In a recent cargo of machinery received by the Preston-Parton Milling company, two big electric motors were unloaded. One is of 150 horsepower and the other is 50 horsepower. They are splendid pieces of machinery, and have been installed in the power house and in a short time will be ready to accomplish their essential part in turning the wheels in what is destined to be one of Athena's principle industries.

Uncle Tom Watts is not walking with his usual sprightly gait, but depends on a cane somewhat for support, this week, as the result of a kick from a horse. Sunday, while driving with his son, M. L., a young horse stood in the roadway, thinking the animal would step aside, no notice was taken of it but just as the buggy came in close range it gave a vicious kick, striking the elder Mr. Watts on the hip. Had he been a little nearer, the bone would undoubtedly have been broken.

While in the state of Washington last week Mr. and Mrs. E. A. Dudley visited Frank Rogers and wife at Garfield, and the families of A. R. Price and George McDonald, near Pullman. They report all these former Athenaites as well and prosperous.

Irish Luck

Thomas Meighan plays a dual role in "Irish Luck" his new Paramount picture. As Lord Fitzhugh, a young Irish aristocrat and Tom Donahue, a New York traffic cop on holiday in Ireland, he has an opportunity to portray two sharply contrasting characters. On the one hand, as the Irish nobleman, he is suave, sophisticated, polished and something of a black sheep. As the Irish-American traffic cop, he is good-natured and simple-hearted, an easy victim of a confidence game, and a terrible foe of a band of evil conspirators.

RUPTURE EXPERT HERE

F. H. Seeley, of Chicago and Philadelphia, the noted expert, will personally be at the Grand Hotel, and will remain in Walla Walla Friday only October 22. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures following operations, specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions.

CAUTION—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.
