Games were enjoyed and dainty refreshments were served by Mrs. Bell Pinkerton, Roma Charlton and Phyllis Dickenson.

The young man who caught for the Helix team in Sunday's game, was a son of the late Jesse Vaughan. The father lived in Athena when a boy, and when he grew up was much of a ball player himself. In "Yellow Kid" days, he played first base for that team when it was first organized. The son resembles his father very much and plays ball with the same vim and vigor.

The S. D. Club met Tuesday evening at the home of Myrtle Campbell with Arleen Myrick as hostess. Roll call was answered with current events. Mrs. A. W. Douglas was elected as new guardian to succeed Mrs. Bollinger. A party was planned for May 18th at the home of Mrs. Douglas. After business, light refreshments were served by the hostess. Next meeting May 8th will be with Marjorie Douglas.

A. A. Foss has traded his Main street business building, occupied by the Thompson Garage, to a Mr. Gallagher, of Freewater, for a 20-acre alfalfa and fruit ranch near that city. The place is highly improved and has modern conveniences. Mr. and Mrs. Foss are leaving Athena at once to reside on the ranch.

# This is General Motors Proving Ground

A birdseye view of the 1245-acre Proving Ground maintained by General Motors to assure the quality and value of its cars and trucks.

1. Entrance to the Proving Ground. The group of buildings includes complete experimental and service shops, engineering offices and comfortable living quarters for resident and visiting engineers and for the driving crews. The Proving Ground personnel numbers more than 200 men.

2. The 4-mile high-speed loop. The

largest in America, made of concrete, with turns banked to permit continuous high-speed operation. In addition, the Proving Ground has two concrete straight-aways 1 1/2 miles long, as level as a billiard table, and miles of brick, tar, gravel and dirt roads which reproduce every driving and weather condition.

3. The hill-test road. Test hill grades at the Proving Ground range from 7.26 per cent to 24 per cent. The grades on public highways seldom exceed 7 per cent.

4. The "bath-tub." A depressed concrete roadway which is filled with water at varying depths to reproduce flooded roadway conditions.

## Here each General Motors car must prove its value

ON a 1245-acre tract near Milford, Michigan, convenient to all its car and truck divisions, General Motors has the first and largest proving ground for automobiles.

Here tests are made and facts determined to a degree impossible when cars and trucks are tested on the public highways. Here each new model of General Motors must prove itself, point by point, before it is produced for sale to the public.

More than 135 different tests are applied to each car tested at the Proving Ground.

They involve every phase of construction and performance: power, speed, endurance, acceleration, braking, steering, handling, riding comfort, fuel economy and so on. In three months a car or truck covers more miles than you would drive it in three years.

The Proving Ground is another example of how General Motors is serving the public. It is also your assurance that when you buy a General Motors product you are getting all possible quality and value at its price and the advantages of a policy of continuous improvement.

## Look at these values—then clip the coupon

The current models of General Motors cars are briefly described below. Never before in the history of the automobile industry have such performance, such quality, such comfort and such beauty been offered in their respective price classes. *They have been proved at the Proving Ground!*

See which car or cars interest you most, then check and mail the coupon below. You will receive complete, illustrated information, together with two interesting little books telling all about General Motors Proving Ground and just what General Motors policies are.

(All prices F. O. B. at the factories)

**CHEVROLET.** 7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. Longer wheel base. Still more powerful engine. Luxurious Fisher Bodies. Shock absorber springs. New hood. New Duco colors. New instrument panel and other improvements. **ALSO** truck chassis: 1/2-ton, \$395. 1-ton, \$495.

**PONTIAC.** 8 models, \$745 to \$875. The lowest-priced quality "six." Improved from radiator to tail-light. For example: 4-wheel brakes, new GMR cylinder head, increased power, locking device, more luxurious Fisher Bodies. Finished in Duco in new colors.

**OLDSMOBILE.** 7 models, \$925 to \$1085. Entirely redesigned by General Motors, the new Oldsmobile has earned the title of "The Fine Car at Low Cost." Longer, roomier, more powerful—and the last word in styling. Fisher Bodies. 4-wheel brakes.

**OAKLAND.** 9 models, \$1045 to \$1375. The All-American Six. Advanced engineering and precision construction. Longer, lower and more beautiful. Bodies by Fisher. Every convenience, 4-wheel brakes. New Duco colors. Harmonic balancer.

**BUICK.** 16 models, \$1195 to \$1995. The largest value in Buick's famous history. Beautiful low bodies by Fisher. etsway like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "Valve-in-head" engine. Sealed-in chassis.

**LASALLE.** 16 models, \$2350 to \$2975. This beautiful car was designed as companion car to Cadillac. Has V-type 90 degree 8-cylinder engine which has made Cadillac the standard fine car of the world. Built in Cadillac factory. Continental in appearance.

**CADILLAC.** 26 models, \$3295 to \$5500. "What," General Motors asked last year, "can possibly be done to improve Cadillac?" The result is embodied in the new models now on display, representing the high-water mark of Cadillac's long history. Stupendous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

**FRIGIDAIRE**—The Electric Refrigerator. General Motors has applied the processes which have made the automobile available to every family, to the production of electric refrigerators. Frigidaire is the refrigerator made by General Motors and it is now the world's largest selling product in its field.

**DELCO-LIGHT** Electric Plants. Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power plants, water pumps, etc. Used in more than a quarter million homes.

For the convenient purchase of these products, General Motors offers the standard low-cost GMAC Plan.
