friends at a party held last evening at the home of her parents, west of Athena. Dancing and social intercourse made the evening especially enjoyable to those present, and refreshments were served. Mrs. M. M. Johns came up from Portland last week and spent Christmas with her son, Flint Johns and

family on the farm west of town. She returned Monday morning to Portland, where she is taking medical treatment. Mrs. Johns rented her residence on Jefferson street to Mr. and Mrs. Elmer Stockstill. The Willamette glee club is scheduled to make its annual appearance at the high school auditorium, in the near future. The jolly lads comprising this club have a warm place in the hearts of Athena amusement seekers, which is a binding guarantee that a big audience will again welcome the singers. J. E. Jones, rural mail-carrier, is appreciative for road work done by the farmers along his route. Observing Good Road Week, Dean Dudley, Mike Hunt, Ernest Haney, George Johnston, Jesse Smith, Roy Cannon and Charles Stockstill, have made transportation considerably easier for Uncle Samuel's local servant.

MAN'S JUDGMENT OF WOMEN

Real Truth, Though Long Known, is Here Published Absolutely for the First Time.

A man notices, first a woman's face, second her skirt, third her shoes and fourth her hands. He rarely sees her hat, but probably feels it. He gets the effect of it unconsciously. Mentally, a man is first conscious of a woman's eyes, second her voice. Beyond these two his curiosity doesn't go. But if her voice shows too much of the clever or the intellectual he begins to back off, and then probes her eyes to see whether they belie her voice or not. A woman's eyes often do this same thing. Her voice may say, "I am very highbrow," while her eyes are saying, "Don't you believe it!" This is the way, all over the world, men are judging women and have always judged them. But it is a great secret. Nobody knows it but a very few people who have solemnly agreed never to divulge it. It is so universal among all men that they are quite unconscious about it. It is here published for the first time, thus violating tradition and custom, which declare that what everybody knows should never be revealed. —Thomas L. Masson in the New York Sun.

TREES LINE MEMORIAL ROAD

People of Pennsylvania County Have Worthily Paid Tribute to Fallen Soldier Heroes. York county, Pennsylvania, has the honor of possessing the largest stretch of road lined with memorial trees in memory of the fallen heroes in the great war in the country. The trees, numbering several thousand, have been in course of planting for two years under the auspices of the York Woman's club. They extend in a continuous line on both sides of the Lincoln highway entirely across the county. Two tablets, at either end of the 25-mile thoroughfare, were recently unveiled and dedicated. At the exercises a letter from Mrs. Warren G. Harding was received by the Woman's club, in which she said: "In the planting of 25 miles of that famous highway, you have erected a memorial that the entire country can enjoy in the years to come. May long life attend the trees you have placed in the care of the Lincoln Highway Memorial and Tribute Tree association." Every tree is worked with the name of a Pennsylvania soldier who gave his life in the war, and the trees have been registered with the American Forestry association. Some Water Power. Thirty-one per cent of all water power in this country is on sites within the national forests, while all that on sites outside the national forests is dependent upon water arising in them, says the American Forestry association, which is fighting to keep the control of these forests out of the hands of the interior department. The western mountains contain 72 per cent of our total potential water power and of this, 42 per cent is in the western forests. This power is being rapidly developed. The United States forest service has in force 174 power transmission lines and 197 power projects, with minimum discharge capacity of 800,000 horse power. The Daring Dinner Gown. "The late Mrs. George Gould," said a New York woman, "dressed beautifully, but she never dressed daringly. She didn't approve of daring dress. "Mrs. Gould entertained an Englishwoman at her Lakewood place last year. This Englishwoman was very lovely. Very ultra, too. "I was invited to dinner to meet her. She is an athlete, you know—a swimmer, a barefoot dancer, a polo player and all that sort of thing. As she passed down the long salon of Georgian court in a marvelous dinner gown I said to Mrs. Gould: "Oh, her figure is too divine." "I think," said Mrs. Gould, "it's too divine!"
