why smokers
graduate
to

CAMELS—

The phrase "I've graduated to Camels" originated with a Camel smoker. It expresses the experience of millions who through Camels have learned to know real smoking pleasure.

As taste in smoking develops, it naturally leads toward better quality. New smokers may not be critical but when they once experience the true mildness and surpassing fragrance of the Camel blend, they realize that here is a real superiority. It is for smokers of such discernment that Camels are made . . . for them the choicest tobaccos are selected . . . and this quality is maintained for the millions who know genuine smoking pleasure.

when they learn the difference
they flock to **Camels**
