Advance Information

Every trade has its stock of well-known yarns, but occasionally a new one does occur only, alas, in time to become a classic. A certain well-known newspaper man was holding forth to a group of writers among whom was a rather famous novelist. The journalist was saying that he had recently been engaged in revising the obituaries held in readiness by his paper. Turning to the novelist, he added jocosely: "I've just been writing you up."

To End Church Debt

Amos Skinner had never done any real work; instead, he had tried to invent something that would bring him a fortune.

Meeting an old friend, he rushed up to him, greatly excited.

"I've got it at last!" he shrieked. "Made my fortune, sure as eggs!"

"What is it this time?" asked his friend.

"Just a little device," said Skinner. "but it will bring me millions. Every church in the country'll buy one. You see, it's a collecting box with different slots for different coins. All silver money falls on velvet, while copper drops on a big ball!"

Watch value that defies comparison! This lovely watch has a white gold filled engraved case and a dependable 15 jewel Bulova Movement.
