It's a Wolverine!

Bends Like Rubber—
Outwears Any Other Shoe!

A FLEXIBLE sole that's kind to your feet . . . that yields quickly and cradles your foot comfortably when you stoop or kneel—that's what this Wolverine Horseshide Work Shoe does to make your day's work easier.

If you've never worn a Wolverine Horseshide Work Shoe you have a treat in store for you. You'd hardly believe work shoes could stay so soft, wear so long. Wolverine uppers do stay soft. They are scuff-proof. Acid conditions that quickly eat the uppers of ordinary work shoes don't faze a Wolverine upper. And they wear longer because they're made of the recognized longest wearing leather—Shell Horseshide.

We suggest that you come in today and try on a pair of Wolverines without obligation to buy. Your favorite style is here, too—ankle lengths to knee highs. And all these extra features cost no more than you'd pay for any good work shoe.
