## WHEAT CROP'S SIZE 000,000 bushels out of the 622,000.- CRITICISM OF THE REMAINS UNCERTAI

Kansas and Oklahoma Expected to Show 25,000,000 Bushels Under.

Chicago, It is probable that the views regarding the domestic winter wheat crop, and possibly that of the first part of the season remains to be ments of the last week.

The outcome of the American winter and spring wheat crops is now it would buy wheat the effect on hanging in the balance, as well as that of Canada, and unless there are soaking rains in the spring wheat area a crop scare may get under way this week that will embrace the greater part of North America. This could not help but have considerable influence on world's values.

Taken as a whole, it is possible that the wheat crop in Kansas and Oklahoma ultimately will turn out 25,000,000 bushels of more under the June 1 expectation, which was 216,-000,000 bushels, compared with 237,-090,000 bushels last year. Nebraska, Illinois, Colorado and Missouri also have claimed crop deterioration, but the full extent of the damage cannot be determined until threshing time.

Apparently the damage to the wheat crop is a reflection of the excessive rains which came at the time figures since early in May. when the plant was in flower and it failed to pollinate as it should, resulting in unfilled heads, but the moisture Iowa Farmers Buy and resulted in plenty of straw and created the impression that there would be a large yield.

The acreage involved in the area now in doubt is large, and the six states that have sent in complaints of deterioration during the past week on June 1 had an indicated yield of 357,-

for a spring wheat crop in this country equal to the 324,000,000 bushels harvested last year and still fewer expect Canada to equal its 534,000,000 bushels secured in 1928. The latter was a freak yield, and the effect of it was very apparent on the world's

When the true import of the recently enacted farm relief bill is under-stood by the grain trade, it is provable that it will be a market factor of no mean importance.

Whether the farm board or stabigrain trade will have to revise its lization corporations can start to function in time to be of any benefit to the wheat producer during the entire world as the result of develop- seen, but it is certain that if the stablization corporation the first day after it is appointed announced that

> Sufficient acreage and weather data are at hand now to permit making tentative estimates on production of leading countries of the world. Reports would suggest that the 1929-30 world's crop is likely to show 150,000,000 to 250,000,000 bushels under the 3,710,000,000 bushels secured last season. As near as can be estimated, the world's consumption in 1928-29

will be around 3,600,000,000 bushels. Wheat values advanced rather violently during last week, and at the high point showed around 19c over the inside figures of the season, which were made on May 31. While the prospective farm relief was a factor in checking the decline and making the first strong rally, it remained for crop damage to bring in speculative buying and the upturn to the best

### Sell Through Combine

Des Moines.-For more than 30 years the farmers in the vicinity of Monticello, Ia., have been served in their selling and purchasing by a cooperative enterprise of their own, the Farmers' Mutual Creamery com-

Although originally started as a creamery, the association now serves its patrons in the marketing of milk, poultry, eggs and livestock. Through a department store it provides them with many of their supplies. Today the association owns property valued at \$60,000, considered as belonging to the community. The several depart-ments serve about 400 farmers

Heavy Rain At Vansycle Weston Leader: Ed Tucker reports that torrents of rain fell Saturday in the Vansycle region about six miles from Helix, where his ranch home is located. For a time the downpour reached almost the proportions ically." of a cloudburst, and he thinks there must have been at least an inch of precipitation. Grain in the Vansycle region will be benefited, but the crop prospect there this year Mr. Tucker does not regard as very promising. he expects a much better yield from the other Tucker ranch which his son Dale is operating in the Holdman region. Helix wheat, he says, is flourishing.

Rate Decision Pending

The Pendleton East Oregonain says that a copy of a telegram has been received by James Hill, president of the Umatilla County Farm Bureau, through Arthur M. Geary, attorney in the case for the Washington, Oregon and Idaho Farm Bureaus, Farmer unions and granges, in which chairman E. I. Lewis of the interstate commerce commission, states that no definite time can be given as to when the final decision in the grain rate investigation will be pub-

Picnic On July Fourth The ladies of Reed and Hawley, Wild Horse and Weston mountain have agreed upon a community picnic celebration of the Fourth of July, which will be held at Camp Cold Spring reports the Weston Leader. The arrangements have not been completed, and it is not known yet whether there will be a program. That there will be a wonderful "feed"cooked by culinary experts and dis-

Buckaroos At Pomeroy Pendleton's Buckaroos, winning team in the Blue Mountain baseball league, will enter a tournament to be played by four teams at Pomeroy, Washington, July 3-4-5. Six games will be played between Pendleton, Walla Walla, Pomeroy and Lewiston. The teams will split a \$2500 purse.

cussed by gastronomic connoisseurs

may be safely predicted.

Old-Time Trap Shot Jim Spence, old-time trap shooter on the Pendleton club, was in town for a few minutes Monday, en route to his home at Pomeroy, Washington. Spence is well known to Umatilla county people, having been a news-paper subscription solicitor here.

Held At Dayton Two men resembling those believed to have robbed the Ronan Montana State bank Wednesday are being held at Dayton, Washington.

Senator Fears Huge Merger Will Control Farm Products.

Washington,-The fear that the machinery provided in the new farm relief act may result in the formation of "additional organizations of giant proportions to control agricultural products" was expressed today by Senator King, democrat, Utah, in a statement in which he also called upon the attorney general to "take prompt action to enforce the antitrust laws."

The senator called attention to recent announcements that the Postum company, inc., and the General Food company, "were establishing a more perfect union" and declared that it was obvious "that if the federal government and the various states do not enforce their laws against monopolies and trusts and giant combinations most serious consequences will result, jeopardizing not only the eco-nomic but the political freedom of the American people.'

Declaring that it had been suggested "other similar mergers will be formed for the control of agriculture products because of the belief that under the farm bill there will be increasing surpluses," the senator said that the chief duty of the farm board would be the controlling of surpluses.

"This," he said, "is to be at its dis posal. These accumulations will inevitably depress the market for raw products and eventuate in their sale by the farm board.

This situation may have prompted the Morgan merger and may lead to the formation of additional organizations of giant proportions to control agricultural products."

Senator C. C. Dill, home from Washington, said that he was "afraid" that the farm relief program, as passed during the special session of congress, "will not work out as arranged now."

"I strongly advocated the deben ture plan of some arrangement which would give the farmer some benefit of the tariff," he asserted, but it did not carry. And although it was not in

line with my beliefs, I voted for it.
"The fight for the debenture has just begun, as it will be carried to the tariff bill this fall, and probably it will go into the tariff bill with more propriety. In the farm bill its use would be optional, as a part of the tariff it would operate automat-

Although congress has voted \$150,-000,000 for the farm bill, more probably will be needed when the fall session opens, he said.
