Editorial

(Stafford Hansell)

Nearly everybody has a business or a hobby that they are adept at and know better than the average person. A football referee or any athletic official has generally made a study of sport rules and is versed in their knowledge. Sometimes he is wrong but as a rule he knows the game better than the players who played in the days of "nose guards" and the "flying wedge" or those who have never played the game. Somebody is always "crying" about some imaginary bad decision. The amateur sport should be free from this nagging form of criticism. Nothing is more disgusting to the average spectator than loud complaints of "kill the referee" and the like. The spectators are not in a position to see the game as accurately as the official nor to interpret the action clearly if they could. There is nothing so very important in high school athletics but the fun that is had and if this fun is spoiled the entire game loses its value to the spectator and the player.

Athletics

The game with Kennewick Friday was good. The opponent was the best team that Athena has run into this season. The game was hard fought by both sides but Kennewick received a surprise when the game ended 7-0 in favor of the local boys. Kennewick expected to have the game by a wide margin, but instead the teams were well matched and there was no scoring till the last quarter when with about two minutes to play Athena scored a touchdown.

Myrick showed up well on the offensive, carrying the ball for several long gains. Arthur Crowley, the dashing quarter, who was showing up well on both offensive and defensive, was hurt and was taken out of the game. This slowed the team up somewhat, but they had the real old school spirit.

This was the last game of the season and the team was backed to the limit, not only by the student body, but by the town as a whole. The boys had to win, and they did!
