FARMERS LINE UP

The State Market Agent finds there are thirty farm groups, comprising the "Grain Belt Federation of Farm Organizations," with one million farmers behind it, assessed five cents each to provide a fund of \$50,000, are now organized to make a great fight in the December session of congress to push the McNary-Haugen farm relief bill into legislation, to take care of the export surplus of staple farm products.

The agricultural colleges in the thirteen states represented have been asked to determine the cost of producing the staple products in the states, plus five per cent profit, as a basis for market levels. The Federation will present the computations to congress with the demand that agriculture be put on an even footing with other protected and prosperous industries, the slogan being "Protection for All or Protection for None." A movement is under way for the south to join with the west in support of the export program and because of the depression in cotton it is expected it will succeed. The McNary-Haugen bill was defeated at the last session of congress.

Interesting comparisons are advanced in a statement just issued by the National Industrial Conference Board, which cites tax rates in several of the principal cities of the country with direct reference to municipal ownership of utilities. The fact that the people of Oregon have only recently voted on a state wide measure involving the broad principle of government operation lends particular interest to the figures issued by this board. With a given index number of 100 per cent as the average of the United States with respect to living costs, it is stated officially that five cities are the most expensive in the country to live in at present, and their ratings follow: San Francisco, 112; Cleveland, 113.4; Jacksonville, 115.6; Detroit, 118.1; Seattle, 123.8.

Senator Gooding of Idaho: "The farmer cannot fix the price on anything he produces. He has to examine the newspapers in the morning to find out the price of his wheat, corn, cattle, cotton, hogs. When he has to buy he pays the price fixed by somebody else, but when he undertakes to sell any of his products he has to take his hat off to the man to whom he sells it—the man who fixes the farmers' price. Of course everyone knows that someone else fixes the price of everything the farmer has to buy."

Having at last been tipped off that murder and not suicide caused the deaths of four Portland women, it would be interesting to know how much of a reward the police department would consider big enough to justify it to dig in and capture the "strangler."

It transpires that Germany has met promptly, every obligation to the allies required of her under the Dawes plan. Included are reparations to the United States. All of which causes us to recall the "tigers" letter to President Coolidge some months ago.

The editor of the Vernonia Eagle opines that some persons seem to be satisfied if they can prevent others from having a good time. What are we to infer? Couldn't the Vernonian journalist find the cache, or did the orchestra quit at midnight.

Commenting on the supreme court decision that booze vendors are subject to both federal and state penalties, the Weston Leader plugs in on the lost chord by offering the suggestion that the bootlegger first be caught.

There is the mathematical difference of one, between twelve and thirteen—just enough for Notre Dame to win over the Trojans.

The American telephone system is handling daily 70,000,000 calls with 167,000 operators, and only half of them chewing gum, at that.

We'll just simply leave it to Yale and Harvard to settle whether "is" or "are" isn't or ain't.

Australia is all right, Dr. Meldrum; but so is Umatilla county.

Condolence

Whereas our supreme Father and ruler of the Universe has deemed it advisable to call from our midst and his loved ones, our beloved Brother Knight, Wade Hampton Booher,

Be it Resolved; that our Charter be draped for thirty days and a copy of this resolution be spread on the minutes of Pythian Lodge No. 29.

Be it further resolved; that a copy be sent to the Athena Press, and one copy sent to his beloved wife Mrs. W. H. Booher.

NOW-THE NEW MEADOWS

The World's Greatest Washing Machine

The only washing machine in the world that cleanses a 23-gallon tubful of clothes in 4 minutes

It is worth any woman's notice that the best working washer that money can buy is also the most attractive.

For the Meadows is the only washer that really cleanses a 23-gallon tubful of clothes in 4 minutes. And does the whole job without asking the housewife to come to the rescue on neck-bands and cuffs. The only washer that treats lingerie and filmy things as they were meant to be treated.

Here are the reasons for these superb advantages of washing with the Meadows:

The tub is 4 gallons bigger; it can be bigger because this washer embodies the secret of faster

water action; the washing process is gentler, though more thorough, because the Bakelite agitator is forever smooth and does not wear rough and sharp like the metal agitators in other machines.

You owe it to yourself to do at least one washing with the Meadows. Our service man can show you how to run it in three minutes' time.

You alone will decide that this machine has kept a rich promise. Phone us today for a demonstration.
