THE PAMPHLET, "THROUGH THE FERTILE NORTHWEST"

A new, well illustrated, colored pamphlet descriptive of the resources and farming opportunities of the Pacific Northwest, has just been issued by the Northern Pacific Railway, to be used in answering general inquiries from prospective homeseekers and investors.

Under the title "Through the Fertile Northwest—Over the Scenic Highway," it summarizes the varied agricultural, manufacturing and mining resources of the Northwest, the rapid growth of this wonderful country and its satisfying living conditions.

Following is a brief but detailed description of the soils, climate, agricultural opportunities, educational and social advantages, etc., in each of the Northwest states—Minnesota, North Dakota, Montana, Idaho, Washington and Oregon.

This folder will have an immediate circulation in the central east of more than 25,000 copies, according to H. W. Byerly, General Immigration Agent for the railroad, under whose direction the pamphlet is issued. "Copies will be mailed to the many inquirers who are not yet interested in any particular state but who are seeking information that will help them in making a choice," Mr. Byerly said.

NEW WOOLWORTH STORE
Between fifteen and twenty thousand dollars will be expended by the F. W. Woolworth stores in remodeling the Bond building at Pendleton which the Woolworths have leased for 15 years for the establishment of a five, ten and fifteen cent store.

J. P. Walker, 72, for 33 years clerk of the Woodmen of the World Camp, at Pendleton died Sunday evening. Mr. Walker was a pioneer of Pendleton and is survived by four daughters and two nieces. Funeral services were held Tuesday.

FOUND A RATTLER

The Milton correspondent of the Walla Walla Union says: George Cowl had a narrow escape from being bitten by a rattle snake at the Nimrod cabin Sunday where he and John Small went to fish in the Walla Walla river. George had gone into the cabin to deposit the "grub" on the table while John fished, and dusting off the table he heard a buzzing noise which he thought to be a locust, and he looked about the room that he might locate the insect but could not, the buzzing continuing, however. He was about to go out of the room when he happened to look in the direction of a chair standing by the table and in its seat he beheld a young rattler curled in a threatening attitude. Mr. Cowl had not noticed the serpent which he soon dispatched with his revolver.

STANDARD PICTURES

"Two Shall Be Born" and "The Golden Princess" will top the programs at the Standard this week. Jane Novak and Kenneth Harlan have the lead in "Two Shall Be Born." Betty Bronson and Neil Hamilton are featured in the flashing melo-romance of the California gold rush, which gives the background in the production of the "Golden Princess."

22 Years Ago

August 5, 1904

The equipment of the First National Bank of Athena, including furniture, money and chattels, was moved last evening into the splendid new bank building at the corner of Main and Fourth streets.

Mrs. McBride and her Sunday school class realized about \$30 profit from their chicken dinner Tuesday, which was well patronized by families and friends.

J. C. Stamper, Fred Page and Uncle John Callender have returned from their outing trip. They spent most of their vacation at Hidayay springs and had a way-up good time.

Miss Reta Sanders has been engaged to take charge of the 7th and 8th grades in the Lostine, Wallowa county school. Miss Saunders is at present with her sister, Mrs. Hugh Bell, on the Cold Spring farm.

A little three-year old daughter of Clarence Ross died at his home on the mountain and was buried Tuesday. The case being a peculiar one, a post mortem examination was held which revealed a tumor in the child's stomach weighing 15 pounds.

Rev. and Mrs. W. E. Armfield took dinner at the Dickenson home near town yesterday. Next Sunday Mr. Armfield will preach his farewell sermon to his congregation before the general conference of this district of the M. E. church, which convenes in The Dalles the last of this month.

Frank Rogers left yesterday for the Palouse country, where he will be stationed for the future by his wheat buying firm, Kerr-Gifford company. Mrs. Rogers and baby will visit for a time with her mother, Mrs. W. T. Hill, before joining her husband at his new station, which place is undecided on just at present.

Her many friends will be sorry to learn that Grandma Mansfield is quite ill at the home of her daughter, Mrs. A. L. Jones.

The wheat around Helix is threshing out from 35 to 40 bushels per acre and is of excellent quality. A. McAlavy, John Timmerman, William Dale and William Thompkins have threshed enough to determine their average yield.

Born, to Mr. and Mrs. Fred Gross, Jr., August 4, a girl.

Clark Nelson, the manager of the Weston brick yard was in town last evening.

The 280-acre wheat field on George Gross' place west of town averaged 45 bushels per acre.

Miss Lilly Baniser was down from her mountain school and spent Sunday at her home in this city.

D. H. Sanders has bought the fine farm of County Commissioner Horace Walker, near Helix, for \$8,500.

August 9, 1904

For some reason or other there is a dearth of threshing machines, both steam and horse power, in this section of the great wheat belt.

Mrs. Eva Boddy left on yesterday morning's train for Tekoa, Washington, in company with Mr. and Mrs. E. D. Turner, of Pendleton. Mr. Turner is shipping his threshing outfit to that point in order to help take care of the harvest in that vicinity, and Mrs. Boddy will have charge of the culinary department.

Saturday being the 12th birthday of Emery Worthington, his mother, Mrs. H. O. Worthington, gave him a most pleasant celebration of the event in entertaining a large number of his boy friends. Ice cream and cake, after which a jolly romp followed, with various games until 5 p. m.

J. J. Gross orders his copy of the Athena Press sent to Woodward's Toll Gate for the month of August. He reports that they find it cool enough to sleep under blankets heavy enough for winter. There are 120 people in camp at that popular mountain resort. Like others who have investigated the prospect, Mr. Gross reports no berries in his vicinity.

Victor M. Shick writes the Press from his new home near Freese, Idaho, stating that he is doing finely and is well pleased with his new location. The only drawback, he states, to his country is the lack of railroad facilities, and these he is confident will come later. Crops, especially hay and garden produce are a great success, and the country is especially adapted for diversified farming and stock raising.

Miss Eudora Cartwright, who has been employed to teach the seventh grade in the Athena public school, and who taught in Milton last year is at present visiting the world's fair at St. Louis.

Mr. and Mrs. C. W. Gates are stationed for the present with their cooking car at Chatcalet on the beautiful Coeur de 'Alene lake. They are enthusiastic in their description of the scenery and splendid fishing.

Arthur Scott's wheat, on the Frank Mansfield place, yielded 40 bushels per acre.

Mrs. E. A. Dudley and Mrs. William McBride have each returned from an outing in the mountains.
