Cunningham, in Pendleton left for their home at Lethbridge, Canada, Saturday evening. Thursday Mrs. Cunningham and her guests were entertained at dinner at the home of Mr. and Mrs. Flint Johns in Athena.

Denies Engineering Course Is Taught

Answering a statement made on the floor of the state house of representatives during a recent consideration of educational appropriations, President A. B. Hall of the University of Oregon declared no engineering courses are taught in the University of Oregon, and have not been since 1914.

President Hall insisted that he was entirely in sympathy with any effort to prevent useless duplication of courses at state higher educational institutions, and that the university has always abided by the action of the state board and has no desire to duplicate work given at the Oregon Agricultural college.

It was said in the house that the two institutions are duplicating work, in that the university is teaching engineering and O. A. C. is giving instruction in journalism.

Mrs. Snyder's Funeral

The funeral of the late Mrs. J. M. P. Snyder of Walla Walla, who died last week at Baker, where she was visiting her daughter, was held Saturday at Walla Walla.

King Says It's Al

Al Smith will be the Democratic nominee for president, in the opinion of Will R. King, Portland, Democratic national committeeman.

Watts on banking. On Monday afternoon and evening a Missionary Education at the church. See program in full in this issue.

Church of Christ
The Meldrum series of sermon-lectures were closed last Sunday evening with an appeal to renewed spirituality, especially along the lines of sympathy, humility and mutual helpfulness. Dr. Meldrum's subject was "The Attitude of the Orient and the Occident Toward Christ" he proved conclusively that there is a crying desire of both the East and West for Christ if He can be freed from all creeds and doctrines and his simple life and example be presented to the people. Those who attended the series of lectures were unanimous in saying that it was the best thing that has been given in Athena or will likely be given for many days to come. Next Lord's Day we will resume our study in the life of Christ. The morning subject, "The Parables of Christ." In the evening we will discuss the practicability of Christian Unity. All other meetings of the week at the usual time and place. Come in time for Bible School. We have a class and teacher for you and will give you a hearty welcome.

WOLVERINE

The 1,000 Mile Shoe

Made of horsehide through and through

Ask for Stock No. 779

It dries out soft

This is the famous Wolverine 1000 Mile Shoe, made of horsehide through and through. A shoe that wears and wears and that stays soft, no matter how you wet it. This is due to the special double tanned Cordovan horsehide of which it is made. A leather that wears like iron and always remains soft even after it gets a real soaking in water, mud or slush. The lightest weight 1000 mile shoe made—no double leather anywhere, in upper or sole, yet made in Blucher style, Goodyear welt sewed and brass reinforced. Made to fit narrow feet as well as wide. Widths C, D, E. Good looking enough for every day wear, tough enough to stand any work job.
